The Miracle Years:

The Miracle Years Hanna Schissler, 2020-12-08 Stereotypical descriptions showcase West Germany as an economic miracle or cast it in the narrow terms of Cold War politics Such depictions neglect how material hardship preceded success and how a fascist past and communist sibling complicated the country's image as a bastion of democracy Even more disappointing they brush over a rich and variegated cultural history That history is told here by leading scholars of German history literature and film in what is destined to become the volume on postwar West German culture and society In it we read about the lives of real people from German children fathered by black Occupation soldiers to communist activists from surviving Jews to Turkish guest workers from young hoodlums to middle class mothers We learn how they experienced and represented the institutions and social forces that shaped their lives and defined the wider culture We see how two generations of West Germans came to terms not only with war guilt division from East Germany and the Angst of nuclear threat but also with changing gender relations the Americanization of popular culture and the rise of conspicuous consumption Individually these essays peer into fascinating overlooked corners of German life Together they tell what it really meant to live in West Germany in the 1950s and 1960s In addition to the editor the contributors are Volker R Berghahn Frank Biess Heide Fehrenbach Michael Geyer Elizabeth Heineman Ulrich Herbert Maria Hahn Karin Huhn Kaspar Maase Richard McCormick Robert G Moeller Lutz Niethammer Uta G Poiger Diethelm Prowe Frank Stern Arnold Sywottek Frank Trommler Eric D Weitz Juliane Wetzel and Dorothee Wierling

Nature of the Miracle Years Sandra Chaney, 2008 After 1945 those responsible for conservation in Germany resumed their work with a relatively high degree of continuity as far as laws and personnel were concerned Yet conservationists soon found they had little choice but to modernize their views and practices in the challenging postwar context Forced to change by necessity those involved in state sponsored conservation institutionalized and professionalized their efforts while several private groups became more confrontational in their message and tactics Through their steady and often conservative presence within the mainstream of West German society conservationists ensured that by 1970 the map of the country was dotted with hundreds of reserves dozens of nature parks and one national park In doing so they assured themselves a strong position to participate in rather than be excluded from the left leaning environmental movement of the 1970s

The Miracle Years Hanna Schissler, 2001 Exploring postwar German history literature and film this text examines the lives of real people to learn how they experienced and represented the institutions and social forces that shaped their lives and defined the wider culture

Power and the People Eleonore C. M. Breuning, Dr. Jill Lewis, Gareth Pritchard, 2005 This book covers various aspects of the social history of politics on both sides of the Iron Curtain in the period 1945 to 1956 The contributors come from a range of countries Austria Germany Hungary Slovakia and the United Kingdom and comprise a mixture of established historians and younger scholars engaged in pioneering research The individual chapters are organised into four sections dealing with workers ethnic and linguistic minorities youth and women In order to enhance the comparative character of the volume the four chapters contained in each section consider the position of these social groups in respectively West Germany East Germany Austria and either Czechoslovakia or Hungary Major themes include the absence of popular revolutions in the aftermath of World War Two the re imposition of social control by post war elites the attempt to restore pre war gender relations and the failure of Communist parties to win popular support The chosen time frame saw most of the decisive developments which set the pattern for the remaining Cold War period and is therefore of key importance for any student of this topic

Threatened Masculinity from British Fiction to Cold War German Cinema Joseph Willis, 2019-05-30 The impact of the Cold War on German male identities can be seen in the nation's cinematic search for a masculine paradigm that rejected the fate centered value system of its National Socialist past while also recognizing that German males once again had become victims of fate and fatalism but now within the value system of the Soviet and American hegemonies that determined the fate of Cold War Germany and Central Europe This monograph is the first to demonstrate that this Cold War cinematic search sought out a meaningful masculine paradigm through film adaptations of late Victorian and Edwardian male writers who likewise sought a means of self determination within a hegemonic structure that often left few opportunities for personal agency In contrast to the scholarly practice of exploring categories of modern masculinity such as Victorian imperialist manliness or German Cold War male identity as distinct from each other this monograph offers an important comparative corrective that brings forward an extremely influential century long trajectory of threatened masculinity For German Cold War masculinity lessons were to be learned from history namely from late Victorian and Edwardian models of manliness Cold War Germans like the Victorians before them had to confront the unknowns of a new world without fear or hesitation In a Cold War mentality where nuclear technology and geographic distance had trumped face to face confrontation between East and West Cold War German masculinity sought alternatives to the insanity of mutual nuclear destruction by choosing not just to confront threats but to resolve threats directly through personal agency and self determination

Coming of Age Martin Kalb, 2016-05-01 In the lean and anxious years following World War II Munich society became obsessed with the moral condition of its youth Initially

born of the economic and social disruption of the war years a preoccupation with juvenile delinquency progressed into a full blown panic over the hypothetical threat that young men and women posed to postwar stability As Martin Kalb shows in this fascinating study constructs like the rowdy young boy and the sexually deviant girl served as proxies for the diffuse fears of adult society while allowing authorities ranging from local institutions to the U S military government to strengthen forms of social control
