The Miseducation Of American Teachers:

The Miseducation of American Teachers James D. Koerner, 1963 American schools can never be better than the ability and training of American teachers But who is the American teacher today and how is he educated For two years James Koerner searched for the answers to these questions He visited teachers colleges and schools of education throughout the country interviewed hundreds of students and professors of education poured over transcripts study programs and course outlines This is his report It is blunt to the point and scathing It shows our teacher training institutions to be filled with weak students being taught by weak faculties in courses that are vacuous and ineffectual But Mr Koerner is a constructive critic aware of new signs of progress and convinced that reform is possible Throughout he offers sane and specific recommendations for improving the caliber of the American teaching profession Back cover *The Miseducation of American Teachers* James D.
