Infallible Proofs (Henry Morris Signature Collection) Dr. Henry M. Morris, Henry M. Morris III, 1974-08-01 Christians today especially in America are woefully ignorant about the Bible and what impact it can have on a world of darkness This

despite the words of 1 Peter 3:15 But in your hearts set apart Christ as Lord Always be prepared to give an answer to everyone who asks you to give the reason for the hope that you have Thankfully scholars like Henry Morris have seen fit to provide us with good answers for questions posed by Bible critics and by multitudes of Christians for Christ himself has provided us with many infallible proofs Acts 1:23 Christians will be strengthened with these topics Problems in verbal inspiration Fulfillment of prophecy The structure of Scripture Alleged Bible contradictions The Bible and science The Bible and ancient history The unique birth of Christ

Men of Science, Men of God Henry Morris, 1988-07-01 One of the most serious fallacies today is the belief that genuine scientists cannot believe the Bible BUT THE TRUTH IS that many of the major scientific contributions were made by scientists who were dedicated men of God In *Men of Science, Men of God* Dr Henry Morris presents 101 biographies and Christian testimonies of scientists who believed in the Bible and in a personal Creator God scientists who were pioneers and founding fathers of modern scientific disciplines

Genetic Turning Points James C. Peterson, 2001-04-09 This timely volume clearly lays out the central ethical questions raised by today's rapid advances in biotechnology James Peterson sorts through the maze of clinical decisions occasioned by human genetic intervention organizing the range of moral considerations that now face us and exploring their practical impact on individuals families and communities The ethical questions are covered in the order of how soon the particular technologies that raise them are becoming available This unique format allows readers to go directly to issues of particular interest Peterson assumes no prior knowledge of genetics or ethics making his work one of the most accessible discussions of bioethics available today

The God Who is Real Henry M. Morris, 2000 Written really for the unbeliever or person whose faith is weak this book is a fresh look at the author's love of apologetic works emphasizing the amazing design of the created world An easily read book *The God Who is Real* reiterates that quite different from the god of deism the true God of the universe is also very near to each of us Dr Morris' unique commentary on God's Word will make a powerful witnessing tool for anyone with a burden for the lost while serving as a steady guide for the believer

Species of Origins Karl Giberson, Donald A. Yerxa, 2002 In *Species of Origins* Karl W. Giberson and Donald A. Yerxa examine America's controversial conversation about creation and evolution While noting that part of the discord stems from the growing cultural and religious diversity of the United States they argue powerfully that the real issue is the headlong confrontation between two seemingly incompatible worldviews upon which millions of Americans rely modern naturalistic science and traditional Judeo-Christian religions Visit our website for sample chapters
