The Modern School Movement Anarchism And Education In The United States:

The Modern School Movement Paul Avrich, 2014-07-14 In this comprehensive study of the Modern School movement Paul Avrich narrates its history analyzes its successes and failures and assesses its place in American life In doing so he shows how the radical experimentation in art and communal living as well as in education during this period set the precedent for much of the artistic social and educational ferment of the 1960 s and 1970 s Originally published in 1980 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

Anarchist Education and the Modern School Francisco Ferrer, 2018-12-15 On October 13 1909 Francisco Ferrer the notorious Catalan anarchist educator and founder of the Modern School was executed by firing squad The Spanish government accused him of masterminding the Tragic Week rebellion while the transnational movement that emerged in his defense argued that he was simply the founder of the groundbreaking Modern School of Barcelona Was Ferrer a ferocious revolutionary an ardently nonviolent pedagogue or something else entirely *Anarchist Education and the Modern School* is the first historical reader to gather together Ferrer s writings on rationalist education revolutionary violence and the general strike most translated into English for the first time and put them into conversation with the letters speeches and articles of his comrades collaborators and critics to show that the truth about the founder of the Modern School was far more complex than most of his friends or enemies realized Francisco Ferrer navigated a tempestuous world of anarchist assassins radical republican conspirators anticlerical rioters and freethinking educators to establish the legendary Escuela Moderna and the Modern School movement that his martyrdom propelled around the globe

Anarchism and Education Judith Suisa,2010-09-15 While there have been historical accounts of the anarchist school movement there has been no systematic work on the philosophical underpinnings of anarchist educational ideas until now Anarchism and Education offers a philosophical account of the neglected tradition of anarchist thought on education Although few anarchist thinkers wrote systematically on education this analysis is based largely on a reconstruction of the educational thought of anarchist thinkers gleaned from their various ethical philosophical and popular writings Primarily drawing on the work of the nineteenth century anarchist theorists such as Bakunin Kropotkin and Proudhon the book also covers twentieth century anarchist thinkers such as Noam Chomsky Paul Goodman Daniel Guerin and Colin Ward This original work will interest philosophers of education and educationalist thinkers as well as those with a general interest in anarchism

At the turn of the twentieth century the United States was faced with a new and radically mixed population one that included freed African Americans former reservation Indians and a burgeoning immigrant population In *The Autobiography of Citizenship* Tova Cooper looks at how educators tried to impose unity on this divergent population and how the new citizens in turn often resisted these efforts reshaping mainstream U S culture and embracing their own view of what it means to be an American *The Autobiography of Citizenship* traces how citizenship education programs began popping up all over the country influenced by the progressive approach to hands on learning popularized by John Dewey and his followers Cooper offers an insightful account of these programs enlivened with compelling readings of archival materials such as photos of students in the process of learning autobiographical writing by both teachers and new citizens and memoirs photos poems and novels by authors such as W E B Du Bois Jane Addams Charles Reznikoff and Emma Goldman Indeed Cooper provides the first comparative inside look at these citizenship programs revealing that they varied wildly at one end assimilationist boarding schools required American Indian children to transform their dress language and beliefs while at the other end the libertarian Modern School encouraged immigrant children to frolic naked in the countryside and learn about the world by walking hiking and following their whims Here then is an engaging portrait of what it was like to be and become a U S citizen one hundred years ago showing that what it means to be American is never static
