Learning History in America Lloyd S. Kramer,Donald Reid,William L. Barney,1994-01-01

The essays in this book like all other texts have been written in a historical context that shapes both the themes and the prose styles of the authors A close reading of these texts would in fact lead to many overlapping contexts of politics social hierarchies modern communications and international relations but we want to focus briefly on two contextual influences that carry the most obvious connections to this book the wide ranging public debate about the proper curriculum for American schools and universities and the more specific debate among historians about new trends in historical scholarship

Papermaking in Eighteenth-Century France Leonard N. Rosenband,2003-05-22 Eight years before the French Revolution the paper mill at Vidalon le Haut was the setting for a bitter strike and successful lockout This labor dispute resulting from conflicts between master papermakers and skilled journeymen ultimately benefitted the mill s owners and administrators the Montgolfier family They converted the 1781 lockout into an opportunity to train a new kind of worker a malleable employee and to fashion a new sort of workplace a theater of technological experiment Papermaking in Eighteenth Century France Management Labor and Revolution at the Montgolfier Mill 1761 1805 gives us history from the workshop up offering the most comprehensive exploration available of the historical experience of papermaking Leonard N Rosenband explains how paper was made depicting the tools techniques raw materials and seasonable flows of the craft and explores the many conflicts and compromises between masters and men Rosenband provides a compelling account of how technological change affected the papermaking industry transforming an elaborate established system of production The Montgolfier archives are a rich source of information providing records of daily output and procedures including complex rules ranging from the precise hours of meals and prayer to matters of propriety and personal sanitation They also provide insight into the attitudes of the Montgolfier family and their workers what they made of their trade their labor and one another This case study of the Montgolfier mill adding details about technological innovation and shopfloor relations during a time of social

Restructuring the French Economy William James Adams, 2010-12-01 At the end of World War II experts on both sides of the Atlantic believed that France was doomed to economic stagnation French culture and institutions they argued inhibited the changes in economic structure that sustained growth would require But in spite of these predictions and the occasional volatility of the world economy the French economy grew rapidly Only the Japanese of the major economies has grown faster and by 1975 the French standard of living matched that of West Germany Restructuring the French Economy looks at the four decades of the structural changes that fostered growth and explores explanations of why such changes occurred Drawing on many and diverse primary materials including government statistics judicial decisions and professional memoirs Adams examines three different explanations of France's postwar economic success The first downplays the extent of structural change during the surge of growth The second emphasizes the importance of government policies to compensate for inadequate private initiative The third suggests that European economic integration and French decolonization created enough market competition to push the private sector into

its own restructuring Adams stresses that if government initiatives worked well they did so in an environment of strong market competition if competition seemed to work wonders it occurred only as a result of government actions He also devotes considerable attention to the implications of his findings for U S policy concerning European protectionism and the health and growth of American industries
