The Moon Pool Abraham Merritt, 2001-01-01 On the island of Ponape in the South Pacific the cold light of a full moon washes over the crumbling ruins of an ancient vanished civilization Unleashed from the depths is the Dweller a glittering enigmatic force of monstrous terror and radiant beauty that stalks the South Pacific claiming all in its path An international expedition led by American Walter Goodwin races to save those who have fallen victim to the Dweller The dark mystery behind the malevolent force is Muria a forgotten mythic world deep within the earth that is home to a legendary people intent on reclaiming what was theirs long ago This commemorative edition of The Moon Pool features an introduction by Robert Silverberg a review of the first edition and a glossary of the Murian language

The Citadel of Fear (Sci-Fi Classic) Francis Stevens, Gertrude Barrows Bennett, 2023-12-26 The Citadel of Fear Sci Fi Classic emerges as a seminal anthology that delves into the intricate interplay of fear and science fiction unmasking tales that are as diverse as they are haunting This collection juxtaposes riveting tales of cosmic dread with imaginative speculative narratives that push the boundaries of the genre The works included span a tapestry of styles from the vividly descriptive to the starkly minimalistic each narrative a unique exploration of the unknown and the otherworldly Through its standout pieces of psychological profundity and fantastical realms the anthology cements its place as a landmark in speculative fiction Behind this collection is the visionary mind of Gertrude Barrows Bennett writing as Francis Stevens whose work reshaped science fiction in the early 20th century Her narratives often intersect with themes rising from the tumultuous socio political backdrops of her time breathing life into tales that fuse science with the supernatural Bennett s diverse background and innovative storytelling echo throughout the anthology aligning with movements of early feminist science fiction thus enriching and diversifying the reader s engagement with each text For readers eager to explore the multiplicity of perspectives inherent in speculative fiction The Citadel of Fear stands as an imperative read Not merely a collection of stories it offers a profound expedition into the realms of fear and imagination that defined and challenged early 20th century science fiction Each narrative invites readers to witness the dialogue between diverse literary visions expanding their appreciation for the educational and philosophical dialogues fostered within these pages

Colonialism and the Emergence of Science Fiction John Rieder, 2013-01-01 This groundbreaking study explores science fiction s complex relationship with colonialism and imperialism In the first full length study of the subject John Rieder argues that the history and ideology of colonialism are crucial components of science fiction s displaced references to history and its engagement in ideological production With original scholarship and theoretical sophistication he offers new and innovative readings of both acknowledged classics and rediscovered gems Rieder proposes that the basic texture of much science fiction in particular its vacillation between fantasies of discovery and visions of disaster is established by the profound ambivalence that pervades colonial accounts of the exotic other Includes discussion of works by Edwin A Abbott Edward Bellamy Edgar Rice Burroughs John W Campbell George

Yang, 2009-10-02 The X Files and Literature Unweaving the Story Unraveling the Lie to find the Truth provides an innovative and valuable exploration of the groundbreaking television program Although much academic work has been devoted to the social psychological and spiritual significance of The X Files until this collection none has fully addressed the series rich adaptation of literature to interrogate our perception definition or recounting of the truth This collection not only unveils new twists and insights into expected connections between The X Files and Gothic writers or with its modernist and post modernist slants on narrative plot and characterization The X Files and Literature also delves into some unexpected literary sources shaping the series such as the Arthurian quest Catholic and Biblical mythology folkloristics and James Fennimore Cooper and the vanishing American mythos This collection of essays covers both how The X Files works with literature s own constantly morphing definition and portrayal of truth through form and content as well as how the television program may or may not subvert our own contradictory expectations and distrust of literature s providing us with enlightenment As television becomes more and more literary with shows like *Lost* and *Gilmore Girls* sending us off to the bookstore and the library so we might read them more carefully a book like *The X Files and Literature* is welcome indeed Sharon R Yang s diverse collection on one of Nineties TV s richest texts finds the truth of the gothic and the Arthurian and the folkloric of the postmodern and the metafictional of Poe Pynchon Cooper Nabokov and Tennyson not just out there but in the perhaps too complicated narrative of the perpetually frustrated quests of Mulder and Scully Valuable in itself as an intellectual exercise its real worth may come when we put the book down and return smarter better readers to the primary text David Lavery Co Editor Deny All Knowledge Investigating The X Files Sharon Yang s X Files collection deals with an important subject addressed by thoughtful writers The idea that television can be seen as a branch of literature is certainly sustained by The X Files and the contributors to this volume succeed in making the case Brian Hauser on Fenimore Cooper Cary Jones on Mary Shelley Tamy Burnett on Poe Thomas Argiro on Pynchon Matthew VanWinkle on Tennyson these and more explore the connections with The X Files not only in terms of sources but also themes and techniques Both students of television and literature will want to own this book Rhonda V Wilcox Ph D Professor of English Gordon College Barnesville **The Emergence of Latin American Science Fiction** Rachel Haywood Ferreira, 2011-07-01 A fantastic voyage through the early science fiction of Latin America Early science fiction has often been associated almost exclusively with Northern industrialized nations In this groundbreaking exploration of the science fiction written in Latin America prior to 1920 Rachel Haywood Ferreira argues that science fiction has always been a global genre She traces how and why the genre quickly reached Latin America and analyzes how writers in Argentina Brazil and Mexico adapted science fiction to reflect their own realities Among the texts discussed are one of the first defenses of Darwinism in
