The Mosque in Early Ottoman Architecture Aptullah Kuran, 1968 **Aptullah Kuran, The mosque in early Ottoman architecture. 1968. [Review].** J. M. Rogers, Résumé de The Mosque in Early Ottoman Architecture. - Chicago : London : University of Chicago Press, 1968 John Michael Rogers, 19?? *A History of Ottoman Architecture* John Freely, 2011 This text is focused on the history of the extant buildings in the Republic of Turkey The book begins with a brief history of the Ottoman Empire and develops by outlining the main features of Ottoman architecture and discusses the biography of the great Ottoman architect Sinan Early Ottoman Art: The Legacy of the Emirates Gönül Öney, Lale Bulut, Şakir Çakmak, Ertan Daş, Aydoğan Demir, Yekta Demiralp, İnci Kuyulu, Rahmi H. Ünal, 2013-06-01 *The First Capital of the Ottoman Empire* Suna Cagaptay, 2020-11-12 From 1326 to 1402 Bursa known to the Byzantines as Prousa served as the first capital of the Ottoman Empire It retained its spiritual and commercial importance even after Edirne Adrianople in Thrace and later Constantinople Istanbul functioned as Ottoman capitals Yet to date no comprehensive study has been published on the city's role as the inaugural center of a great empire In works by art and architectural historians the city has often been portrayed as having a small or insignificant pre Ottoman past as if the Ottomans created the city from scratch This couldn't be farther from the truth In this book rooted in the author's archaeological experience Suna Cagaptay tells the story of the transition from a Byzantine Christian city to an Islamic Ottoman one positing that Bursa was a multi faith capital where we can see the religious plurality and modernity of the Ottoman world The encounter between local and incoming forms as this book shows created a synthesis filled with nuance texture and meaning Indeed when one looks more closely and recognizes that the contributions of the past do not threaten the authenticity of the present a richer and more accurate narrative of the city and its Ottoman accommodation emerges Encyclopedia of the Ottoman Empire Gábor Ágoston, Bruce Alan Masters, 2009 Presents a comprehensive A to Z reference to the empire that once encompassed large parts of the modern day Middle East North Africa and southeastern Europe **The Muslim Empires of the Ottomans, Safavids, and Mughals** Stephen F. Dale, 2009-12-24 Between 1453 and 1526 Muslims founded three major states in the Mediterranean Iran and South Asia respectively the Ottoman Safavid and Mughal empires By the early seventeenth century their descendants controlled territories that encompassed much of the Muslim world stretching from the Balkans and North Africa to the Bay of Bengal and including a combined population of between 130 and 160 million people This book is the first comparative study of the politics religion and culture of these three empires between 1300 and 1923 At the heart of the analysis is Islam and how it impacted on the political and military structures the economy language literature and religious traditions of these great empires This original and sophisticated study provides an antidote to the modern view of Muslim societies by illustrating the complexity humanity and vitality of these empires empires that cannot be reduced simply to religious doctrine **The Art and Architecture of Islam 1250-1800** Sheila S. Blair, Jonathan M. Bloom, 1996-09-25 They

discuss for example how the universal caliphs of the first six centuries gave way to regional rulers and how in this new world order Iranian forms techniques and motifs played a dominant role in the artistic life of most of the Muslim world the one exception was the Maghrib an area protected from the full brunt of the Mongol invasions where traditional models continued to inspire artists and patrons By the sixteenth century say the authors the eastern Mediterranean under the Ottomans and the area of northern India under the Mughals had become more powerful and the Iranian models of early Ottoman and Mughal art gradually gave way to distinct regional and imperial styles

Architecture and Landscape in Medieval Anatolia, 1100-1500 Patricia Blessing, 2017-03-08 Anatolia was home to a large number of polities in the medieval period Given its location at the geographical and chronological juncture between Byzantines and the Ottomans its story tends to be read through the Seljuk experience This obscures the multiple experiences and spaces of Anatolia under the Byzantine empire Turko Muslim dynasties contemporary to the Seljuks the Mongol Ilkhanids and the various beyliks of eastern and western Anatolia This book looks beyond political structures and towards a reconsideration of the interactions between the rural and the urban an analysis of the relationships between architecture culture and power and an examination of the region's multiple geographies In order to expand historiographical perspectives it draws on a wide variety of sources architectural artistic documentary and literary including texts composed in several languages Arabic Armenian Byzantine Greek Persian and Turkish Original in its coverage of this period from the perspective of multiple polities religions and languages this volume is also the first to truly embrace the cultural complexity that was inherent in the reality of daily life in medieval Anatolia and surrounding regions
