suitors and encounters with multi-headed demons, Mongol mungus, one-eyed giants and female demons of the underworld. Southern epics focus on tales of how early deities created the sky, earth, water and land forms and living beings, often listing specific plants, animals and local tribes. Some of these epics involve female creator figures and many play out in a dynamic process that moves through phases of initial creation, destruction by fire, a second creation, a destructive flood and the ultimate re-creation of the world as we now know it. There are also heroic epics from southern China, most notably from the Yi Dai and Miao.

Burlesque John D. Jump, 2017-07-06. First published in 1972, this book provides a helpful introduction to burlesque literature, a term used by critics from the seventh century onwards to describe work in which an incongruity between serious subject matter and style is used to provoke laughter. It examines the four main types of burlesque writing: Travesty, Hudibrastic Parody and the Mock Poem, as well as dramatic burlesques.

Les Misérables Victor Hugo, 1915

Poetics Aristotle, 1987-12-15. Richard Janko's acclaimed translation of Aristotle's *Poetics* is accompanied by the most comprehensive commentary available in English that does not presume knowledge of the original Greek. Two other unique features are Janko's translations with notes of both the *Tractatus Coislinianus*, which is argued to be a summary of the lost second book of the *Poetics*, and fragments of Aristotle's dialogue *On Poets*, including recently discovered texts about catharsis which appear in English for the first time.

Complete and Full with Numbers John MacQueen, 2006. This book presents a major re-examination of the works of the fifteenth-century Scottish poet Robert Henryson. Encompassing the full range of the poet's work, Professor John MacQueen opens up previously unexplored areas of both Henryson's literary practice and his underlying moral and philosophical vision. MacQueen argues that numerology is central to the intellectual landscape that shaped Henryson's development as a poet and that numerological patterns and structures are embedded throughout his corpus, revealing themselves not simply in such overtly allegorical works as *The Testament of Cresseid* but also in many of the *Fables* as well. This book therefore recovers for a modern audience qualities to which Henryson's original readers would have been alert while at the same time conveying something of the energy and excitement of his intellectual and poetic culture.

A Companion to Hellenistic Literature James J. Clauss, Martine Cuypers, 2014-01-28. Offering unparalleled scope, *A Companion to Hellenistic Literature* in 30 newly commissioned essays explores the social and intellectual contexts of literature production in the Hellenistic period and examines the relationship between Hellenistic and earlier literature. Provides a wide-ranging critical examination of Hellenistic literature, including the works of well-respected poets alongside lesser-known historical, philosophical and scientific prose of the period. Explores how the indigenous literatures of Hellenized lands influenced Greek literature and how Greek literature influenced Jewish, Near Eastern, Egyptian and Roman literary works.
