Philosophy and Alchemy Mary Anne Atwood,1960 This book is one of the best and most comprehensive about Hermetic philosophy and a perfect textbook for your first steps into alchemy Being a real suggestive inquiry into the Hermetic mystery this work consists of four parts I An Exoteric View of the Progress and Theory of Alchemy II A More Esoteric Consideration of the Hermetic Art Its Mysteries III Concerning the Laws and Vital Conditions of the Hermetic Experiment IV The Hermetic Practice **The Mage's Images: Heinrich Khunrath in His Oratory and Laboratory, Volume 4** Peter J.

Forshaw,2025-09-09 This is the 4th volume in a 4 volume work entitled The Mage s Images The work provides the first in depth examination of the life and works of Heinrich Khunrath 1560 1605 one of the great Hermetic philosophers whose Amphitheatre of Eternal Wisdom 1595 1609 has been described as one of the most important books in the whole literature of theosophical alchemy and the occult sciences Khunrath is best known for his novel combination of scripture and picture in the complex engravings in his Amphitheatre In this richly illustrated monograph Forshaw analyses occult symbolism with previously unpublished material offering insight into Khunrath s insistence on the necessary combination of alchemy magic and cabala in Oratory and Laboratory **The Journal of the Alchemical Society** ,1913 **Alexandria 5** David

Fideler,2000-04-01 In ancient Egypt the city of Alexandria was a flourishing cultural center where philosophical spiritual and cosmological teachings flowed together to create vital new syntheses Today Alexandria provides a meeting place for everyone who is interested in ancient and modern cosmological speculation and how the humanities may contribute to contemporary life Page 4 of cover **The Secret Societies of All Ages and Countries** Charles William Heckethorn,1897

The Secret Teachers of the Western World Gary Lachman,2015-12-08 This epic study unveils the esoteric masters who have covertly impacted the intellectual development of the West from Pythagoras and Zoroaster to the little known modern icons Jean Gebser and Schwaller de Lubicz Running alongside the mainstream of Western intellectual history there is another current which in a very real sense should take pride of place but which for the last few centuries has occupied a shadowy inferior position somewhere underground This other stream forms the subject of Gary Lachman s epic history and analysis The Secret Teachers of the Western World In this clarifying accessible and fascinating study the acclaimed historian explores the Western esoteric tradition a thought movement with ancient roots and modern expressions which in a broad sense regards the cosmos as a living spiritual meaningful being and humankind as having a unique obligation and

responsibility in it The historical roots of our counter tradition as Lachman explores have their beginning in Alexandria around the time of Christ It was then that we find the first written accounts of the ancient tradition which had earlier been passed on orally Here in this remarkable city filled with teachers philosophers and mystics from Egypt Greece Asia and other parts of the world in a multi cultural multi faith and pluralistic society a synthesis took place a creative blending of different ideas and visions which gave the hidden tradition the eclectic character it retains today The history of our esoteric tradition roughly forms three parts Part One After looking back at the earliest roots of the esoteric tradition in ancient Egypt and Greece the historical narrative opens in Alexandria in the first centuries of the Christian era Over the following centuries it traces our other tradition through such agents as the Hermeticists Kabbalists Gnostics Neoplatonists and early Church fathers among many others We examine the reemergence of the lost Hermetic books in the Renaissance and their influence on the emerging modern mind Part Two begins with the fall of Hermeticism in the late Renaissance and the beginning of the esoteric counterculture In 1614 the same year that the Hermetic teachings fell from grace a strange document appeared in Kassel Germany announcing the existence of a mysterious fraternity the Rosicrucians Part two charts the impact of the Rosicrucians and the esoteric currents that followed such as the Romance movement and the European occult revival of the late nineteenth century including Madame Blavatsky and the opening of the western mind to the wisdom of the East and the fin de si cle occultism of the Hermetic Order of the Golden Dawn Part Three chronicles the rise of modern esotericism as seen in the influence of Rudolf Steiner Gurdjieff Annie Besant Krishnamurti Aleister Crowley R A Schwaller de Lubicz and many others Central is the life and work of C G Jung perhaps the most important figure in the development of modern spirituality The book looks at the occult revival of the mystic sixties and our own New Age and how this itself has given birth to a more critical rigorous investigation of the ancient wisdom With many detours and dead ends we now seem to be slowly moving into a watershed It has become clear that the dominant left brain reductionist view once so liberating and exciting has run out of steam and the promise of that much sought after paradigm change seems possible We may be on the brink of a culminating moment of the esoteric intellectual tradition of the West The Secret Societies of All Ages and Countries Ch. W. Heckethorn,2005 A Suggestive Inquiry Into the Hermetic Mystery Mary Anne Atwood,1918
