Contemporary Verse Howard S. Graham, 1917 **The Athenaeum** , 1902 **English Teaching Forum** , 2006 Six Poets from the Mountain South John Lang, 2010-04-20 In the most extensive work to date on major poets from the mountain South John Lang takes as his point of departure an oft quoted remark by Jim Wayne Miller Appalachian literature is and has always been as decidedly worldly secular and profane in its outlook as the region s traditional religion appears to be spiritual and otherworldly Although this statement may be accurate for Miller s own poetry and fiction Lang maintains that it does not do justice to the pervasive religious and spiritual concerns of many of the mountain South s finest writers including the five other leading poets whose work he analyzes along with Miller s Fred Chappell Robert Morgan Jeff Daniel Marion Kathryn Stripling Byer and Charles Wright Lang demonstrates all write poetry that explores sometimes with widely varying results what they see as the undeniable presence of the divine within the temporal world Like Blake and Emerson before them these poets find the supernatural within nature rather than beyond it They all exhibit a love of place in their poems a strong sense of connection to nature and the land especially the mountains Yet while their affirmation of the world before them suggests a resistance to the otherworldliness that Miller points to their poetry is nonetheless permeated with spiritual questing Dante strongly influences both Chappell and Wright though the latter eventually resigns himself to being simply a God fearing agnostic whereas Chappell follows Dante in celebrating the love that moves the sun and other stars Byer probably the least orthodox of these poets chooses to lay up treasures on earth rejecting the transcendent in favor of a Native American spirituality of immanence while Morgan and Marion find in nature what Marion calls a vocabulary of wonders akin to Emerson s conviction that nature is the language of the spiritual Employing close readings of the poets work and relating it to British and American Romanticism as well as contemporary eco theology and eco criticism Lang s book is the most ambitious and searching foray yet into the worlds of these renowned post World War II Appalachian poets Six Contemporary French Women Poets , 1997 Although many practice the art contemporary French women poets generally have been vastly underrepresented in periodicals and anthologies In the only anthology to feature avant garde French women poets exclusively Gavronsky shows how Kaplan Grangaud Portugal Lapeyr re Giraudon and Risset differ from their American counterparts Before presenting his translations of the poems Gavronsky gives each poet the opportunity to define herself in

terms of major influences on her poetry distinctive traits in her writing major themes in her work and the influence of gender on her art The poets also speculate about the relative underrepresentation of women poets in French periodicals and anthologies as well as about the form poetry might take in the twenty first century The poems in this volume are simultaneously delightful informative and combative They typify according to Gavronsky some of the main currents of a poetics in the making a poetics little known in the United States In reaffirming women s involvement with poetry Gavronsky believes that he has reconnected today s work with an immemorial tradition that in France clearly goes back to the Middle Ages
