**Soundings** Alexander Roper Vidler, 1962      **Soundings. Essays Concerning Christian Understanding. Edited by A.R. Vidler** Alexander Roper VIDLER, 1962      *Theological Radicalism and Tradition* Howard E. Root, 2017-10-30 The limits of radicalism are those which end not in chaos but in the breaking of fresh ground Howard E Root Previously unpublished and only recently rediscovered by Dr Christopher R Brewer in an uncatalogued box in the archives of Lambeth Palace Library Canon Howard E Root s 1972 Bampton Lectures The Limits of Radicalism have to do with nothing less than what theology is a topic no less relevant today than it was in 1972 Against the radical reductionism of his time Root defended the integrity of theology and theological truth Advocating a backward looking radicalism he thought that tradition should display recognisable continuity and yet at the same time against reductionistic tendencies that it might be enriched and enlarged via a wide variety of additive imagery including though not limited to poetry and pop art music and even television We must begin where we are said Root for we cannot in the manner of Leonard Hodgson think ourselves into the minds and feelings of men 2000 years ago In this volume which begins with a substantial mostly biographical introduction Dr Brewer argues that Root a backward looking radical who defended metaphysics and natural theology and insisted that theologians look to the arts as theological resources anticipates the work of David Brown and others concerned with tradition and imagination relevance and truth A fascinating glimpse into the recent history of British Christianity Root s lectures as well as the related appendices are essential reading for theologians interested in the dynamics of a developing tradition and the theme of openness as well as those with a particular interest in 1960s Cambridge radicalism and the British reception of the Second Vatican Council      Science and Religion (Problems in Theology) Jeff Astley, David Brown, Ann Loades, 2004-11-01 This reader brings together carefully selected material from a wide range of authors on the relationships between science religion and theology It samples the recent literature on the challenges to religion posed by both modern physics and evolutionary biology as well as exploring the relationship between scientific and theological approaches Topics include models of interaction between science and religion historical reflections on the conflict thesis scientific and theological methods creation and modern cosmology uncertainty and chaos creationism and evolutionary theory the anthropic principle and design and the challenge of reductionism Contributors include Ian Barbour Michael Behe Richard Dawkins John Habgood Mary Hesse T H Huxley Alister McGrath Arthur Peacocke John Polkinghorne Michael Ruse Keith Ward and Fraser Watts      F D Maurice and the Crisis of Christian Authority Jeremy Morris, 2005-03-17 F D Maurice was a leading 19th century Anglican theologian and social commentator This study argues that his work was driven above all by a concern to reinvigorate Anglican ecclesiology and to promote economical breadth of spirit that could transform the Church of England s relations with other Christian traditions      **Look Back in Hope** Keith W. Clements, 2017-07-07 A child of China missionary parents Keith Clements looks back on a life rich in diverse experiences in many parts of the world as pastor theologian writer and servant of the

ecumenical movement In so doing he finds hope for the creation of true community in the world of people among themselves with God and with creation That is what the gospel of Christ is all about what the church is about and indeed what God who lives and loves as three in one is all about He recalls instances of grace in which even amid conflict and tragedy people churches and communities discover the possibilities of new life together It is both a very human story of personal faith and an insider's account of ecumenical Christianity's quest for a more visibly united church and a world of peace and justice Famous influences like Dietrich Bonhoeffer and present day leaders such as Desmond Tutu figure prominently but so do so called ordinary people he has met over the years whether in an English village in communist East Germany or in a South African squatter camp who have shown by the way they live that another world and another kind of church is possible

*Jesus as God* Murray J. Harris, 2008-12-30 Jesus as God stands as one of the significant exegetical theological contributions of the century With linguistic and exegetical skill befitting his ranking as a leading international scholar Murray J Harris discusses the New Testament use of the Greek term theos God as a christological title *The Destiny and Passion of Philip Nigel Warrington Strong* Jonathan Holland, 2019-05-04 In June 1914 a boy not yet 15 years old made a promise to God To make it binding he wrote it down while alone in a class room at school That promise brought him a life time of adventure He served as a signaller in the mud of France in the First World War as an Anglican priest among the stricken poor of northern England as a bishop in the wilds of Papua New Guinea and as an archbishop among the economically secure of Brisbane This is the intriguing and fascinating story of Philip Nigel Warrington Strong and the promise he made as a boy and the motto that sustained him and the road less travelled that beckoned and chose him Divine Generosity and Human Creativity David Brown, 2017-02-22 Partly in a desire to defend divine freedom and partly because it is seen as the only way of preserving a distinctive voice for theology much contemporary theology has artificially restricted revelation and religious experience effectively cutting off those who find God beyond the walls of the Church Against this tendency David Brown argues for divine generosity and a broader vision of reality that sees God deploying symbols literary visual and sacramental as a means of mediating between the divine world and our own material existence A sustained argument for divine interaction and more specifically the ways in which God speaks in the wider imaginative world this volume calls for a careful listening exercise since symbols are richer and more open in their possibilities than their users often suppose Not only is this true of the imagery of Scripture even inanimate objects like buildings or hostile but creative artists can have important things to say to the believing Christian An ideal introduction that also moves the conversation forward this volume addresses foundations the multivalent power of symbols artists as theologians and meaning in religious architecture **Appointments with Bonhoeffer** Keith Clements, 2022-07-28 Keith Clements sets out how and why Dietrich Bonhoeffer more than seventy five years after his execution by the Nazis still speaks cogently both to the churches and society Beginning with the earlier reception of him as a martyr figure and then as a provocatively original theologian this book argues his relevance to

contemporary engagement with public ethics ecumenism truth telling and reconciliation the relation between faith and democracy in a time of political extremisms the issues of national identity signalled by Brexit and the challenge of finding an ethical response to such challenges as the global pandemic Bonhoeffer s perception that living representatively on behalf of others is both the key to who God is as known in Jesus Christ and the basis of all truly human community provides the connecting thread running through these chapters on what it means to believe and be responsible in a fragmenting world Clements also links this thread to the seventeenth century spiritual writer Thomas Traherne and the Catholic Modernist Friedrich von H gel

**Pro Communion** Benjamin Guyer, 2012-07-01 The proposed Anglican Covenant impinges not only upon the future of the Anglican Communion but upon global Christianity as well Pro Communion Theological Essays on the Anglican Covenant is the first volume that considers the completed text of the Covenant and its congruity with the Anglican tradition Contributors across the Anglo American world appraise the Covenant within a holistic framework defined by liturgical historical and ecumenical perspectives These essays transcend current debates by illuminating abiding theological themes within Anglicanism Creative and edifying rigorous and hopeful Pro Communion envisions a revival of the Anglican imagination within the context of a covenanted Anglican Communion Contributors Jeff Boldt Neil Dhir Andrew Goddard Benjamin M Guyer N J A Humphrey Nathan G Jennings Evan Kuehn Edmund Newey Matthew S C Olver Ephraim Radner and Christopher Wells

**The Growth of Religious Diversity: Traditions** Gerald Parsons, 1993 These two volumes consider the significance of religion in post war Britain concentrating on the decline of the specifically Christian Society and the emergence of a culturally and religiously plural society

*The Growth of Religious Diversity - Vol 1* Gerald Parsons, 2012-11-12 This two volume set considers the role and significance of religion in post war Britain focusing in particular upon the closely inter related themes of the decline of a specifically Christian Society and the emergence of a culturally and religiously plural society Three core questions are examined in depth to what extent and in what ways has religion remained a significant factor in British culture and society in the period since 1945 what role does religion play in interpreting and understanding the development of a multi cultural and multi ethnic society in post war Britain and to what extent has Britain remained or ceased to be a religious society during this period Volume 1 Traditions analyses the history and development of the major religious groups present in Britain in the period since 1945 The major religious traditions examined include the traditional Christian churches Judaism Islam Hinduism Sikhism Afro Caribbean religious groups New Religious Movements and the implicit religion of the silent majority who remain detached from organised religion but are by no means simply secular Volume 2 Controversies explores some of the challenges tensions and controversies presented by the emergence of an increasingly religiously plural society in Britain since 1945 In particular it focuses on the impact of religious pluralism on both the Christian churches and other religious traditions the relationship between communal and national identities and religion women and religion and the relationship between religion and changing attitudes to personal

and especially sexual morality

**Psychoanalytic Approaches to Forgiveness and Mental Health** Ronald

Rowan's Rule Rupert Shortt,2009-02-24 A fascinating fair minded depiction of

Archbishop Rowan Williams Rowan Williams is a complex and controversial figure Widely revered for his personal qualities he is also an intellectual giant who towers over almost all his predecessors as Archbishop of Canterbury Among other achievements he has trounced the atheist Richard Dawkins and published over twenty well regarded books including several volumes of poetry and a major study of Dostoevsky Yet he is also one of the most reviled church leaders in modern history Long before facing calls to step down after his lecture on sharia law in early 2008 he had been accused of heresy on account of his pro gay views He has disappointed many of his own supporters as well So how has high office changed Rowan Williams Has he been bullied and manipulated Or is he perhaps playing a long game obliged to rate church unity above the pursuit of his own vision at a time when the Anglican Communion has never looked more unstable Rupert Shortt already the author of an acclaimed introduction to the Archbishop s thought offers answers to these and other questions in this authoritative biography He explores how the events of the Archbishop s remarkable life have shaped his beliefs and practices today Of particular interest is the riveting account of Williams s experience near the World Trade Center towers on the morning of September 11 201 Written with Williams s cooperation Rowan s Rule not only elucidates his ideas but gives a compelling portrait of a private and in some ways surprisingly vulnerable man

Church and Patronage in 20th Century Britain Peter

Webster,2017-11-07 This book is the first full length treatment of Walter Hussey s work as a patron between 1943 and 1978 first for the Anglican parish church of St Matthew in Northampton and then at Chichester Cathedral He was responsible for the most significant sequence of works of art commissioned for the British churches in the twentieth century They included music by Benjamin Britten Leonard Bernstein and William Walton visual art by Henry Moore Graham Sutherland and Marc

Chagall and poetry by W H Auden Placing Hussey in theological context and in a period of rapid cultural change it explores the making and reception of the commissions and the longer term influence of his work still felt today As well as contributing to the religious and cultural history of Britain and of Anglo Catholicism and the cathedrals in particular the book will be of interest to all those concerned with the relationship between theology and the arts and to historians of music and the visual arts

**The Church of England and Divorce in the Twentieth Century** Ann Sumner Holmes,2016-10-04 Attitudes towards divorce have changed considerably over the past two centuries As society has moved away from a Biblical definition of marriage as an indissoluble union to that of an individual and personal relationship secular laws have evolved as well Using unpublished sources and previously inaccessible private collections Holmes explores the significant role the Church of England has played in these changes as well as the impact this has had on ecclesiastical policies This timely study will be relevant to ongoing debates about the meaning and nature of marriage including the theological doctrines and ecclesiastical policies underlying current debates on same sex marriage

**Sexuality and the Church of England, 1918-1980** Laura Ramsay,2024-06-24 This book presents an original and archivally rich account of the Church of England s institutional grappling with matters of sex relationships marriage birth control and same sex attraction between 1918 and 1980 uncovering a long and complex history of debates and disagreements that led to its present day impasse over issues of sexuality Across a long and previously underexplored chronology the book examines various ways in which Anglicans shaped and popularised understandings of sex and desire conceptions of sexual morality and notions of sexual citizenship Its account begins in the interwar years when the church exerted a powerful influence on attitudes and approaches towards sex and morality moves through the challenges of the post war years when Anglicans continued to debate and construct the new moral landscape of the permissive society and ends in the late twentieth century when the church s preferred means of functioning as an agent of mediation ultimately meant it lost pace with new approaches towards sexual identities and relationships Despite its historically established role in guiding the nation by the late 1970s the church had unwittingly painted itself into a corner by provoking internal disputes that it struggled to resolve As its compromise positions became outdated the church s views increasingly fell out of favour and contributed to its gradual demise as a former expert on sexual issues
