Soundings In Critical Theory:

Soundings in Critical Theory Dominick LaCapra, 1991 **Beyond the Great Story** Robert F. Berkhofer, 1995 What legitimate form can history take when faced by the severe challenges issued in recent years by literary rhetorical multiculturalist and feminist theories That is the question considered in this pathbreaking book Robert Berkhofer addresses the essential practical concern of contemporary historians **Jacques Derrida and the Challenge of History** Sean Gaston, 2018-11-23 This important new book argues that Jacques Derrida's work can be treated as the basis for a distinctive historiography The possibility of seeing Derrida not as a philosopher of language but as a philosopher of history has become more apparent with the recent publication of Derrida's 1964-1965 seminar Heidegger The Question of Being and History We now know that the problem of history was at the heart of Derrida's writing in the mid 1960s prior to the publication of his best known work Of Grammatology 1967 Arguing that Derrida's scholarship in the 1960s and early 1970s on historicism historicity and the problem of history can be treated as the basis for a philosophy of history Sean Gaston focuses on Derrida's work from the mid 1970s to the mid 1990s and his relentless questioning of context memory and narrative as the delineation of a deconstructive historiography The book raises a challenge for historians to think about both deconstruction and historiography arguing that contemporary philosophy can provide a basis for thinking about history in the name of a deconstructive historiography that is not incompatible with rigorous historical scholarship **Jacques Derrida (Routledge Revivals)** William Schultz, Lewis L.B. Fried, 2016-06-17 First published in 1992 this book represents the first major attempt to compile a bibliography of Derrida's work and scholarship about his work It attempts to be comprehensive rather than selective listing primary and secondary works from the year of Derrida's Master's thesis in 1954 up until 1991 and is extensively annotated It arranges under article type a huge number of works from scholars across numerous fields reflecting the interdisciplinary and controversial nature of Deconstruction The substantial introduction and annotations also make this bibliography in part a critical guide and as such will make a highly useful reference tool for those studying his philosophy

Reconstructing History Elizabeth Fox-Genovese, Elisabeth Lasch-Quinn, 2019-10-25 In May 1997 a group of distinguished historians announced the formation of the Historical Society an organization that sought to be free of the jargon laden debates and political agendas that have come to characterize the profession Eugene Genovese President of the Society explained the commitment to form a new and genuinely diverse organization The Society extends from left to right and embraces people of every ideological and political tendency The Society promotes frank debate in an atmosphere of civility mutual respect and common courtesy All we require is that participants lay down plausible premises reason logically appeal to evidence and prepare to exchange criticism with those who hold different points of view Our goal to promote an integrated history accessible to the public From those beginnings the Society has grown to include hundreds of members from every level of the profession from Pulitzer prize winning scholars to graduate students across the ideological and political spectrum

History and Its Limits Dominick LaCapra, 2011-02-23 Dominick LaCapra's *History and Its Limits* articulates the relations among intellectual history cultural history and critical theory examining the recent rise of Practice Theory and probing the limitations of prevalent forms of

humanism LaCapra focuses on the problem of understanding extreme cases specifically events and experiences involving violence and victimization He asks how historians treat and are simultaneously implicated in the traumatic processes they attempt to represent In addressing these questions he also investigates violence s impact on various types of writing and establishes a distinctive role for critical theory in the face of an insufficiently discriminating aesthetic of the sublime often unreflectively amalgamated with the uncanny In *History and Its Limits* LaCapra inquires into the related phenomenon of a turn to the postsecular even the messianic or the miraculous in recent theoretical discussions of extreme events by such prominent figures as Giorgio Agamben Eric L Santner and Slavoj Zizek In a related vein he discusses Martin Heidegger s evocative if not enchanting understanding of *The Origin of the Work of Art* LaCapra subjects to critical scrutiny the sometimes internally divided way in which violence has been valorized in sacrificial regenerative or redemptive terms by a series of important modern intellectuals on both the far right and the far left including Georges Sorel the early Walter Benjamin Georges Bataille Frantz Fanon and Ernst J nger Violence and victimization are prominent in the relation between the human and the animal LaCapra questions prevalent anthropocentrism evident even in theorists of the posthuman and the long standing quest for a decisive criterion separating or dividing the human from the animal LaCapra regards this attempt to fix the difference as misguided and potentially dangerous because it renders insufficiently problematic the manner in which humans treat other animals and interact with the environment In raising the issue of desirable transformations in modernity *History and Its Limits* examines the legitimacy of normative limits necessary for life in common and explores the disconcerting role of transgressive initiatives beyond limits including limits blocking the recognition that humans are themselves animals

Remembering the Past in Contemporary African American Fiction Keith Byerman, 2006-05-18 With close readings of more than twenty novels by writers including Ernest Gaines Toni Morrison Charles Johnson Gloria Naylor and John Edgar Wideman Keith Byerman examines the trend among African American novelists of the late twentieth century to write about black history rather than about their own present Employing cultural criticism and trauma theory Byerman frames these works as survivor narratives that rewrite the grand American narrative of individual achievement and the march of democracy The choice to write historical narratives he says must be understood historically These writers earned widespread recognition for their writing in the 1980s a period of African American commercial success as well as the economic decline of the black working class and an increase in black on black crime Byerman contends that a shared experience of suffering joins African American individuals in a group identity and writing about the past serves as an act of resistance against essentialist ideas of black experience shaping the cultural discourse of the present Byerman demonstrates that these novels disrupt the temptation in American society to engage history only to limit its significance or to crown successful individuals while forgetting the victims

The Postmodern History Reader Keith Jenkins, 1997 *The Postmodern History Reader* introduces students to the new points of controversy in the study of history and provides a framework by

which to understand postmodernism and a guide to explore it further **Doing Your Masters Dissertation** Chris Hart, 2005-01-13 A practical and comprehensive guide to researching preparing and writing a dissertation at Masters level

History and Reading Dominick LaCapra, 2000-01-01 LaCapra addresses the ongoing concern with the application of theory to contemporary historical research and analysis through a comparison of two authors seldom read together Alexis de Tocqueville and Michel Foucault **Words of Welfare** Sanford Schram, 1995 It has been suggested that policy analysis has come to serve the needs of the state at the expense of the citizens This book offers a critique of how welfare policy is analyzed and set in the USA illustrating that how we study issues affects what ultimately gets done about them

Soundings in French Caribbean Writing Since 1950 Mary Gallagher, 2002-11-07 Over the second half of the twentieth century a substantial flow of writing emerged from the French held Caribbean Much of this work is both theoretically knowing and poetically potent and has attracted international attention to the literary resonances of the uniquely complex geo historical situation of the Caribbean and indeed of the Americas in general Much of its passion pertinence and appeal inheres in its approach to time and to space an approach still reverberating with the shock of displacement and its various after tremors an exploded sense of diversity radical relativization the profound expropriations of enslavement colonial erosion Through readings of high profile as well as lesser known writing this book tracks some of the more striking tensions and tropisms at work in the French Caribbean imagination of space and time and their intersection It studies generic interplay textual palimpsest narrative structure and other dynamics of writing that realize and manipulate the intersections of time and space history and memory writing and rewriting voice and text referential space and inter textual space as well as cultural theory and literary practice identity and difference place and displacement In this way it probes both the strains and the stresses and also the insights and gravitations that make for the particular French Caribbean timbre of this volume of writing This specific vibration while illuminating Caribbean New World and post colonial thinking in general also encourages wider reflection on global resonances of displacement and dislocation and on more general issues such as the role of writing and of narrative in particular in the confrontation of absence and presence loss and desire distance and diversity This book locates the problematic of time space in relation to historiographical geo cultural and phenomenological thinking and it also takes account of the detonation of critical interest in what is broadly termed post colonial writing Its fundamental concern however is to show how a particular corpus of writing has in the space of half a century and from a bracing position of hyper relationality responded imaginatively and poetically to the challenge of envisioning place and of relating space to time

Sounding Otherness in Early Modern Drama and Travel Jennifer Linhart Wood, 2019-04-23 Winner of the Medieval and Renaissance Drama Society's 2021 Bevington Award for Best New Book Sounds are a vital dimension of transcultural encounters in the early modern period Using the concept of the soundwave as a vibratory uncanny and transformative force Jennifer Linhart Wood examines how sounds of foreign otherness are experienced and interpreted in cross cultural

interactions around the globe Many of these same sounds are staged in the sonic laboratory of the English theater rattles were shaken at Whitehall Palace and in Brazil bells jingled in an English masque and in the New World the Dallam organ resounded at Topkap Palace in Istanbul and at King's College Cambridge and the drum thundered across India and throughout London theaters This book offers a new way to conceptualize intercultural contact by arguing that sounds of otherness enmesh bodies and objects in assemblages formed by sonic events calibrating foreign otherness with the familiar self on the same frequency of vibration

The Last Samurai Mark Ravina, 2011-03-29 The dramatic arc of Saigo Takamori's life from his humble origins as a lowly samurai to national leadership to his death as a rebel leader has captivated generations of Japanese readers and now Americans as well his life is the inspiration for a major Hollywood film The Last Samurai starring Tom Cruise and Ken Watanabe In this vibrant new biography Mark Ravina professor of history and Director of East Asian Studies at Emory University explores the facts behind Hollywood storytelling and Japanese legends and explains the passion and poignancy of Saigo's life Known both for his scholarly research and his appearances on The History Channel Ravina recreates the world in which Saigo lived and died the last days of the samurai The Last Samurai traces Saigo's life from his early days as a tax clerk in far southwestern Japan through his rise to national prominence as a fierce imperial loyalist Saigo was twice exiled for his political activities sent to Japan's remote southwestern islands where he fully expected to die But exile only increased his reputation for loyalty and in 1864 he was brought back to the capital to help his lord fight for the restoration of the emperor In 1868 Saigo commanded his lord's forces in the battles which toppled the shogunate and he became a leader in the emperor Meiji's new government But Saigo found only anguish in national leadership He understood the need for a modern conscript army but longed for the days of the traditional warrior Saigo hoped to die in service to the emperor In 1873 he sought appointment as envoy to Korea where he planned to demand that the Korean king show deference to the Japanese emperor drawing his sword if necessary to defend imperial honor Denied this chance to show his courage and loyalty he retreated to his homeland and spent his last years as a schoolteacher training samurai boys in frugality honesty and courage In 1876 when the government stripped samurai of their swords Saigo's followers rose in rebellion and Saigo became their reluctant leader His insurrection became the bloodiest war Japan had seen in centuries killing over 12 000 men on both sides and nearly bankrupting the new imperial government The imperial government denounced Saigo as a rebel and a traitor but their propaganda could not overcome his fame and in 1889 twelve years after his death the government relented pardoned Saigo of all crimes and posthumously restored him to imperial court rank In THE LAST SAMURAI Saigo is as compelling a character as Robert E Lee was to Americans a great and noble warrior who followed the dictates of honor and loyalty even though it meant civil war in a country to which he'd devoted his life Saigo's life is a fascinating look into Japanese feudal society and a history of a country as it struggled between its long traditions and the dictates of a modern future
