Carter, 2013-01-21 An accessible discussion of the thought of key figures of the Kyoto School of Japanese philosophy This book provides a much needed introduction to the Kyoto School of Japanese philosophy Robert E Carter focuses on four influential Japanese philosophers the three most important members of the Kyoto School Nishida Kitar Tanabe Hajime and Nishitani Keiji and a fourth Watsuji Tetsur who was at most an associate member of the school Each of these thinkers wrestled systematically with the Eastern idea of nothingness albeit from very different perspectives Many Western scholars students and serious general readers are intrigued by this school of thought which reflects Japan's engagement with the West A number of works by various thinkers associated with the Kyoto School are now available in English but these works are often difficult to grasp for those not already well versed in the philosophical and historical context Carter's book provides an accessible yet substantive introduction to the school and offers an East West dialogue that enriches our understanding of Japanese thought while also shedding light on our own assumptions habits of thought and

prejudices      **Watsuji Tetsurô's Global Ethics of Emptiness** Anton Luis Sevilla, 2017-08-31 This book is a rethinking of ethics and socio political life through the ideas of Watsuji Tetsur. Can we build a systematic philosophy of morality society and politics not on the basis of identity and ego but rather on the basis of selflessness This book explores such an attempt by the leading ethicist of modern Japan Using concrete examples and contemporary comparisons and with careful reference to both English and Japanese sources it guides the reader through Watsuji's ideas It engages three contemporary issues in depth First how do we approach the moral agent as an autonomous being or as a fundamentally relational being Second is it the individual or the community that is the starting point for politics And finally is ethics something that is globally shared or something fundamentally local This book aims to be an informative and inspiring resource for researchers students and laypersons interested in Buddhist thought      **Design and Visual Culture from the Bauhaus to Contemporary Art** Edit Toth, 2018-05-16 This book complements the more textually based Bauhaus scholarship with a practice oriented and creative interpretive method which makes it possible to consider Bauhaus related works in an unconventional light Edit Toth argues that focusing on the functionalist approach of the Bauhaus has hindered scholars from properly understanding its design work With a global scope and under studied topics the book advances current scholarly discussions concerning the relationship between image technologies and the body by calling attention to the materiality of image production and strategies of re channeling image culture into material processes and physical body space the space of dimensionality and everyday activity      **In Pursuit of Universalism** Alicia Volk, 2010 Volk's impressive study rethinks the East West binary often reiterated in discussions of Japanese modernism by reinserting local aspects into the universalizing tendencies of modernism itself The book makes an important contribution to the growing literature on modern Japanese art history by providing an alternative comparative framework for understanding the global development of modernism that decenters Euro America Rigorously historical in her critique Volk destabilizes our understanding of the Japanese experience of modernity through the prism of Yorozu's singular vision of the self leaving us questioning conventional wisdom and contented to wobble Gennifer Weisenfeld Duke University In Volk's affectingly stunning and deeply reflective study of the Japanese artist Yorozu Tetsugor's work between 1910 1930 we have a profoundly historical reminder of how modernism everywhere struggled to meet the demands of the new with the readymades of received artistic practices In this study of Yorozu's utopian universalist project Volk has imaginatively broadened our understanding of the modernist moment and perceptively captured its global program to unify art and life contemporary culture and history Harry Harootunian author of *Overcome by Modernity* History Culture and Community in Interwar Japan      **Re-Politicising the Kyoto School as Philosophy** Christopher Goto-Jones, 2007-12-12 In *Re-Politicising the Kyoto School as Philosophy* Christopher Goto Jones contends that existing approaches to the controversial Kyoto School fail to take it seriously as a school of philosophy instead focussing on historical debates about the alleged complicity of the School's members with the imperialist regime in Japan The essays in

this book take a new approach to the subject engaging substantially with the philosophical texts of members of the Kyoto School and demonstrating that the school developed serious and sophisticated positions on many of the perennial questions that lie at the heart of political philosophy These positions are innovative and fresh and are of value to political philosophy today as well as to intellectual historians of Japan In particular the book is structured around the various ways in which we might locate the Kyoto School in mainstream traditions of political thought and the insights offered by the School about the core concepts in political philosophy In this way the book re politicises the Kyoto School With chapters written by many leading scholars in the field and representing a contribution to political thought as well as the intellectual history of Japan this book will appeal to students and scholars of Japanese studies philosophy and political thought

**Philosophies of Place** Peter D. Herschok, Roger T. Ames, 2019-06-30 Humanity takes up space Human beings like many other species also transform spaces What is perhaps uniquely human is the disposition to qualitatively transform spaces into places that are charged with distinctive kinds of intergenerational significance There is a profound felt difference between a house as

domestic space and a home as familial place or between the summit of a mountain one has climbed for the first time and the same rock pinnacle celebrated in ancestral narratives Contemporary philosophical uses of the word place often pivot on the distinction between space and place formalized by geographer philosopher Yi fu Tuan who suggested that places incorporate the experiences and aspirations of a people over the course of their moral and aesthetic engagement with sites and locations While spaces afford possibilities for different kinds of presence physical emotional cognitive dramatic spiritual places emerge as different ways of being present fuse over time and saturate a locale with distinctively collaborative patterns of significance This approach to issues of place however is emblematic of what Edward S Casey has argued are convictions about the primacy of absolute space and time that evolved along with the progressive dominance of the scientific imagination and modern imaginations of the universal The recent reappearance of place in Western philosophy represents a turn away from abstract and a priori reasoning and back toward phenomenal experience and the primacy of embodied and emplaced intelligence Places are enacted through the sustainably shared practices of mutually responsive and mutually vulnerable agents and are as numerous in kind as we are divergent in the patterns of values and intentions The contributors to this volume draw on resources from Asian European and North American traditions of thought to engage in intercultural reflection on the significance of place in philosophy and of the place of philosophy itself in the cultural social economic and political domains of contemporary life The conversation of place that results explores the meaning of intercultural philosophy the critical interplay of place and personal identity the meaning of appropriate emplacement the shared place of politics and religion and the nature of the emotionally emplaced body

**Essays on Japan** Michael Marra, 2010-10-15 Essays on Japan is a compilation of Professor Michael F Marra's essays written in the past ten years on the topics of Japanese literature Japanese aesthetics and the space between the two subjects
