Martin, Francis John Byrne, 1976 In this first volume of the Royal Irish Academy's multi volume A New History of Ireland a wide range of national and international scholars in every field of study have produced studies of the archaeology art culture geography geology history language law literature music and related topics that include surveys of all previous scholarship combined with the latest research findings to offer readers the first truly comprehensive and authoritative account of Irish history from the dawn of time down to the coming of the Normans in 1169 Included in the volume is a comprehensive bibliography of all the themes discussed in the

narrative together with copious illustrations and maps and a thorough index **A History of Ireland** Edmund Curtis, 2013-06-17 Starting in about 6000 BC Peter Somerset Fry and Fiona Somerset Fry present a concise and enjoyable history of Ireland taking the story up to the 1980s A welcome introduction Belfast Telegraph *Land of the Ilich* Steven Mithen, 2021-11-04 As an archaeologist Steven Mithen has worked on the Hebridean island of Islay over a period of many years In this book he introduces the sites and monuments and tells the story of the island's people from the earliest stone age hunter gatherers to those who lived in townships and in the grandeur of Islay House He visits the tombs of Neolithic farmers forts of Iron Age chiefs and castles of medieval warlords discovers where Bronze Age gold was found treacherous plots were made against the Scottish crown and explores the island of today which was forged more recently by those who mined for lead grew flax fished for herring and distilled whisky the industry for which the island is best known today Although an island history this is far from an insular story Islay has always been at a cultural crossroads receiving a constant influx of new people and new ideas making it a microcosm for the story of Scotland Britain and beyond *The Atlantic Iron Age* Jon Henderson, 2007-12-01 It may be surprising to learn that this book is the first ever survey of the Atlantic Iron Age this tradition is cited in archaeology frequently enough to seem firmly established yet has never been clearly defined With this book Jon Henderson provides an important and much needed exploration of the archaeology of western areas of Britain Ireland France and Spain to consider how far Atlantic Iron Age communities were in contact with each other By examining the evidence for settlement and maritime trade as well as aspects of the material culture of each area Henderson identifies distinct Atlantic social identities through time He also pinpoints areas of similarity the possibility of cultural cross pollination caused by maritime links and to what extent these contacts influenced and altered the distinctive character of local communities A major theme running through the book is the role of the Atlantic seaboard itself and what impact this unique environment had on the ways Atlantic communities perceived themselves and their place in the world As a history of these communities unfolds a general archaeological Atlantic identity breaks down into a range of regional identities which compare interestingly with each other and with traditional models of Celtic identity Bringing together the Iron Age settlement evidence for the Atlantic regions in one place for the first time this excellent and original book is certain to establish itself as the definitive study of the Atlantic Iron Age **A New History of Ireland, Volume I** Dáibhí Ó Cróinín, 2005-02-24 A New History of Ireland is the largest scholarly project in modern Irish history In 9 volumes it provides a comprehensive new synthesis of modern scholarship on every aspect of Irish history and prehistory from the earliest geological and archaeological evidence through the Middle Ages down to the present day Volume I begins by looking at geography and the physical environment Chapters follow that examine pre 3000 neolithic bronze age and iron age Ireland and Ireland up to 800 Society laws church and politics are all analysed separately as are architecture literature manuscripts language coins and music The volume is brought up to 1166 with chapters amongst others on the Vikings Ireland and its neighbours and

opposition to the High Kings A final chapter moves further on in time examining Latin learning and literature in Ireland to 1500 Journal of the Royal Society of Antiquaries of Ireland Royal Society of Antiquaries of Ireland,1916 **The Journal of the Royal Society of Antiquaries of Ireland** Royal Society of Antiquaries of Ireland,1898 Index of archaeological papers published in 1891 under the direction of the Congress of Archaeological Societies in union with the Society of Antiquaries

The Vikings in Ireland Mary A. Valante,2008 Over the course of 250 years Viking raiders their descendants settled in urbanized Ireland connecting the Irish with long distance trade routes as never before This book presents an accurate picture of the complex relationship between the town dwelling Scandinavians the rural Irish Visitors to Ancient America William F. McNeil,2015-03-20 Researchers in American anthropology and archaeology from the late seventeenth century to the present including Cotton Mather John Wesley Powell Thor Heyerdahl and Betty Meggers among others all had discoveries that lead to the following conclusion America was visited by Europeans well before the time of Christopher Columbus Divided into two main parts this work is a comprehensive study of the evidence suggesting that ancient European and Asian mariners visited the United States more than 1000 years ago The first section is an historical overview of the external evidence that would support the theory of ancient incursions to America A review of ancient ships and the currents in both the Pacific and Atlantic oceans is offered The experiences of several seagoing peoples such as Polynesians and Vikings are explored Both legendary voyages and modern adventures of mariners are discussed Ancient transoceanic stories are also examined From mammoth stone chambers of New York and New England to inscribed stones found in ancient graves from Minnesota to West Virginia the second half of the work focuses on the American evidence for ancient visitations to the U S primarily in the northeast section of the country Several alleged ancient sites are also explored in this richly illustrated work *Report on the National Museum of Ireland ...* National Museum of Ireland,1911
