South Africa Sanctions And The Multinationals:

South Africa, Sanctions and the Multinationals Daniel Johannes Venter, 1989 Multinational Corporations and United States Foreign Policy. Hearings, Ninety-third Congress [Ninety-fourth Congress, Second Session] United States. Congress. Senate. Committee on Foreign Relations. Subcommittee on Multinational Corporations, 1973 **Multinational Corporations in Political Environments** Usha C. V. Haley, 2001 Multinational Corporations in Political Environments advances and tests a theory of why foreign corporations leave host states Theories of international business have often ignored the complexity of corporate decisions about leaving foreign countries generally assuming that the economic and competitive reasons that prompt multinational corporations to enter host states also explain their subsequent reasons for leaving Alternatively this book proposes a theory of how different stakeholders OCO values and ethics shape multinationals OCO strategic leaving behaviors Tested in South Africa when US multinationals were facing diverse pressures from stockholders governments and consumers to leave the research provides a prism to isolate how different stakeholders OCO actions influenced multinationals OCO behaviors **Multinational Corporations and the Impact of Public Advocacy on Corporate Strategy** S. Prakash Sethi, 2012-12-06 Multinational Corporations and the Impact of Public Advocacy on Corporate Strategy Nestl and the Infant Formula Controversy presents an in depth analysis of the infant formula controversy and the resulting international boycott of Nestl products launched by various social activist groups and church organizations The actions of those groups culminated in the passage of the first international marketing code under the auspices of the World Health Organization Based on exhaustive and unique research the book details the Nestl case and uses it to analyze a number of other major issues bearing on contemporary business strategy and operations in the national and international arena Issues addressed include The rising phenomenon of social activism and its affect on public opinion and public policy The changing role of churches and other religious groups and their impact on corporate strategy and behavior The emergence of UN affiliated international bodies as both arbiters and regulators of market conduct of multinational corporations The changing dynamics between multinational corporations and host countries The factors which determine a company s behavior and its ability to adapt to changing societal expectations LIST Multinational Corporations and the Impact of Public Advocacy on Corporate Strategy Nestl and the Infant Formula Controversy presents a microcosm of business society conflicts being played out in all parts of the world This scholarly book will be of great interest to academics in the areas of management business ethics social conflict and international regulation It will also appeal to a broad corporate and government audience and to anyone interested in contemporary world affairs and the increasing globalization of socio economic conflicts *Multinational Enterprises and Human Rights* Alexandra Gatto, 2011-01-01 This well researched book examines how the European Union could do more to ensure that EU based multinational enterprises MNEs respect human rights when operating in third world countries Alexandra Gatto identifies the primary obligations of MNEs as developed by

international law and investigates how the EU has promoted the respect of human rights obligations by the MNEs to date. The significant gap between the EU's commitment to the respect and promotion of human rights and the potential to regulate the conduct of MNEs and the EU's reluctance to impose human rights obligations on MNEs is thoroughly explored. It is suggested that the current human rights law should be developed and this timely book recommends that the EU should firmly link the promotion of MNEs' human rights obligations to international human rights law, thereby supporting the constitution of an international law framework within the UN. Multinational Enterprises and Human Rights will be of very great interest to scholars of EU or international human rights as well as NGOs and policymakers in international organizations and corporations that support corporate social responsibility and human rights.

A Strategic Understanding of UN Economic Sanctions Golnoosh Hakimdavar, 2013-10-08

Economic Sanctions are increasingly used as a legal non-military technique of combating abusers of international peace. However, it remains unclear how the success or failure of these sanctions is measured. This book examines the seldom-explored United Nations economic sanctions deliberation process and exposes systematic problems in the measurement of the success or failure of these sanctions. Centering on the key concepts of peace and security, the author brings the reader's attention to the discrepancies that exist in the process of decision-making, implementation, and evaluation of UN-imposed economic sanctions. She engages international law and development methods to provide proof for the lack of consensus in measures of success and failure, which in turn suggests that sanction implementation on a uniform domestic front are unattainable. This thorough analysis concludes with suggestions for improving the sanctions process only to clear the path for negotiating them as a whole and suggest alternative non-coercive measures for mitigating conflict situations and threats to peace and security.

Human Rights Standards and the Responsibility of Transnational Corporations Michael K. Addo, 1999-09-01

What is the nature and scope of corporate responsibility with regard to human rights? Should companies themselves be responsible for human rights violations involving themselves or their subsidiaries? What principles should guide business in countries known to violate human rights? Is self-regulation sufficient or are corporations best regulated by national or international codes, and on what should these codes be based? These are some of the many questions which this ground-breaking collection of essays seeks to address as it assesses the value of applying human rights standards to transnational corporations. The increasing involvement of corporations in the public domain and the steady reduction of governmental involvement in commercial and social undertakings has created a desperate need to rethink the nature and role of the private corporation and its regulation. This volume, which contains a balanced collection of analyses from all interested sources in the corporate responsibility debate, is the result of a three-day conference during which government officials, corporate executives, NGOs, and representatives of inter-governmental organisations as well as academic researchers came together for the first time to

discuss the emerging issues The essays have been arranged under six broad themes policy issues regulation issues of application matters of doctrine globalisation and case studies In addition each section contains the opinion not simply a summary of proceedings of a nominated rapporteur who draws together the strands of each theme and where necessary broadens the analysis to cover important issues which may not have been addressed At the heart of this volume is the attempt to define an effective framework for transnational corporate responsibility through international human rights standards It will be of vital interest to corporate legal advisers human rights practitioners NGOs government law offices and academics as well as to all those concerned with human rights and their place in the modern world

U.S. Relations with South Africa: An Annotated Bibliography Y G-M Lulat,1991-05-16 A comprehensive two volume annotated bibliography of books and monographs journal articles government documents documents of nongovernmental organizations and substantive magazine and newspaper articles published since the late nineteenth century Annotated entries contain a short abstract a table of contents and information on reviews Each volume contains an author and subject index and a periodical is included in Volume Two Topics covered include US Foreign Policy Southern Africa in US South African Relations Nuclear Technology and Other Sectors of Trade and Economic Relations Education Scientific and Cultural Exchanges African Americans and South Africa Divestment Disinvestment and Sanctions Divestment Disinvestment and Sanctions Comparative Studies This two volume work is part of a larger project that included publication of a nearly 700 page book titled United States Relations with South Africa A Critical Overview from the Colonial Period to the Present which is a critical overview of relations between the United States and South Africa going nearly as far back as the very beginning of their inception as permanent European colonial intrusions and it not only gives attention to the importance of contributions from nonofficial actors in shaping official relations but also considers the impact of the geopolitical location of South Africa within southern Africa where the presence of other nations particularly Angola Mozambique Namibia and Zimbabwe looms large

Sanctions Beyond Borders Kenneth Aaron Rodman,2001 Rodman government Colby College examines the use of sanctions from the early Cold War era through the 1990s including the Helms Burton Law and the Iran Libya Sanctions Act He argues that sanctions are weak and costly measures that damage diplomatic relations particularly when used to prevent key multinational corporations from undertaking economically significant transactions with proscribed nations Annotation copyrighted by Book News Inc Portland OR

Transnational Corporations in South Africa: Statements and submissions ,1990 **Economic Imperatives and Ethical Values in Global Business** S. Prakash Sethi,Oliver F. Williams,2012-12-06 religious values at the office door Apartheid was an evil and business had great power in South Africa Where there is power there is also responsibility I prayed about this long and hard I pushed the companies as much as I thought I could There were advances and there were setbacks but finally we prevailed and the Blacks of South Africa secured their freedom My effort in behalf of the Sullivan Principles was only one of a number of significant efforts of the anti

apartheid movement All of those other efforts must be recognized as well The Sullivan Principles and the manner in which they were implemented in South Africa were in the nature of a grand experiment in the sociopolitical change and economic uplifting of the Black people of South Africa What is even more important is that the Principles were driven by an ethical and moral imperative and were voluntarily implemented by a group of enlightened United States multinational corporations No grand design or vision is ever perfect We fall prey to human follies limited understanding of the future and necessary compromises to seek not what is perfect but what is possible Thus any such effort is subject to criticism from those who seek ideological purity and those who seek to minimize the impact of change from the status quo *In This Land of Plenty*

Benjamin Talton, 2019-07-26 On August 7 1989 Congressman Mickey Leland departed on a flight from Addis Ababa with his thirteen member delegation of Ethiopian and American relief workers and policy analysts bound for Ethiopia's border with Sudan This was Leland's seventh official humanitarian mission in his nearly decade long drive to transform U.S. policies toward Africa to conform to his black internationalist vision of global cooperation antiracism and freedom from hunger Leland's flight never arrived at its destination The plane crashed with no survivors When Leland embarked on that delegation he was a forty four year old deeply charismatic fiercely compassionate black radical American He was also an elected Democratic representative of Houston's largely African American and Latino Eighteenth Congressional District Above all he was a self proclaimed citizen of humanity Throughout the 1980s Leland and a small group of former radical activist African American colleagues inside and outside Congress exerted outsized influence to elevate Africa's significance in American foreign affairs and to move the United States from its Cold War orientation toward a foreign policy devoted to humanitarianism antiracism and moral leadership Their internationalism defined a new era of black political engagement with Africa *In This Land of Plenty* presents Leland as the embodiment of larger currents in African American politics at the end of the twentieth century But a sober look at his aspirations shows the successes and shortcomings of domestic radicalism and aspirations of politically neutral humanitarianism during the 1980s and the extent to which the decade was a major turning point in U.S. relations with the African continent Exploring the links between political activism electoral politics and international affairs Benjamin Talton not only details Leland's political career but also examines African Americans successes and failures in influencing U.S. foreign policy toward African and other Global South countries *Ethics for International*

Business John Kline, 2010-07-27 The newly updated version of this groundbreaking textbook continues to provide a topical and relevant analysis of the ethical dimensions of conducting business in a global political economy From a starting point of applied ethics the book introduces a common set of normative terms and analytical tools for examining and discussing real case scenarios *Moral Issues and Multinational Corporations* Gerard Elfstrom, 1991-05-13 **Liability of Multinational**

Corporations under International Law Menno T. Kamminga, Saman Zia-Zarifi, 2021-12-28 **The Multinational Enterprise** Mark Casson, 2018-02-23 This book summarises Mark Casson's recent research on the multinational enterprise

This work is firmly rooted in history and examines the evolution of the internalisation theory of the multinational enterprise over the past forty years and in the light of this considers its potential for further development The book also explores internationalisation theory in respect to marketing and brands the supply chain risk management as well as methodology

Bulletin of Bibliography ,1992 **The UN and Transnational Corporations** Tagi Sagafi-nejad,John H.

Dunning,2008-10-16 Are transnational corporations TNCs and foreign direct investment beneficial or harmful to societies around the world Since the birth of the United Nations more than 60 years ago these questions have been major issues of interest and involvement for UN institutions What have been the key ideas generated by the UN about TNCs and their relations with nation states How have these ideas evolved and what has been their impact This book examines the history of UN engagement with TNCs including the creation of the UN Commission and Centre on Transnational Corporations in 1974 the failed efforts of these bodies to craft a code of conduct to temper the revealed abuses of TNCs and with the advent of globalization in the 1980s the evolution of a more cooperative relationship between TNCs and developing countries resulting in the 1999 Global Compact **Bibliographie Mensuelle** United Nations Library (Geneva, Switzerland),1991
