Eder, 1999-09-01 A Generation Later moves beyond analytical models of rural change that focus on the peasant agricultural aspect of rural communities and makes a convincing case for an approach that integrates farm and nonfarm occupations and does justice to the conditions of occupational multiplicity that characterize to an increasing extent many of the rural communities in Asia In this context it challenges conventional and simplistic peasant to proletarian views of change Rather than finding a dreary and dispirited landscape of sameness and hardship it offers some empirical support for amore optimistic view of the region s future one of growing household prosperity and widespread individual opportunity **Wellbeing and Place** Sara Fuller, 2016-02-24 The last twenty years have witnessed an important movement in the aspirations of public policy beyond meeting merely material goals towards a range of outcomes captured through the use of the term wellbeing Nonetheless the concept of wellbeing is itself ill defined a term used in multiple different contexts with different meanings and policy implications Bringing together a range of perspectives this volume examines the intersections of wellbeing and place including immediate applied policy concerns as well as more critical academic engagements Conceptualisations of place context and settings have come under critical examination and more nuanced and varied understandings are drawn out from both academic and policy related research Whilst quantitative and some policy approaches treat place as a static backdrop or context others explore the interrelationships of emotional social cultural and experiential meanings that are both shape place and are shaped in place Similarly wellbeing may be understood as a relatively stable and measurable entity or as a more situation dependent and relational effect The book is structured into two sections essays that explore the dynamics that determine wellbeing in relation to place and essays that explore contested understandings of wellbeing both empirically and theoretically
