background servile insurrection blood shed and annihilation of person and property involving ultimately the ruin of the North About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

Southern Wealth and Northern Profits Thomas Prentice Kettell, 2015-07-23 Excerpt from Southern Wealth and Northern Profits As Exhibited in Statistical Facts and Figures Showing the Necessity of Union to the Future Prosperity and Welfare of the Republic The Emperor of the French has said that France is the only nation that goes to war for an idea With more truth may it be said that the United States is the only nation that goes to destruction for an idea This appears however to be the settled policy of a party at the North The United States at the age of seventy years have exhibited a degree of success in working out the experiment of self government that has baffled the sagacity while it has excited the admiration of the most far seeing statesmen of the Old World This great success manifests itself in the international peace that the country enjoys its rapid increase in numbers the general wealth of the people and the vast aggregate which that wealth presents At the close of the War of Independence the country was composed of exhausted Colonies having a population of 3 172 464 whites The government was heavily in debt and without credit the channels of trade flooded with irredeemable and depreciated paper that had driven away specie national bankruptcy and individual insolvency were the rule The people were destitute of capital and manufactures the employment of the shipping apparently destroyed and the future presenting but little hope There were 751 868 black slaves who were without employment that would earn their own support and their fate and that of their masters gave ample cause of uneasiness as well to statesmen as to owners To abandon the blacks to their fate under the plea of philanthropy suggested itself to many The employment of Northern ships was mostly the slave trade while the South having daily less employment for the blacks was determined to stop their arrival a measure which the North regarded as depriving it of its legitimate business Thus growing jealousy was added to other evils The lapse of seventy years has changed all that The North has come to rival the mother country in manufactures her shipping is the first in the world capital of every description has become redundant the Federal debt is nominal and local wealth superior in Massachusetts to that of any community of like numbers in the world The condition of the South has changed to one of the most brilliant promise From a desponding position in the possession of 600 000 idle blacks she has 4 000 000 whose labor is inadequate to the production of that staple which the civilised world demands from her fertile soil The blacks themselves have been gradually elevated in material comforts and religious sentiment not only far above those of any other country but greatly and progressively above their own former condition And this is comprehended in the material fact that their value which was 200 by assessment in 1790 is 550 in 1858 From a market value of 250 they have risen to 1500 and 2000 This simple fact alone would show not only the great value that their labor is to the Christian world but that their owners have

thus as it were come under bonds in the sum of 1200 and 1800 each hand to give them the best moral and material care
