*Africa in Global Politics in the Twenty-First Century* Olayiwola Abegunrin, 2009-11-18 In the twenty first century Africa has become an important source of US energy imports and the world

s natural resources It has also become the epicentre of the world s deadly health epidemic HIV AIDS and one of the battlegrounds in the fight against terrorism Africa is now a major player in global affairs      *State-Business Relations and Economic Transformation in South Africa and Zimbabwe* Sinan Baran,2023-06-12 In *State Business Relations and Economic Transformation in South Africa and Zimbabwe* Unfinished Transformation Sinan Baran examines state business relations SBRs in semi peripheral South Africa and peripheral Zimbabwe after each country s transition to majority rule to address why SBRs are likely to either consolidate or fracture in post transition communities In both countries the majority governments faced unresolved post transition divisions relating to race inequality and underdevelopment Baran analyzes the liberalisation and indigenisation policy choices intended to address these areas that are impacting the mining industries in South Africa and Zimbabwe as case studies Using comparative analysis and a Modern World Systems lens he argues that semi peripheral countries are less susceptible to pressures from domestic and external powers than peripheral countries during periods of economic transformation He further argues that China s significant political and economic presence in a peripheral country like Zimbabwe has more effect on SBRs than in a semi peripheral country like South Africa      **Africa's Development Impasse** Doctor Stefan Andreasson,2013-07-04 Orthodox strategies for socio economic development have failed spectacularly in Southern Africa Neither the developmental state nor neoliberal reform seems able to provide a solution to Africa s problems In *Africa s Development Impasse* Stefan Andreasson analyses this failure and explores the potential for post development alternatives Examining the post independence trajectories of Botswana Zimbabwe and South Africa the book shows three different examples of this failure to overcome a debilitating colonial legacy Andreasson then argues that it is now time to resuscitate post development theory s challenge to conventional development In doing this he claims we face the enormous challenge of translating post development into actual politics for a socially and politically sustainable future and using it as a dialogue about what the aims and aspirations of post colonial societies might become This important fusion of theory with empirical case studies will be essential reading for students of development politics and Africa      *Nigeria-United States Relations, 1960-2016* Olayiwola Abegunrin,2018-10-24 This book examines relations between Nigeria and the United States analyzing the levels of collaboration and interaction between the two countries since Nigerian independence in 1960 The central objective of the volume is to understand how American policy makers have thought about and acted toward Nigeria from the time she achieved statehood in 1960 until the end of Obama Administration There is huge potential in Nigeria the country has the largest population in Africa and is well endowed in terms of both human and natural resources Additionally it has the largest economy and biggest market on the continent the largest concentration of Black population in the world a burgeoning and vibrant youthful population and a tradition of international engagement since its independence With a population of over 170 million and as America s largest trading partner in Africa Nigeria is a key power in Africa and a major player in world affairs Nigeria s position in the twenty first century offers the

possibility for a positive new chapter in Nigeria United States relations      Democracy in Crisis around the World Saliba Sarsar, Rekha Datta, 2020-11-05 In the twenty first century democracies across the globe are in crisis The strength of basic democratic institutions and core enduring political principles and values are eroding in key regions and countries Authoritarian regimes are rising and populist leaders are emerging Democracy in Crisis across the World weaves threads of history and politics in two parts to analyze how long this trend may last and what the future may bring By first examining the state of democracy in Sub Saharan Africa Eastern Europe Western Europe Latin America and the Middle East and North Africa the second part of the collection highlights to democratic trajectory of India China Russia and the United States Ending with a look at how the world s governments have responded to the coronavirus pandemic contributors argue that unless democracy is defended with resolution and nurtured with resilience it will fall      China's Power in Africa Olayiwola Abegunrin, Charity Manyeruke, 2019-10-11 This book examines China s political economic and diplomatic engagement in Africa The rapid increase of China s economic and political involvement in Africa is the most momentous development on the continent of Africa since the beginning of the twenty first century China is now Africa s largest trading partner and the largest infrastructure financier Additionally it is the fastest growing economy and source of foreign direct investment This monograph seeks to understand the dynamics of the escalating Chinese investments in African economies and the political implications of this development for Africa This work will interest scholars students academics and policy makers on the fields of Chinese and African politics development studies and international political economy      Law, Religion and Leadership in Africa F. Sibanda, E. Chitando, E.G. Konyana, B.P. Humbe, 2025-05-16 In Africa some heads of state sometimes prefer to take their oath on the Bible or the Quran rather than on an ancestral law or a fearsome fetish capable of causing misery in the event of a violation Thus in order to build credible institutions that can guarantee socio political and economic stability it is desirable to resort to certain ancestral practices in particular strict respect for customs At this level of our reflection it seems useless for Africans to reinvent the wheel rather we must look in the rearview mirror in order to exalt the pre colonial instruments capable of unravelling the invisible mystery of these societies In this same dynamic the ancestral law because of its historical and charismatic legitimacy imposes strict respect for the cosmic order Komo Guy Roland Kossonou Assistant Professor Legal Administrative and Management Sciences Training and Research Unit UFR SJAG Alassane Ouattara University Bouak C te d Ivoire There is no way the church leadership can ignore such issues which affect their people daily and only talk about the future kingdom to come Both the sacred and the secular kingdoms are important matters in the life of people in every community hence religious and political leaders should strive to resolve their conflicts because people look up to them for spiritual and political leadership When political leaders tell religious leaders to stick to preaching the gospel and not involve themselves in the political affairs of the country it silences the church s ability to speak for the poor Upendo Mwakasenga Ordained minister United Church of Zambia Doctoral student in systematic theology

University of Kwa Zulu Natal Even today religious cultural beliefs inform the way the youths are viewed within Zimbabwe's political circles. Such beliefs infantilize young people and disempower them from effective political participation. In most cases, this role is postponed into the future. The existing political structures and regimes exploit youth to expend their energies as political and military foot soldiers for the political elite but they are not being mentored to be prepared for positions of leadership. It therefore becomes crucial to question the maxim the future is young which seems to procrastinate youth political leadership in Zimbabwe. Molly Manyonganise Senior Lecturer Department of Religious Studies and Philosophy Zimbabwe Open University. Ultimately God provides and heals but the fisherman must still cast his net the farmer must still till the soil and the doctor must still administer medication. It is no different in matters of governance, military warfare or institution building. Personal piety is inconsequential to the empirical workings of the world but it may weigh on the scales in the hereafter. The Brotherhood's fatalism blinds them to the worldly instruments needed to govern a nation. Study and experience in economic policy and statecraft cannot be replaced with saintly endeavours such as worship and charity. Nabil Yasien Mohamed Lecturer in Islamic Studies Department of Religion and Theology University of the Western Cape.

*Nigeria, Africa, and the United States* Olayiwola Abegunrin, 2016-12-07. The U.S. Department of Defense is fighting a new shadow war in Africa. Africa is the battlefield of tomorrow and the United States military is spreading secret wars in the continent. This book explores how and why this has happened. Since the beginning of the twentieth century, the formulation of the United States policy towards Africa has always been based on the strategic importance of the natural resources of Africa and how these can be used in the national interests of the United States. However, most Americans gave very little thought to Africa but instead referred to it as the Dark Continent not only because its peoples are dark-skinned but also because it was unknown to them. Africa is no longer dark but is rather becoming one of the lions on the move. This book examines and analyzes Nigeria and U.S. policy on the continent since the Cold War. It looks at Nigeria and the challenges facing the country including problems of development, good governance and security. It particularly focuses on the impacts of terrorism on Nigeria and U.S. Africa relations since the Cold War and the realities of September 11, 2001 in relations to Nigeria and United States Islamists, jihadists, terrorism in Africa. There is huge potential in Nigeria; the country has the largest population in Africa and is well-endowed in terms of both natural and human resources. Nigeria also has the largest economy on the continent, the largest black population in the world, a burgeoning and vibrant youthful population and a tradition of international engagement since its independence. Its advantageous geographical location in West Africa enables trade within the continent as well as with Europe, North and South America and Asia. Nigeria is the most important strategic partner for the United States in the African continent and will become increasingly so in this century. *Pan-Africanism in Modern Times* Olayiwola Abegunrin, Sabella Ogbobode Abidde, 2016-06-15. For about one hundred years Pan-Africanism as a social, cultural, economic, political and philosophical idea thrived. Towards the tail end of the twentieth century, however, it waned. But

in more recent times there has been noticeable resurgence And as we approach the second decade of the twenty first century there are indications of significant transformations vis vis the role and place of Pan Africanism and Pan Africanists Consequently this book offers a new further and better understanding of Pan Africanism not just from the traditional African and African American points of view but also from a global perspective It does so by offering an analysis of its early years in terms of the personalities ideas and conferences that shaped it it also examines many of the factors that brought about its decline and its eventual rebirth Contributing to this seminal work are scholars of different but complementary styles and intellect who deviate from the more traditional or obvious approaches For instance one of the chapters explores Pan Africanism from the geographic perspective while another examines the role and place of women in the Pan African movement There are also voices that advance the conversation from the regional and continental viewpoint hence chapters that investigate the status of Pan Africanism in Latin America in the Caribbean and Islam and Pan Africanism in the modern world Ethnonationalism and xenophobia are also part of the treatise because increasingly these injurious phenomena are reemerging in Africa s landscape and consciousness In an increasingly interdependent and interrelated world this book also suggests that Pan Africanism will undergo a metamorphosis problems and challenges will be seen and tackled from the globalization and global common perspective Pan Africanism in Modern Times goes beyond the historicity of Pan Africanism and examines the challenges concerns and constraints it faces and also examines it from an inclusive perspective to have a broader understanding of this phenomenon and its future trajectory Africa in the New World Order Olayiwola

Abegunrin,2014-07-08 This book examines the role of the emerging African nations in the new international order of the twenty first century Since the end of the Cold War little significance has been placed on the African continent in the security and political considerations of the Western world However post 9 11 international security has been redefined and new challenges have been identified Thus at the beginning of the twenty first century Africa is facing a variety of new security challenges Africa has become an increasingly important battleground in the fight against terrorism Since the beginning of 2011 the new revolutions now known as the Arab Spring that swept through North Africa have created new challenges for the African continent and are compounding the African peoples struggles for poverty alleviation state stability security socio political and socio economic development democracy and good governance In addition to these crises of civil war ethnic conflict state insecurity and rampant corruption at all levels the HIV AIDS pandemic has ravaged the continent for the past four decades The only major pan African organization the African Union is unable to lead and defend the continent effectively At this crucial period when the continent is confronted with these myriad of security challenges it needs effective strong leadership that possesses both human and natural resources to play a leadership role in Africa and lead the continent in the new global order of the twenty first century The contributors to this volume analyze many of these issues and place them in the wider context of global security A Good Apology Molly Howes,2020-07-21 Through its four essential steps A GOOD

APOLOGY gives groundbreaking advice on how best to make an effective apology toward rebuilding any relationship for readers of *The Body Keeps the Score*. We've all done something wrong or made a mistake or insulted someone even if by accident. We've all been hurt and wanted the other person to help us heal. It may be surprising but the breaches themselves aren't the real problem; our inability to fix them is what causes us trouble. In *A Good Apology*, Dr. Molly Howes uses her experiences with patients in her practice, research findings, and news stories to illustrate the power and importance of a thorough apology. She teaches how we can all learn to craft an effective apology with four straightforward steps. An apology is a small-scale event between people but it's enormously powerful. This comprehensive book gives readers the tools to fix their relationships, make amends, and move forward. With it, you'll fully understand the meaning and importance of this universal and timeless endeavor: a good apology. Canadian Journal of African Studies, 2007. South Africa's Truth and Reconciliation Commission. Muhammed Haron, 2009. *The South African Truth and Reconciliation Commission: An Annotated Bibliography* is a much-needed reference work for those who are studying and pursuing the outcomes of Truth Commissions around the world. However, it is also a valuable tool for all researchers from diverse disciplines. For example, those specialising in the fields of sociology, political science, and literature will find material that appeals and is relevant to their areas of research. There is little doubt that students and researchers pursuing courses such as Conflict Resolution, Good Governance, and International Relations would find this compilation more than beneficial since it covers not only an assortment of themes but it also includes ingenious cartoons by the famous Zapiro and memorable photographs by George Hallet. In addition, the compiler also inserted a select number of poems that dealt with the issues and themes related to the TRC process. *Africa Today*, 2006. **A Current Bibliography on African Affairs**, 2006. *African Studies Review*, 2005. **African Studies Association Annual Meeting.
