Making It in America Elliott Robert Barkan, 2001-05-01 This collection of over 400 biographies of eminent ethnic Americans celebrates a wide array of inspiring individuals and their contributions to U S history The stories of these 400 eminent ethnic Americans are a testimony to the enduring power of the American dream These men and women from 90 different ethnic groups certainly faced unequal access to opportunities Yet they all became renowned artists writers political and religious leaders scientists and athletes Kahlil Gibran Daniel Inouye Zbigniew Brzezinski Thurgood Marshall Madeleine Albright and many others are living proof that the land of opportunity sometimes lives up to its name Alongside these success stories as historian Elliot R Barkan notes in his introduction to this volume there have been many failures and many immigrants who did not stay in the United States Nevertheless the stories of these trailblazers visionaries and champions portray the breadth of possibilities from organizing a nascent community to winning the Nobel prize They also provide irrefutable evidence that no single generation and no single cultural heritage can claim credit for what America is

The Viking Age Charles Keary, 2018-01-19 The present volume is concerned with that period in the history of the Scandinavian peoples when they were growing but had not yet fully grown into nationalities and when therefore their true national history had not begun Every historic people has passed through this early formative period its age of Sturm und Drang and it may be said that every nationality which is worthy of the name has looked back upon that age with a peculiar affection and with a sort of reverence It has in consequence overlaid the faint traditions of it with a garment of mythology out of which it is in most cases possible only here and there to separate a shred of historical truth The result is that the very phase in the development of the people about which we most long to know is the one about which we are condemned to the completest ignorance The Viking Age of the Northern Folk differs from the corresponding epochs in the history of other nations in this that it is illuminated by a faint ray of real history lent from the pages of contemporary but alien chroniclers the chroniclers I mean of Christian Europe Were it not for this faint gleam the earliest age of the Vikings would have remained for us as a mere tradition something known to have been but not presentable in any realizable form much in fact what the Dorian Migration is in the history of Greece As it is by the aid of the contemporary records I have spoken of we can present the northern migration in a clearer guise
