Sovereign For A Song:

The Three Sovereigns Tradition Dominic Emanuel Steavu-Balint, 2010 This dissertation attempts to elucidate the origins and nature of the lost Sanhuang wen Writ of the Three Sovereigns and identify its surviving fragments in the Daoist Canon Through a close examination of these fragments this study reconstructs various stages in scripture's transmission and traces its development from a single text to a fourteen scroll corpus replete with mantic methods cosmological speculations and elaborate liturgies The present study pushes beyond conventional views of the Sanhuang by underscoring the pivotal role of alchemy and meditation alongside talismans as defining components of the tradition It analyzes key notions such as true form zhenxing in the sophisticated conceptual apparatus that governs Sanhuang talismanic alchemical and meditative practices In so doing this dissertation reveals the profound impact of the Sanhuang wen on the religious landscape of Six Dynasties Jiangnan and in a larger framework on the development of Daoism

Reimagining Masculinity and Violence in 'Game of Thrones' and 'A Song of Ice and Fire' Tobi Evans, 2022-11-15 In this examination of violence and masculinity in George R R Martin's fantasy series A Song of Ice and Fire and its television adaptation Game of Thrones Tobi Evans offers a queer reading that revises the idea that the texts glorify violence Moving from monstrous men characters and sovereigns to female disabled and genderqueer masculinities Violent Fantasies understands the novels and television series to offer a complex and ambiguous negotiation of different types of violence Deploying queer feminist poststructuralist and psychoanalytic approaches to the acts of violence that masculine characters use Evans views hegemonic violence as part of a destructive cycle wherein characters use violence to dominate others but have their violence turned against them in such a way that their bodies become disgusting and they are unable to enter into systems of patriarchal reproduction The only characters who succeed in proliferating their values and knowledges are those who use violence to care for others These characters are also threatened with a bodily undoing when they use violence but their bodily borders are secured because of their connections to others and their queer kinship bonds Violence transforms the body Evans argues in ways that are both circular and ideologically ambivalent
