

Sovereignty and its Discontents

On the Primacy of Conflict
and the Structure of the Political

William Rasch

Sovereignty And Its Discontents

Arihiro Fukuda

Sovereignty And Its Discontents:

Sovereignty and Its Discontents William Rasch, 2004 Arguing for the centrality of conflict in any notion of the political this book puts forward the case for the logical and or ontological primacy of violence over peace *International Law and its Discontents* Barbara Stark, 2015-04-30 In Civilization and its Discontents Sigmund Freud argued that civilization itself is the major source of human unhappiness inhibiting instincts and generating guilt In Globalization and its Discontents Joseph Stiglitz shows how the economic architecture that produced globalization has also driven the backlash against it This book brings together some of international law s most outspoken discontents those who situate their malaise in international law itself Their shared objective is to expose international law s complicity in the ongoing economic and financial global crises and to assess its capacity and its will to constructively address them Some like Freud view that which holds us together as an inevitable source of discontent Others like Stiglitz draw on the energy of the backlash How have these crises affected particular groups sovereign states and international law itself How have they responded When does crisis serve as a catalyst and for what *Sovereignty and Its Other* Dimitris Vardoulakis, 2013 In this new book Dimitris Vardoulakis asks how it is possible to think of a politics that is not commensurate with sovereignty For such a politics he argues sovereignty is defined not in terms of the exception but as the different ways in which violence is justified Vardoulakis shows how it is possible to deconstruct the various justifications of violence Such de justifications can only take place by presupposing an other to sovereignty which Vardoulakis identifies with radical democracy In doing so *Sovereignty and Its Other* puts forward both a novel critique of sovereignty and an original philosophical theory of democratic practice **The Digital Age and Its Discontents** Matteo Stocchetti, 2020-08-11 Three decades into the digital age the promises of emancipation of the digital revolution in education are still unfulfilled Furthermore digitalization seems to generate new and unexpected challenges for example the unwarranted influence of digital monopolies the radicalization of political communication and the facilitation of mass surveillance to name a few This volume is a study of the downsides of digitalization and the re organization of the social world that seems to be associated with it In a critical perspective technological development is not a natural but a social process not autonomous from but very much dependent upon the interplay of forces and institutions in society While influential forces seek to establish the idea that the practices of formal education should conform to technological change here we support the view that education can challenge the capitalist appropriation of digital technology and therefore the nature and direction of change associated with it This volume offers its readers intellectual prerequisites for critical engagement It addresses themes such as Facebook s response to its democratic discontents the pedagogical implications of algorithmic knowledge and quantified self as well as the impact of digitalization on academic profession Finally the book offers some elements to develop a vision of the role of education what should be done in education to address the concerns that new communication technologies seem to pose more risks than opportunities for freedom and democracy

Sovereignty Stephen D. Krasner, 1999-08-02 The acceptance of human rights and minority rights the increasing role of international financial institutions and globalization have led many observers to question the continued viability of the sovereign state Here a leading expert challenges this conclusion Stephen Krasner contends that states have never been as sovereign as some have supposed Throughout history rulers have been motivated by a desire to stay in power not by some abstract adherence to international principles Organized hypocrisy the presence of longstanding norms that are frequently violated has been an enduring attribute of international relations Political leaders have usually but not always honored international legal sovereignty the principle that international recognition should be accorded only to juridically independent sovereign states while treating Westphalian sovereignty the principle that states have the right to exclude external authority from their own territory in a much more provisional way In some instances violations of the principles of sovereignty have been coercive as in the imposition of minority rights on newly created states after the First World War or the successor states of Yugoslavia after 1990 at other times cooperative as in the European Human Rights regime or conditionality agreements with the International Monetary Fund The author looks at various issues areas to make his argument minority rights human rights sovereign lending and state creation in the nineteenth and twentieth centuries Differences in national power and interests he concludes not international norms continue to be the most powerful explanation for the behavior of states

Sovereignty Cornel Zwierlein, Daniel Lee, 2024-09-16 Was the emperor as sovereign allowed to seize the property of his subjects Was this treated differently in late medieval Roman law vis vis the theory and practice of zabt in Mughal India How did political sovereignty relate to the church's powers and to trade How about maritime sovereignty after Grotius How was the East India Company as a corporation interacting with an Indian Nawab How did the shogunate negotiate sovereignty in early modern Japan This volume addresses such questions through thoroughly researched historical case studies covering the disciplines of History Political Sciences and Law Contributors Nicholas Abbott Tiraana Bains Michael P Breen Sylvio Hermann De Franceschi Philippe Denis David Dyzenhaus Andrew Fitzmaurice Joshua Freed Kajo Kubala Daniel Lee Fabrice Micallef Kenneth Pennington Mark Ravina and Cornel Zwierlein *Politics Without Sovereignty* Christopher Bickerton, Philip Cunliffe, Alexander Gourevitch, 2006-12 Written by leading scholars this volume challenges the recent trend in international relations scholarship the common antipathy to sovereignty The classical doctrine of sovereignty is widely seen as totalitarian producing external aggression and internal repression Political leaders and opinion makers throughout the world claim that the sovereign state is a barrier to efficient global governance and the protection of human rights Two central claims are advanced in this book First that the sovereign state is being undermined not by the pressures of globalization but by a diminished sense of political possibility Second it demonstrates that those who deny the relevance of sovereignty have failed to offer superior alternatives to the sovereign state Sovereignty remains the best institution to establish clear lines of political authority and accountability preserving the idea that people shape collectively their own

destiny The authors claim that this positive idea of sovereignty as self determination remains integral to politics both at the domestic and international levels Politics Without Sovereignty will be of great interest to students and scholars of political science international relations security studies international law development and European studies *Sovereignty in Ruins* George Edmondson, Klaus Mladek, 2017-04-07 Containing essays by some of the most prominent names in contemporary political and cultural theory *Sovereignty in Ruins* develops a political vocabulary capable of transforming contemporary political frameworks by advancing a politics of crisis that collapses the false dichotomies between sovereignty and governmentality and between critique and crisis Sovereignty and Event Calvin D. Ullrich, 2021-01-18 In this study Calvin D Ullrich argues for the political significance of the philosopher theologian John D Caputo s radical theology Against the backdrop of present debates the author traces the notions of sovereignty and event by drawing on the political theology of Carl Schmitt and Caputo s evolving engagement with postmodern thought from its genesis in Martin Heidegger to its deeply involved association with Jacques Derrida Calvin D Ullrich shows that contrary to some misleading interpretations of his religious deconstruction Caputo has always held nascent political concerns which culminate in his radical theology Writing for scholars working in contemporary philosophy and theology this book offers one of the first major in depth analyses covering Caputo s writings of the last four decades and seeks to defend their relevance for discussions responding to ongoing political theological challenges Globalization and Its Discontents Revisited Joseph E. Stiglitz, 2017-11-28 An International Bestseller Accessible provocative and highly readable Alan Cowell New York Times In this crucial expansion and update of his landmark bestseller renowned economist and Nobel Prize winner Joseph E Stiglitz addresses globalization s new discontents in the United States and Europe Immediately upon publication *Globalization and Its Discontents* became a touchstone in the globalization debate by demonstrating how the International Monetary Fund other major institutions like the World Bank and global trade agreements have often harmed the developing nations they are supposedly helping Yet globalization today continues to be mismanaged and now the harms exemplified by the rampant inequality to which it has contributed have come home to roost in the United States and the rest of the developed world as well reflected in growing political unrest With a new introduction major new chapters on the new discontents the rise of Donald Trump and the new protectionist movement as well as a new afterword on the course of globalization since the book first appeared Stiglitz s powerful and prescient messages remain essential reading **Power, the State, and Sovereignty** Stephen D. Krasner, 2009-03-04 Stephen Krasner has been one of the most influential theorists within international relations and international political economy over the past few decades *Power the State and Sovereignty* is a collection of his key scholarly works The book includes both a framing introduction written for this volume and a concluding essay examining the relationship between academic research and the actual making of foreign policy Drawing on both his extensive academic work and his experiences during his recent role within the Bush administration as Director for Policy Planning at the US

State department Krasner has revised and updated all of the essays in the collection to provide a coherent discussion of the importance of power ideas and domestic structures in world politics Progressing through a carefully structured evaluation of US domestic politics and foreign policy international politics and finally sovereignty this volume is essential reading for all serious scholars of international politics

Dangerous Counsel Matthew Landauer, 2019-11-14 We often talk loosely of the tyranny of the majority as a threat to the workings of democracy But in ancient Greece the analogy of demos and tyrant was no mere metaphor nor a simple reflection of elite prejudice Instead it highlighted an important structural feature of Athenian democracy Like the tyrant the Athenian demos was an unaccountable political actor with the power to hold its subordinates to account And like the tyrant the demos could be dangerous to counsel since the orator speaking before the assembled demos was accountable for the advice he gave With *Dangerous Counsel* Matthew Landauer analyzes the sometimes ferocious and unpredictable politics of accountability in ancient Greece and offers novel readings of ancient history philosophy rhetoric and drama In comparing the demos to a tyrant thinkers such as Herodotus Plato Isocrates and Aristophanes were attempting to work out a theory of the badness of unaccountable power to understand the basic logic of accountability and why it is difficult to get right and to explore the ways in which political discourse is profoundly shaped by institutions and power relationships In the process they created strikingly portable theories of counsel and accountability that traveled across political regime types and remain relevant to our contemporary political dilemmas

Sovereignty in Post-Sovereign Society Jiří Příbáň, 2016-03-09 Sovereignty marks the boundary between politics and law Highlighting the legal context of politics and the political context of law it thus contributes to the internal dynamics of both political and legal systems This book comprehends the persistence of sovereignty as a political and juridical concept in the post sovereign social condition The tension and paradoxical relationship between the semantics and structures of sovereignty and post sovereignty are addressed by using the conceptual framework of the autopoietic social systems theory Using a number of contemporary European examples developments and paradoxes the author examines topics of immense interest and importance relating to the concept of sovereignty in a globalising world The study argues that the modern question of sovereignty permanently oscillating between *de iure* authority and *de facto* power cannot be discarded by theories of supranational and transnational globalized law and politics Criticising quasi theological conceptualizations of political sovereignty and its juridical form the study reformulates the concept of sovereignty and its persistence as part of the self referential communication of the systems of positive law and politics The book will be of considerable interest to academics and researchers in political legal and social theory and philosophy

Genocide, Mass Atrocity, and War Crimes in Modern History James Larry Taulbee, 2017-02-06 Defining genocide as an international crime this two volume set provides a comparative study of historical cases of genocide and mass atrocity clearly identifying the factors that produced the attitudes and behaviors that led to them discusses the reasons for rules in war and examines how the five principles laid out in the Geneva Conventions

and other international agreements have functioned in modern warfare Written by an expert on international politics and law Genocide Mass Atrocity and War Crimes in Modern History Blood and Conscience is an easy to understand resource that explains why genocides and other atrocities occur why humanity saw the need to create rules that apply during war and how culture rules about war and the nature of war intersect The first volume addresses the history and development of the normative regime s that define genocide and mass atrocity Through a comparative study of historical cases that pay particular attention to the factors involved in producing the attitudes and behaviors that led to the incidents of mass slaughter and mistreatment the author identifies the reasons that genocides and mass atrocities in the 20th century were largely ignored until the early 1990s and why even starting then responses were inconsistent The second book discusses why rules in war exist which factors may lead to the adoption of rules what defines a war crime and how the five fundamental principles laid out in the Geneva Conventions and other international agreements have actually functioned in modern warfare It also poses and answers the interesting question of why we should obey rules when our opponents do not The final chapter examines what actions could serve to identify future situations in which mass atrocities may occur and identifies the problems of timely humanitarian intervention in international affairs

Between the Norm and the Exception William E. Scheuerman, 1997-01-22 Winner 1996 Elaine and David Spitz Book Prize for the best book on liberal and democratic theory Conference for the Study of Political Thought Winner 1994 First Book Prize Foundations of Political Thought Organized Section American Political Science Association Between the Norm and the Exception contributes historical insight to the ongoing debate over the future of the rule of law in welfare state capitalist democracies The core issue is whether or not society can offer its citizens welfare state guarantees and still preserve the liberal vision of a norm based legal system Franz Neumann and Otto Kirchheimer in an age dominated by Hitler and Stalin sought to establish a sound theoretical basis for the rule of law ideal As an outcome of their sophisticated understanding of the liberal political tradition their writings suggest a theoretical missed opportunity an alternative critical theory that might usefully be applied in understanding and perhaps countering the contemporary trend toward the delegalization of law

The Sovereign Subjects of History: Letters on Liberty Claire Fox, 2021-02-11 In this Letter Claire Fox argues that it is incumbent on all of us to reclaim the notion of sovereignty as the essential precondition of political change She argues that one of the demands embedded in the Brexit referendum of 2016 to take back control is a vital element of free democratic life At a time when lockdown policies have chipped away at public confidence it is now especially important to reclaim the idea of a sovereign self determining subject who can make historical change

Sovereignty and the Sword Arihiro Fukuda, 1997-10-16 The English civil wars of the mid seventeenth century produced two political thinkers of genius Thomas Hobbes and James Harrington They are known today as spokesmen of opposite positions Hobbes of absolutism Harrington of republicanism Yet behind their disagreements argues Arihiro Fukuda there lay a common perspective For both writers the primary aim was the restoration of peace and order to a

divided land Both men saw the conventional thinking of the time as unequal to that task Their greatest works Hobbes s Leviathan of 1651 Harrington s Oceana of 1656 proposed the reconstruction of the English polity on novel bases It was not over the principle of sovereignty that the two men differed Fukuda shows Harrington to have been no less than Hobbes a theorist of absolute sovereignty But where Hobbes repudiated the mixed governments of classical antiquity Harrington s study of them convinced him that mixed government far from being the enemy of absolute sovereignty was its essential foundation

The EU as a Global Digital Actor Elaine Fahey,2022-09-08 This is the first book length treatment of the advancement of EU global data flows and digital trade through the framework of European institutionalisation Drawing on case studies of EU US EU Japan and EU China relations it charts the theoretical and empirical approaches at play It illustrates how the EU has pioneered high standards in data flows and how it engages in significant digital trade reforms committed to those standards The book marks a major shift in how institutionalisation and the EU should be viewed as it relates to two of the more extraordinary areas of global governance trade and data flows This significant book will be of interest to EU constitutional lawyers as well as those researching in the field of IT and data law

Making and Breaking Settler Space Adam J. Barker,2021-09-15 Five hundred years A vast geography And an unfinished project to remake the world to match the desires of settler colonizers How have settlers used violence and narrative to transform Turtle Island into North America What does that say about our social systems and what happens next Drawing on multiple disciplines archival sources pop culture and personal experience Making and Breaking Settler Space creates a model that shows how settler spaces have evolved From the colonization of Turtle Island in the 1500s to problematic activist practices by would be settler allies today Adam Barker traces the trajectory of settler colonialism drawing out details of its operation and unflinchingly identifying its weaknesses Making and Breaking Settler Space proposes an innovative unified spatial theory of settler colonization in Canada and the United States In doing so it offers a framework within which settlers can pursue decolonial actions in solidarity with Indigenous communities

American Indian Sovereignty and Law Wade Davies,Richmond L. Clow,2009-02-04 American Indian Sovereignty and Law An Annotated Bibliography covers a wide variety of topics and includes sources dealing with federal Indian policy federal and tribal courts criminal justice tribal governance religious freedoms economic development and numerous sub topics related to tribal and individual rights While primarily focused on the years 1900 to the present many sources are included that focus on the 19th century or earlier The annotations included in this reference will help researchers know enough about the arguments and contents of each source to determine its usefulness Whenever a clear central argument is made in an article or book it is stated in the entry unless that argument is made implicit by the title of that entry Each annotation also provides factual information about the primary topic under discussion In some cases annotations list topics that compose a significant portion of an author s discussion but are not obvious from the title of the entry American Indian Sovereignty and Law will be extremely useful in both studying Native

American topics and researching current legal and political actions affecting tribal sovereignty

Unveiling the Energy of Verbal Art: An Psychological Sojourn through **Sovereignty And Its Discontents**

In some sort of inundated with screens and the cacophony of immediate interaction, the profound energy and psychological resonance of verbal beauty usually disappear in to obscurity, eclipsed by the constant assault of sound and distractions. Sovereignty And Its Discontents Introduction

In today's digital age, the availability of Sovereignty And Its Discontents books and manuals for download has revolutionized the way we access information. Gone are the days of physically flipping through pages and carrying heavy textbooks or manuals. With just a few clicks, we can now access a wealth of knowledge from the comfort of our own homes or on the go. This article will explore the advantages of Sovereignty And Its Discontents books and manuals for download, along with some popular platforms that offer these resources. One of the significant advantages of Sovereignty And Its Discontents books and manuals for download is the cost-saving aspect. Traditional books and manuals can be costly, especially if you need to purchase several of them for educational or professional purposes. By accessing Sovereignty And Its Discontents versions, you eliminate the need to spend money on physical copies. This not only saves you money but also reduces the environmental impact associated with book production and transportation. Furthermore, Sovereignty And Its Discontents books and manuals for download are incredibly convenient. With just a computer or smartphone and an internet connection, you can access a vast library of resources on any subject imaginable. Whether you're a student looking for textbooks, a professional seeking industry-specific manuals, or someone interested in self-improvement, these digital resources provide an efficient and accessible means of acquiring knowledge. Moreover, PDF books and manuals offer a range of benefits compared to other digital formats. PDF files are designed to retain their formatting regardless of the device used to open them. This ensures that the content appears exactly as intended by the author, with no loss of formatting or missing graphics. Additionally, PDF files can be easily annotated, bookmarked, and searched for specific terms, making them highly practical for studying or referencing. When it comes to accessing Sovereignty And Its Discontents books and manuals, several platforms offer an extensive collection of resources. One such platform is Project Gutenberg, a nonprofit organization that provides over 60,000 free eBooks. These books are primarily in the public domain, meaning they can be freely distributed and downloaded. Project Gutenberg offers a wide range of classic literature, making it an excellent resource for literature enthusiasts. Another

popular platform for Sovereignty And Its Discontents books and manuals is Open Library. Open Library is an initiative of the Internet Archive, a non-profit organization dedicated to digitizing cultural artifacts and making them accessible to the public. Open Library hosts millions of books, including both public domain works and contemporary titles. It also allows users to borrow digital copies of certain books for a limited period, similar to a library lending system. Additionally, many universities and educational institutions have their own digital libraries that provide free access to PDF books and manuals. These libraries often offer academic texts, research papers, and technical manuals, making them invaluable resources for students and researchers. Some notable examples include MIT OpenCourseWare, which offers free access to course materials from the Massachusetts Institute of Technology, and the Digital Public Library of America, which provides a vast collection of digitized books and historical documents. In conclusion, Sovereignty And Its Discontents books and manuals for download have transformed the way we access information. They provide a cost-effective and convenient means of acquiring knowledge, offering the ability to access a vast library of resources at our fingertips. With platforms like Project Gutenberg, Open Library, and various digital libraries offered by educational institutions, we have access to an ever-expanding collection of books and manuals. Whether for educational, professional, or personal purposes, these digital resources serve as valuable tools for continuous learning and self-improvement. So why not take advantage of the vast world of Sovereignty And Its Discontents books and manuals for download and embark on your journey of knowledge?

FAQs About Sovereignty And Its Discontents Books

How do I know which eBook platform is the best for me? Finding the best eBook platform depends on your reading preferences and device compatibility. Research different platforms, read user reviews, and explore their features before making a choice. Are free eBooks of good quality? Yes, many reputable platforms offer high-quality free eBooks, including classics and public domain works. However, make sure to verify the source to ensure the eBook credibility. Can I read eBooks without an eReader? Absolutely! Most eBook platforms offer web-based readers or mobile apps that allow you to read eBooks on your computer, tablet, or smartphone. How do I avoid digital eye strain while reading eBooks? To prevent digital eye strain, take regular breaks, adjust the font size and background color, and ensure proper lighting while reading eBooks. What the advantage of interactive eBooks? Interactive eBooks incorporate multimedia elements, quizzes, and activities, enhancing the reader engagement and providing a more immersive learning experience. Sovereignty And Its Discontents is one of the best book in our library for free trial. We provide copy of Sovereignty And Its Discontents in digital format, so the resources that you find are reliable. There are also many Ebooks of related with Sovereignty And Its Discontents. Where to download Sovereignty And Its Discontents online for free? Are you looking for Sovereignty And Its Discontents PDF? This is

definitely going to save you time and cash in something you should think about.
