Soviet Colossus History And Aftermath

Robert M. McManus, Gamaliel Perruci

Soviet Colossus History And Aftermath:

The Soviet Colossus Michael G. Kort, 2014-12-18 The twentieth century was not kind to Russia Despite its great potential and remarkable achievements the country also bore the weight of two world wars a revolution and civil war totalitarian tyranny famine and ecological destruction economic ruin and imperial decline Will Russia ever be prosperous peaceful and free Seeking clues in the past Michael Kort revisits earlier turning points in Russia's history from the fall of the old regime to the establishment of the Bolshevik dictatorship and Stalinist totalitarianism from the reforms and counter reforms of Khrushchev and Brezhnev to the tumultuous years of change under Gorbachev and Yeltsin Which strands of Russia's past is their successor Vladimir Putin weaving into the fabric of the present and which are being allowed to fade for better or worse This new edition of The Soviet Colossus brings the story up through the first decade of the twenty first century Distinctively readable judicious and focused on critical events and questions it integrates new revelations about the Soviet past and ongoing debates about the Soviet regime as well as its successor It is the ideal text for as one semester history course or background for a political science course

The Soviet Colossus Michael Kort, 1996 Continuing the methodology of earlier editions Kort social science Boston U examines Russian history before the Bolshevik Revolution the development of Stalinist totalitarianism reforms under Khrushchev Brezhnev and the end of the great experiment with Gorbachev This most recent edition also includes a chapter on Yeltsin and the economic and political transitions which now grip the country Paper edition unseen 22 95 Annotation copyright by Book News Inc Portland OR

apply what they have learnt This title is suitable for a variety of courses including Edexcel Russia in Revolution 1894 1924

Access to History: Bolshevik and Stalinist Russia 1917-64 for AQA Fifth Edition Michael Lynch,2015-03-27 Exam Board AQA Edexcel OCR WJEC Level A level Subject History First Teaching September 2015 First Exam June 2016 Give your students the best chance of success with this tried and tested series combining in depth analysis engaging narrative and accessibility Access to History is the most popular trusted and wide ranging series for A level History students This title Supports the content and assessment requirements of the 2015 A level History specifications Contains authoritative and engaging content Includes thought provoking key debates that examine the opposing views and approaches of historians Provides exam style questions and guidance for each relevant specification to help students understand how to apply what they have learnt This title is suitable for a variety of courses including AQA Revolution and Dictatorship Russia and the Soviet Union 1917 1953 *A History Of Russia Volume 2* Walter G. Moss,2004-10-01 Moss has significantly revised his text and bibliography in this second edition to reflect new research findings and controversies on numerous subjects He has also brought the history up to date by revising the post Soviet material which now covers events from the end of 1991 up to the present day This new edition retains the features of the successful first edition that have made it a popular choice in

universities and colleges throughout the US Canada and around the world **Access to History: Russia 1894-1941 for OCR Second Edition** Michael Lynch,2015-09-18 Exam Board AQA Edexcel OCR WJEC Level A level Subject History First Teaching September 2015 First Exam June 2016 This is an OCR endorsed resource Give your students the best chance of success with this tried and tested series combining in depth analysis engaging narrative and accessibility Access to History is the most popular trusted and wide ranging series for A level History students This title Supports the content and assessment requirements of the 2015 A level History specifications Contains authoritative and engaging content Includes thought provoking key debates that examine the opposing views and approaches of historians Provides exam style questions and guidance for each relevant specification to help students understand how to apply what they have learnt This title is suitable for a variety of courses including OCR Russia 1894 1941 **The Standard of Living and Revolutions in Imperial**

Russia, 1700-1917 Boris Mironov,2012-05-31 This is the first full scale anthropometric history of Imperial Russia 1700 1917 It mobilizes an immense volume of archival material to chart the growth weight and other anthropometric indicators of the male and female populations in order to chart how the standard of living in Russia changed over slightly more than two centuries It draws on a wide range of data statistics on agricultural production taxation prices and wages nutrition and demography to draw conclusions on the dynamics in the standard of living over this long period of time The economic social and political interpretation of these findings make it possible to reconsider the prevailing views in the historiography and to offer a new perspective on Imperial Russia The Modernization of the Western World John McGrath,Kathleen Callanan Martin,2015-01-28 This book focuses on the forces of social change and what they have meant in the lives of the people

caught in the middle of them from medieval times through our current era of globalization Finding a Path for China's Rise Philippe Lionnet,2023-01-02 The rise of China is ever present in debates on globalisation and ongoing power shifts In a time of rising international tensions understanding the interdependencies between China s course and the world economy is ever more important Often the economic reforms under Deng Xiaoping after 1978 are emphasised They initiated dramatic changes in China s economy and contributed to its ascent as a world power In contrast less attention has been given to the context in which these reforms were implemented Philippe Lionnet analyses important adjustments in China s agricultural industrial and foreign trade policies in the course of the 1970s as well as their origins He shows how policy experiments and their limits shaped the path of the socialist state **Britain's Cold War in Cyprus and Hong Kong** Christopher Sutton,2016-11-07 Linking two defining narratives of the twentieth century Sutton s comparative study of Hong Kong and Cyprus where two of the empire s most effective communist parties operated examines how British colonial policy makers took to cultural and ideological battlegrounds to fight the anti colonial imperialism of their communist enemies in the Cold War The structure and intentional nature of the British colonial system grants unprecedented access to British perceptions and strategies which sought to balance constructive socio political investments with regressive and self defeating repression neither of which Britain could afford in the Cold War conflict of empires **The Thaw** Denis Kozlov,Eleonory Gilburd,2013-09-20 The period from Stalin s death in 1953 to the end of the 1960s marked a crucial epoch in Soviet history Though not overtly revolutionary this era produced significant shifts in policies ideas language artistic practices daily behaviours and material life It was also during this time that social cultural and intellectual processes in the USSR began to parallel those in the West and particularly in Europe as never before This volume examines in fascinating detail the various facets of Soviet life during the 1950s and 1960s a period termed the Thaw Featuring innovative research by historical literary and film scholars from across the world this book helps to answer fundamental questions about the nature and ultimate fortune of the Soviet order both in its internal dynamics and in its long term and global perspectives **Work Flows** Maya Vinokour,2024-02-15 Work Flows investigates the emergence of flow as a crucial metaphor within Russian labor culture since 1870 Maya Vinokour frames concern with fluid channeling as immanent to vertical power structures whether that verticality derives from the state as in Stalin s Soviet Union and present day Russia or from the proliferation of corporate monopolies as in the contemporary Anglo American West Originating in pre revolutionary bio utopianism the Russian rhetoric of liquids and flow reached an apotheosis during Stalin s First Five Year Plan and re emerged in post Soviet managed democracy and Western neoliberalism The literary philosophical and official texts that Work Flows examines give voice to the Stalinist ambition of reforging not merely individual bodies but space and time themselves By mobilizing the understudied thematic of fluidity Vinokour offers insight into the nexus of philosophy literature and science that underpinned Stalinism and remains influential today Work Flows demonstrates that Stalinism is not a historical phenomenon restricted to the period 1922 1953

but a symptom of modernity as it emerged in the twentieth century Stalinism's legacy extends far beyond the bounds of the former Soviet Union emerging in seemingly disparate settings like post Soviet Russia and Silicon Valley *Understanding Leadership* Robert M. McManus, Gamaliel Perruci, 2019-12-09 Laozi Marx the Buddha Ibsen Machiavelli these are just a few of the world's great thinkers who have weighed in on the subject of leadership over the centuries Yet the contemporary student of leadership often overlooks many of these names in favor of more recent theorists hailing from the social sciences *Understanding Leadership An Arts and Humanities Perspective* takes a different angle employing the works of the great philosophers authors and artists found in world civilization and presenting an arts and humanities perspective on the study of leadership The authors build their conceptual framework using their Five Components of Leadership Model which recognizes the leader the followers the goal the context and the cultural values and norms that make up the leadership process Supporting the text are a wealth of case studies that reflect on works such as Ayn Rand's novella *Anthem* Eugène Delacroix's painting *Liberty Leading the People* Charlie Chaplin's film *Modern Times* Athol Fugard's play *Master Harold and the boys* Laozi's poetic work *Dao De Jing* and Antonín Dvořák's *New World Symphony* The authors also introduce studies from various world cultures to emphasize the role that cultural values and norms play in leadership This illuminating framework promotes the multidimensional thinking that is necessary for understanding and problem solving in a complex world *Understanding Leadership An Arts and Humanities Perspective* will be a valuable resource for both undergraduate and postgraduate leadership students while leadership professionals will also appreciate the book's unique liberal arts and cultural approach

Revolution, Democracy, Socialism V. I. Lenin, 2008-09-20 Part of Pluto's 21st birthday series *Get Political* which brings essential political writing in a range of fields to a new audience This is an entirely new collection of Lenin's writing For the first time it brings together crucial shorter works to show that Lenin held a life long commitment to freedom and democracy Le Blanc has written a comprehensive introduction which gives an accessible overview of Lenin's life and work and explains his relevance to political thought today Lenin has been much maligned in the mainstream accused of viewing man as modeling clay and of social engineering of the most radical kind However in contrast to today's world leaders who happily turn to violence to achieve their objectives Lenin believed it impossible to reach his goals by any other path than that of political democracy This collection will be of immense value to students encountering Lenin for the first time and those looking for a new interpretation of one of the 20th century's most inspiring figures **State Capitalism, Contentious**

Politics and Large-Scale Social Change, 2011-03-22 State capitalism is back It never went away This book looks at the role of state capitalism in major European and Asian societies It confronts neo liberal pieties about the role of markets and private property in capitalist development and radical accounts which see the state as the antithesis of capitalism State capitalism is a normal form of capitalist development Its extremes may vary but it has been and remains central to an understanding of modern capitalism This is especially the case in the so called Communist and Communist worlds of Russia

and China and for alternative economies like that of India and the Philippines which are the focus of this timely and challenging book

Russia in the Twentieth Century David R. Marples, 2014-01-14 The history of Russia as the natural successor to the Soviet Union is of crucial importance to understanding why communism ultimately lost out to Western democracy and the free market system David Marples presents a balanced overview of 20th century Russian history and shows that although contemporary Russia has retained many of the practices and memories of the Soviet period it is not about to revert back to the Soviet example

Hiroshima in History Robert James Maddox, 2007 When President Harry Truman authorized the use of atomic weapons against Japan he did so to end a bloody war that would have been bloodier still had the planned invasion of Japan proved necessary Revisionists claim that Truman's real interest was a power play with the Soviet Union and that the Japanese would have surrendered even earlier had the retention of their imperial system been assured Truman wanted the war to continue they insist in order to show off America's powerful new weapon This anthology exposes revisionist fallacies about Truman's motives the cost of an invasion and the question of Japan's surrender Essays by prominent military and diplomatic historians reveal the hollowness of revisionist claims exposing the degree to which these agenda driven scholars have manipulated the historical record to support their contentions They show that although some Japanese businessmen and minor officials indicated a willingness to negotiate peace no one in a governmental decision making capacity even suggested surrender And although casualty estimates for an invasion vary considerably the more authoritative approximations point to the very bloodbath that Truman sought to avoid Volume editor Robert Maddox first examines the writings of revisionist Gar Alperovitz to expose the unscholarly methods Alperovitz employed to support his claims then distinguished Japanese historian Sadao Asada reveals how difficult it was for his country's peace faction to prevail even after the bombs had been dropped Other contributors point to continuing Japanese military buildups analyze the revisionists low casualty estimates for an invasion reveal manipulations of the Strategic Bombing Survey of 1946 and show how even the exhibit commemorating the fiftieth anniversary of the bombing at the Smithsonian National Air and Space Museum hewed to the revisionist line And a close reading of Tsuyoshi Hasegawa's acclaimed *Racing the Enemy* exposes many grave discrepancies between that recent revisionist text and its sources The use of atomic bombs against Japan remains one of the most controversial issues in American history Gathered in a single volume for the first time these insightful readings take a major step toward settling that controversy by showing how insubstantial Hiroshima revisionism really is and that sometimes history cannot proceed without decisive action however regrettable

Recognizing the mannerism ways to acquire this books **Soviet Colossus History And Aftermath** is additionally useful. You have remained in right site to begin getting this info. acquire the Soviet Colossus History And Aftermath belong to that we allow here and check out the link.
