Problems of Communism, 1952 Modernization, Democracy, and Islam Shireen T. Hunter, Huma Malick, 2005-01-30

The Islamic world has a poor record in terms of modernization and democracy. However, the source of this situation is not religion but factors including colonialism, international economic and trading systems, and the role of the military among others. Recognizing these themes allows the consideration of possible remedies for change in the Muslim world. The Islamic world has a poor record in terms of modernization and democracy. However, the source of this situation is not religion, Islam, but rather factors including colonialism, international economic and trading systems, and the role of the military among others. Recognizing these themes allows the consideration of possible remedies for change in the Muslim world. The distinguished scholars contributing to this volume identify key factors, some intrinsic to the Muslim world and some external, that contribute to Islam's current predicament. Contrary to much prevailing thought and opinion, Islam is neither monolithic nor impervious to change. It is neither anti-democratic nor inherently anti-modernization. Islam itself, as this book shows, is not the root cause of the malaise of the Islamic world. The Surrogate Proletariat Gregory J. Massell, 2015-03-08. The attempted modernization of Central Asia by the central Soviet government in the 1920s was a dramatic confrontation between radical determined authoritarian communists and a cluster of traditional Moslem societies based on kinship, custom, and religion. The Soviet authorities were determined to undermine the traditional social order through the destruction of existing family structures and worked to achieve this aspect of revolution through the mobilization of women. Gregory J. Massell's study of the interaction between central power and local traditions concentrates on the development of female roles in revolutionary modernization. Women in Moslem societies were segregated, exploited, and degraded; they were therefore a structural weak point in the traditional order, a surrogate proletariat. Through this potentially subversive group, it was believed, intense conflicts could be generated within society which would lead to its disintegration and subsequent reconstitution. The first part of the book isolates the trends that made Central Asia vulnerable to outside intervention and examines the factors that impelled the communist elites to turn to Moslem women as potential revolutionary allies. In the second part, Professor Massell analyzes Soviet perceptions of female inferiority and of the revolutionary potential of Moslem women. Part Three is an account of specific Soviet actions based on these assumptions. The fourth part of the book deals with the variety of responses these actions evoked. Originally published in 1974, The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. With the demise of the Soviet Union in 1991, its fifteen constituent republics suddenly found

themselves sovereign states Among the new countries are the five republics of Central Asia Kazakhstan Uzbekistan Tajikistan Kyrgyzstan and Turkmenistan that comprise the region to the south of the great Russian heartland Each of these countries now faces the task of creating its own foreign policy with one another with its former imperial ruler to the north with the Islamic countries to the south and with the West In Central Asia and the World eight experts on the region address the historic power struggles between east and west and north and south that have shaped the region and the prognosis for success in overcoming a turbulent past and an uncertain divided present In addition to its continuing strong ties to Russia Central Asia s links with its southern neighbors and the potential role of Islam are also examined The authors advance the case that these countries are critical to the West insofar as they affect Western interests in Russia and the Middle East The ongoing civil war in Tajikistan and Central Asia s relationship with China are also addressed The first book to examine the complex issues facing the region Central Asia and the World provides a comprehensive overview of the developing foreign policies of these five new countries including a look at the internal political economic and military issues confronting each country
