Enchanted Hunters Maria Tatar, 2012-10-22 Highly illuminating for parents vital for students and book lovers alike *Enchanted Hunters* transforms our understanding of why children should read Ever wondered why little children love listening to stories why older ones get lost in certain books In this enthralling work Maria Tatar challenges many of our assumptions about childhood reading Much as our culture pays lip service to the importance of literature we rarely examine the creative and cognitive benefits of reading from infancy through adolescence By exploring how beauty and horror operated in C S Lewis's *Chronicles of Narnia* Philip Pullman's *His Dark Materials* J K Rowling's *Harry Potter* novels and many other narratives Tatar provides a delightful work for parents teachers and general readers not just examining how and what children read but also showing through vivid examples how literature transports and transforms children with its intoxicating captivating and occasionally terrifying energy In the tradition of Bruno Bettelheim's landmark *The Uses of Enchantment* Tatar's book is not only a compelling journey into the world of childhood but a trip back for adult readers as well Sweet

Scott Jordan, 2017-07-10 This book draws inspiration from

Maurice Merleau Ponty's concept of intercorporeality to offer a new multidisciplinary perspective on the body By drawing attention to the body's ability to simultaneously sense and be sensed Merleau Ponty transcends the object subject divide and describes how bodies are about into and within other bodies Such inherent relationality constitutes the essence of intercorporeality and the chapters in this book examine such relationality from a host of diverse perspectives The book begins with an introductory chapter in which the editors review the current research on bodily interaction and introduce the notion of intercorporeality as a potentially integrative framework The first section then offers four chapters devoted to clarifying theoretical and developmental perspectives on intercorporeality Section 2 contains three chapters that provide insight on intercorporeality from evolutionary historical and cross sectional perspectives In Section 3 four chapters examine

the intercorporeal nature of meaning making during human interaction Section 4 then presents three chapters that explore the intercorporeal nature of multi agent interactions and the role that non animate bodies i e objects play in such interaction Throughout all the chapters the authors work to integrate research in their specific discipline into the larger transdisciplinary notion of intercorporeality This collection provides an indisputably unique perspective on bodies in interaction while simultaneously offering an interdisciplinary way forward in contemporary scholarship on bodies meaning and interaction
