Theatre and Evolution from Ibsen to Beckett Kirsten E. Shepherd-Barr,2015-03-03 Evolutionary theory made its stage debut as early as the 1840s reflecting a scientific advancement that was fast changing the world Tracing this development in dozens of mainstream European and American plays as well as in circus vaudeville pantomime and missing link performances Theatre and Evolution from Ibsen to Beckett reveals the deep transformative entanglement among science art and culture in modern times The stage proved to be no mere handmaiden to evolutionary science though often resisting and altering the ideas at its core Many dramatists cast suspicion on the arguments of evolutionary theory and rejected its claims even as they entertained its thrilling possibilities Engaging directly with the relation of science and culture this book considers the influence of not only Darwin but also Lamarck Chambers Spencer Wallace Haeckel de Vries and other evolutionists on 150 years of theater It shares significant new insights into the work of Ibsen Shaw Wilder and Beckett and writes female playwrights such as Susan Glaspell and Elizabeth Baker into the theatrical record unpacking their dramatic explorations of biological determinism gender essentialism the maternal instinct and the cult of motherhood It is likely that more people encountered evolution at the theater than through any other art form in the late nineteenth and early twentieth centuries Considering the liveliness and immediacy of the theater and its reliance on a diverse community of spectators and the power that entails this book is a key text for grasping the extent of the public's adaptation to the new theory and the legacy of its representation on the perceived legitimacy or illegitimacy of scientific work **Pygmalion, Heartbreak House, and Saint Joan** George Bernard Shaw,2021 Pygmalion Heartbreak House and Saint Joan are widely considered to be three of the most important in the canon of modern British theatre Pygmalion 1912 was a world wide smash hit from the time of its premiere in Vienna 1913 and it has remained popular to this day Shaw was awarded an Academy Award in 1938 for his screenplay of the film adaptation It was of course later made into the much loved musical My Fair Lady Heartbreak House 1917 which was

finally performed in 1920 and published in 1921 bares the hallmarks of European modernism and a formal break from Shaw's previous work *A meditation on the war* and the resultant decline in European aristocratic culture it was perhaps staged too soon after the conflict indeed it did not have the success of his earlier works which was likely due to his experimental aesthetics combined with a war weary audience that sought lighter fare However while this contemporary reception was muted it is now recognised as a modernist masterpiece *Saint Joan* 1923 marked Shaw's resurrection and apotheosis The first major work written of Joan of Arc after her canonization 1920 the play interrogates the origins of European nationalism in the post war era Like *Pygmalion* it was an immediate world wide hit and secured Shaw the Nobel Prize for Literature in 1925 Drawing upon the transcripts of Joan's trial Shaw blended his trademark wit to produce a hybrid genre of comedy and history play Despite the historical setting *Saint Joan* is highly accessible and continues to delight audiences
