

# SYMBOLIC CRIMINOLOGIES

Symbolic interactionism is a social theory that has been applied to the study of crime and criminal justice. It is a theory that focuses on the meanings that individuals attach to symbols and how these meanings are shaped by social interaction. In the context of crime, symbolic interactionism suggests that individuals engage in criminal behavior based on the meanings they attach to the symbols of crime and the social reactions to crime. This theory has been used to explain a variety of criminal behaviors, including drug use, prostitution, and organized crime. Symbolic interactionism also provides a framework for understanding the social construction of crime and the role of the criminal justice system in defining and controlling crime.
