**Symbolic Anthropology** Symbolic anthropology : a reader in the study of symbols and meanings, **Religious and Social Ritual** Michael Bjercknes Aune, Valerie M. DeMarinis, 1996-01-01 Examines particular rituals social and religious as a special kind of cultural performance or interaction in a wide variety of traditions and locations

*An African Worldview* Ian D. Dicks, 2012 In this book Ian Dicks informs the reader about the ways in which the Yawo of Malawi view the world The Yawo are predominantly Muslim yet many maintain strong links with their traditional religion They are a largely oral society teaching and reinforcing their beliefs and practices using oral literature which includes myths proverbs proverbial stories songs of advice and prayers at various stages of the life cycle particularly during initiation events Ian Dicks describes in detail the Yawo s material world customs beliefs and rituals and juxtaposes these with Yawo oral literature He then examines them under six worldview categories the result being a rich description of the way in which the Yawo see the world This book is not an armchair study but has the feel of being written by an eyewitness by someone who has had first hand experience of the subject and who seeks to describe this in a manner which is sensitive to the Yawo and their culture

**To Weave and Sing** David M. Guss, 1990-08-16 To Weave and Sing is the first in depth analysis of the rich spiritual and artistic traditions of the Carib speaking Yekuana Indians of Venezuela who live in the dense rain forest of the upper Orinoco Within their homeland of Ihuruna the Yekuana have succeeded in maintaining the integrity and unity of their culture resisting the devastating effects of acculturation that have befallen so many neighboring groups Yet their success must be attributed to more than natural barriers of rapids and waterfalls to more than lack of contact with our modern world The ethnographic history recounted here includes not only the Spanish discovery of the Yekuana but detailed indigenous accounts of the entire history of Yekuana contact with Western culture revealing an adaptive technique of mythopoesis by which the symbols of a new and hostile European ideology have been consistently defused through their incorporation into traditional indigenous structures The author s initial point of departure is the Watunna the Yekuana creation epic but he finds his principal entrance into this mythic world through basketry focusing on the elaborate kinetic designs of the round waja baskets and the stories told about them Guss argues that the problem of understanding Yekuana basketry is the problem of understanding all traditional art forms within a tribal context and critiques the cultural assumptions inherent in our systems of classification He demonstrates that the symbols woven into the baskets function not in isolation but collectively as a powerful system cutting across the entire culture To Weave and Sing addresses all Yekuana material culture and the greater reality it both incorporates and masks discerning a unifying configuration of symbols in chapters on architectural forms the geography of the body and the use of herbs face paints and chants A narrow view of slash and burn gardens as places of mere subsistence is challenged by Guss s portrait of these exclusively female spaces as

systematic inversions of the male world the sacred turned on its head Throughout a wealth of narrative and ritual materials provides us with the closest approximation we have to a native exegesis of these phenomena What we are offered here is a new Poetics of Culture ethnography not as a static given but as a series of shifting fields wherein culture and our image of it is constantly recreated in all of its parts by all of its members

**Pathways to Complexity** M. Kathryn Brown, George J. Bey III, 2021-04-27 Pathways to Complexity synthesizes a wealth of new archaeological data to illuminate the origins of Maya civilization and the rise of Classic Maya culture In this volume prominent Maya scholars argue that the development of social religious and economic complexity began during the Middle Preclassic period 1000 300 B C hundreds of years earlier than previously thought Contributors reveal that villages were present in parts of the lowlands by 1000 B C challenging the prevailing models estimating when civilization took root in the area Combining recent discoveries from the northern lowlands an area often neglected in other volumes and the southern lowlands the collection then traces the emergence of sociopolitical inequality and complexity in all parts of the Yucatan peninsula over the course of the Middle Preclassic period They show that communities evolved in different ways due to influences such as geographical location ceramic exchange shell ornament production agricultural strategy religious ritual ideology and social rankings These varied pathways to complexity developed over half a millennium and culminated in the institution of kingship by the Late Preclassic period Presenting exciting work on a dynamic and poorly understood time period Pathways to Complexity demonstrates the importance of a broad comparative approach to understanding Preclassic Maya civilization and will serve as a foundation for future research and interpretation Contributors M Kathryn Brown Dr George Bey III Tara Bond Freeman Fernando Robles Castellanos Tomas Gallaretta Negrón E Wylls Andrews V Anthony Andrews David S Anderson Lauren Sullivan Jaime J Awe James F Garber Mary Jane Acuña William Saturno Bobbi Hohmann Terry Powis Paul Healy Richard Hansen Donald W Forsyth David Freidel Barbara Arroyo Richard E W Adams A volume in the series Maya Studies edited by Diane Z Chase and Arlen F Chase

[The Religious Lives of Older Laywomen](#) Abby Day, 2017-02-15 The Religious Lives of Older Laywomen draws on ethnographic fieldwork cross cultural comparisons and relevant theories exploring the beliefs identities and practices of Generation A Anglican laywomen born in the 1920s and 1930s Now in their 70s 80s and 90s they are often described as the backbone of the Church and likely its final active generation The prevalence of laywomen in mainstream Christian congregations is a widely accepted phenomenon that will cause little surprise amongst the research community or Christian adherents What is surprising is that we know so little about them Generation A laywomen have remained largely invisible in previous work on institutional religion in Euro American countries particularly as the focus on religion and gender has turned to youth sexuality and priesthood Female Christian Generation A is on the cusp of a catastrophic decline in mainstream Christianity that accelerated during the post

war post 1945 age The age profile of mainstream Christianity represents an increasingly aging pattern with Generation A not being replaced by their children or grandchildren the Baby Boomers and generations X Y and Z Generation A is irreplaceable and unique Generation shares specific values beliefs behaviours and orientations therefore when this generation finally disappears within the next five to 10 years their knowledge insights and experiences will be lost forever Abby Day both documents and interprets their religious lives and what we can learn about them and more widely about contemporary Christianity and its future

**Insiders, Outsiders, Injuries, and Law** Mary Nell Trautner, 2018-01-11 A central theme of law and society is that people's ideas about law and the decisions they make to mobilize law are shaped by community norms and cultural context But this was not always an established concept Among the first empirical pieces to articulate this theory was David Engel's 1984 article The Oven Bird's Song Insiders Outsiders and Personal Injuries in an American Community Over thirty years later this article is now widely considered to be part of the law and society canon This book argues that Engel's article succeeds so brilliantly because it integrates a wide variety of issues such as cultural transformation attitudes about law dispute processing legal consciousness rights mobilization inclusion and exclusion and inequality Contributors to this volume explore the influence of Engel's important work engaging with the possibilities in its challenging hypotheses and provocative omissions related to the legal system and legal process class conflict and difference and law in other cultures
