the perception of the physical world as chaotic in comparison to what traditional peoples believed to be the higher meta physical source of the physical world or nature In the course of Dr Dailey s investigations into the meaning of traditional serpent dragon symbolism the following contributions have proved invaluable 1 Gu non s interpretation of the language of traditional symbolism and the metaphysics that underlies it as well as his interpretation of the terminology of the Hindu Doctrines 2 Eliade s interpretation of traditional archaic societies by means of his concepts of chaos creation Axis Mundi World Axis and Sacred and Profane and 3 the insights of various other researchers of serpent dragon symbolism Beyond purporting to resolve some of the mystery of the ancient and varied symbolism of the serpent dragon The Serpent Symbol in Tradition strives to serve the related functions of interpreting the symbolic meanings of a wide variety of premodern artifacts and narratives as well as providing a study of the origination and ancient human awareness of the mentioned state of matter

Lines,2020-12-14 This volume is devoted to the spheres in which conflict and rivalries unfolded during the Renaissance and how these social cultural and geographical settings conditioned the polemics themselves This is the second of three volumes on Renaissance Conflict and Rivalries which together present the results of research pursued in an International Leverhulme Network The underlying assumption of the essays in this volume is that conflict and rivalries took place in the public sphere that cannot be understood as single all inclusive and universally accessible but needs rather to be seen as a conglomerate of segments of the public sphere depending on the persons and the settings involved The articles collected here address various questions concerning the construction of different segments of the public sphere in Renaissance conflict and rivalries as well

as the communication processes that went on in these spaces to initiate control and resolve polemical exchanges
