Symbolization And Its Discontents

Anne Williams

Symbolization And Its Discontents:

Symbolization and Its Discontents Jeanne Randolph, Steve Reinke, 1997 A follow up to Jeanne Randolph's influential *Psychoanalysis and Synchronized Swimming* Randolph addresses Enlightenment values by introducing psychoanalytic terms that recognize culture as a flux of working fictions embodying one's social allegiances, vested interests, and commitment to values

The (M)other Tongue Shirley N. Garner, Claire Kahane, Madelon S. Sprengnether, 2019-06-30 This timely and provocative collection of sixteen essays combines feminist and psychoanalytic approaches to literary theory and to the reading of literary texts. It demonstrates not only the ways in which psychoanalytic theory can illuminate traditional literary texts but also the ways in which feminist theory can modify, enlarge, and in some instances transform the body of psychoanalytic literature. Treating psychoanalysis as a form of narrative as well as a method of interpretation, the editors have divided their collection into three sections: 1. interpretations of the relation between contemporary feminism and Freud; 2. rereadings of classic patriarchal texts in the light of psychoanalytic feminism; and 3. readings of texts by women writers that have subverted patriarchal structures and given authoritative new voice to the maternal figure. Many of the essays make original contributions to the current debate about the conjunction of Freud and feminism; others offer innovative readings of specific texts that illustrate the significance of that relation. The Introduction provides an up-to-date survey of feminist psychoanalytic theory and enumerates the central issues. Because of the diversity of critical perspectives it offers and the range of texts it considers, this rich and important book will attract a broad spectrum of readers

Art of Darkness Anne Williams, 2009-02-15 *Art of Darkness* is an ambitious attempt to describe the principles governing Gothic literature. Ranging across five centuries of fiction, drama, and verse, including tales as diverse as Horace Walpole's *The Castle of Otranto*, Shelley's *Frankenstein*, Coleridge's *The Rime of the Ancient Mariner*, and Freud's *The Mysteries of Enlightenment*, Anne Williams proposes three new premises: that Gothic is poetic, not novelistic, in nature; that there are two parallel Gothic traditions, Male and Female; and that the Gothic and the Romantic represent a single literary tradition. Building on the psychoanalytic and feminist theory of Julia Kristeva, Williams argues that Gothic conventions such as the haunted castle and the family curse signify the fall of the patriarchal family. Gothic is therefore poetic in Kristeva's sense because it reveals those others most often identified with the female. Williams identifies distinct Male and Female Gothic traditions. In the Male plot, the protagonist faces a cruel, violent, and supernatural world without hope of salvation. The Female plot, by contrast, asserts the power of the mind to comprehend a world which, though mysterious, is ultimately sensible. By showing how Coleridge and Keats used both Male and Female Gothic, Williams challenges accepted notions about gender and authorship among the Romantics. Lucidly and gracefully written, *Art of Darkness* alters our understanding of the Gothic tradition of Romanticism and of the relations between gender and genre in literary history

Civility and Its Discontents Christine T. Sistare, 2004 Contributors from philosophy and political science discuss the observation that civility, civic virtue, tolerance, and socio

cultural unity have declined while exploring the nature of civil society the conflict between individual liberty and the common good and the role of law and government policy in weaving the threads of the social fabric From publisher description

Symbolization and Its Discontents Kate S. Fodaski, 2004 [The Deconstruction of Narcissism and the Function of the Object](#) René Roussillon, 2022-11-18 The Deconstruction of Narcissism and the Function of the Object addresses the topic of narcissistic suffering and presents an innovative take on its psychoanalytic treatment through the deconstruction of its solipsism Presenting a new approach which builds on intuitions described by Freud and Winnicott Ren Roussillon introduces the project of reconstructing what remains of narcissistic and solipsistic propositions in the theories of narcissism Roussillon's work explores his views on narcissism its multiple pathological manifestations and its connection to the concept of the object Spanning topics such as sexualization and desexualization in psychoanalysis the symbolizing function of the object transference and associativity this new approach to treatment provides more satisfactory therapeutic results than current practice which seeks to analyze narcissistic impasses from an intrapsychic perspective alone This book will be of interest to psychoanalytic and psychodynamic clinicians *Literary Theory and Criticism* Patricia Waugh, 2006 This volume offers a comprehensive account of modern literary criticism presenting the field as part of an ongoing historical and intellectual tradition Featuring thirty nine specially commissioned chapters from an international team of esteemed contributors it fills a large gap in the market by combining the accessibility of single authored selections with a wide range of critical perspectives The volume is divided into four parts Part One covers the key philosophical and aesthetic origins of literary theory while Part Two discusses the foundational movements and thinkers in the first half of the twentieth century Part Three offers introductory overviews of the most important movements and thinkers in modern literary theory and Part Four looks at emergent trends and future directions *Symbols that Bind, Symbols that Divide* Scott L. Moeschberger, Rebekah A. Phillips DeZalia, 2014-05-14 This work explores the function of both divisive and uniting symbols in various conflict settings around the world It takes a fairly broad perspective on what constitutes a symbol to include objects such as flags signs language and monuments all of which convey conflicting meanings in a society affected by conflict In addition the authors include commemorations and other dynamic events that serve as a means for groups or individuals to connect with past generations celebrate a heritage and possibly express religiosity In order to provide context for the nuances surrounding the symbols there are brief historical overviews for each conflict featured in the volume In each chapter three issues are emphasized the particular symbols that are divisive in the specific culture how these symbols were used to perpetuate conflict and how these symbols can be used or modified to bring unification Contributions come from authors from around the world that have conducted empirical studies on intergroup relationships or have provided significant academic contributions in the area of symbols and collective memories represented in theoretical publications Taken together the contents of the volume provide a rich tapestry of intellectual analyses to the diverse selection of conflict settings from around the globe In addition to the nine

case studies there is an introductory chapter which grounds the discussion in current peace psychology literature as well as provides future directions This volume is a valuable resource to many as the focus on symbols can span many disciplines such as political science anthropology sociology psychology and art Furthermore it is of significant interest to all scholars and peace activists studying these various countries and their conflicts **Symbols and Meaning** Mari Womack,2005-03-31

Womack offers a concise and easy to read overview of the power and meaning of symbols in all human societies She describes how symbols_images words or behaviors with multi layered meanings_are mechanism of communication She demonstrates how we experience the power of symbols in all aspects of human life birth death love sexual desire and the need for food and shelter Womack investigates the use of symbols in the language of religion healing politics social organization and control popular culture psychology philosophy semiotics magic and expressive culture including art aesthetics literature theater sports and music The author's eclectic anthropological approach incorporates the social conceptual and psychological dynamics of symbols Her new book is an essential introductory textbook for courses that define fundamental concepts in religion cultural anthropology communication and art Alexandre Dumas as a French Symbol since 1870 Eric Martone,2020-03-17 Nineteenth century writer Alexandre Dumas 1802 1870 author of The Three Musketeers and The Count of Monte Cristo has been a controversial part of the French patrimony and faced various forms of racial prejudice in France because of his biracial ancestry and due to being a descendant of a slave During the late nineteenth century the rise of scientific racism and aggressive European imperialism resulted in worldviews supporting European superiority and equated European with being white Such developments complicated perceptions of Dumas as part of the French patrimony French intellectuals and politicians from the late nineteenth century onward created their own imaginative visions of what Dumas had represented in order to employ them ideologically to support or counter prevailing mainstream views of French history and identity This collection traces the evolution of Dumas's legacy as a controversial symbol of France since 1870 as the nation has struggled to deal with colonialism and its aftermath and increased diversity and globalization
