Syngman Rhee and American Involvement in Korea, 1942-1960 Robert Tarbell Oliver, 1978 **The Making of the First Korean President** Young Ick Lew, 2013-11-30 The only full scale history of Syngman Rhee's 1875-1965 early career in English was published nearly six decades ago. Now in *The Making of the First Korean President* Young Ick Lew uncovers little known aspects of Rhee's leadership roles prior to 1948 when he became the Republic of Korea's first president. In this richly illustrated volume Lew delves into Rhee's background, investigates his abortive diplomatic missions, and explains how and why he was impeached as the head of the Korean Provisional Government in 1925. He analyzes the numerous personal conflicts between Rhee and other prominent Korean leaders, including some close friends and supporters who eventually denounced him as an autocrat. Rhee is portrayed as a fallible yet charismatic leader who spent his life fighting in the diplomatic and propaganda arena for the independence of his beleaguered nation, a struggle that would have consumed and defeated lesser men. Based on exhaustive research that incorporates archival records as well as secondary sources in Korean, English, and Japanese, *The Making of the First Korean President* meticulously lays out the key developments of Rhee's pre-presidential career, including his early schooling in Korea, involvement in the reform movement against the Taehan Great Korean Empire, and his six-year incarceration in Seoul Prison for a coup attempt on Emperor Kojong. Rhee's life in the U.S. is also examined in detail, his education at George Washington, Harvard, and Princeton universities, his evangelical work at the Seoul YMCA, his extensive activities in Hawaii, and attempts to maintain prestige and power among Koreans in the U.S. Lew concludes that despite the manifold shortcomings in Rhee's authoritarian leadership, he was undoubtedly best prepared to assume the presidency of South Korea after the onset of the Cold War in the Korean Peninsula. Essential reading for anyone with an interest in modern Korean history, this work will serve as a lasting portrait of one of the pivotal figures in the evolution of Korea as it journeyed from colonial suppression to freedom and security. *The Spirit of Independence* Syngman Rhee, 2000-11-01 Syngman Rhee (1875-1965) is undoubtedly one of the most important figures in modern Korean history. He emerged as the dominant leader in Korea's nationalist struggle against Japan and served as the first president of the Republic of Korea from 1948 through 1960. Rhee's political career as founder and president, however, was not without controversy. While some hailed him as the George Washington of Korea, others regarded Rhee as a little Chiang Kai-shek. This first English translation of Rhee's magnum opus, *The Spirit of Independence*, Tongnip Ch'ongsin provides readers with an essential key to understanding the breadth and depth of Rhee's thought at a critical juncture in his life and his country's history. **Foreign Friends** David P. Fields, 2019-04-19 The division of Korea in August 1945 was one of the most consequential foreign policy decisions of the twentieth century. Despite the enormous impact this split has had on international relations from the Cold War to the present, comparatively little has been done to explain the decision. In *Foreign Friends*, Syngman Rhee, American Exceptionalism, and the Division of Korea, author David P. Fields argues that the

division resulted not from a snap decision made by US military officers at the end of World War II but from a forty year lobbying campaign spearheaded by Korean nationalist Syngman Rhee. Educated in an American missionary school in Seoul, Rhee understood the importance of exceptionalism in American society. Alleging that the US turned its back on the most rapidly Christianizing nation in the world when it acquiesced to Japan's annexation of Korea in 1905, Rhee constructed a coalition of American supporters to pressure policymakers to right these historical wrongs by supporting Korea's independence. Following the attack on Pearl Harbor, Rhee and his Korean supporters reasoned that the American abandonment of Korea had given the Japanese a foothold in Asia, tarnishing the US claim to leadership in the opinion of millions of Asians. By transforming Korea into a moralist tale of the failures of American foreign policy in Asia, Rhee and his camp turned the country into a test case of American exceptionalism in the postwar era. Division was not the outcome they sought, but their lobbying was a crucial yet overlooked piece that contributed to this final resolution. Through its systematic use of the personal papers and diary of Syngman Rhee, as well as its serious examination of American exceptionalism, *Foreign Friends* synthesizes religious, intellectual, and diplomatic history to offer a new interpretation of US-Korean relations.

Korea's Syngman Rhee Richard C. Allen, 2016-02-03 This book of Korean history is an unofficial and exceptionally honest biography of South Korea's deposed chief executive Syngman Rhee. Rhee's career spanned the decades between the late nineteenth century period of China's suzerainty in Korea and the revolt of April 1960 and reached a peak of popularity following his country's liberation at the end of World War II. Yet twelve years later he was thrown out of office by revolution. During his lifetime, he has become almost a legend in both East and West and in much of the world is considered the virtual embodiment of the Korean struggle for independence. The story of South Korea, the author further observes, is indeed the story of its erstwhile president, even as the fall of his government can be traced directly to the personal shortcomings of the head of state. A fascinating read for Korean Americans or anyone interested in Korean history and culture, this work is an excellent addition to any collection of political biographies. *The Fall of Syngman Rhee* Quee-Young Kim, 1983 **State**

Security and Regime Security Y. Hong, 1999-10-11 This book examines the interaction between state security and regime security in South Korea in the period 1953-60 under the leadership of President Syngman Rhee. *Korea Flaming High* Syngman Rhee, 1954 *State Security and Regime Security* NA NA, 2000-01-07 This book examines the interaction between state security and regime security in South Korea under the leadership of President Syngman Rhee in the period 1953-60. In examining the reasons which led Rhee to repeatedly call to march North such as to remove the Communists and to empower Korea in the aftermath of the Korean War, the author shows that the march North was a manifestation of Rhee's concern for both state and regime security. Rhee's aggressive anti-Communist policy contributed to the promotion of security in South Korea. As he declined in popularity, Rhee's concern for the survival of the regime increased and he used the prevailing anti-Communist feeling to enhance his legitimacy. However, such tactics could ensure neither regime security nor the security of
