Shriver Jr.,2008-09-04 In *Honest Patriots* renowned public theologian and ethicist Donald W Shriver Jr argues that we must acknowledge and repent of the morally negative events in our nation s past The failure to do so skews the relations of many Americans to one another breeds ongoing hostility and damages the health of our society Yet our civic identity today largely rests on denials forgetfulness and inattention to the memories of neighbors whose ancestors suffered great injustices at the hands of some dominant majority Shriver contends that repentance for these injustices must find a place in our political culture Such repentance must be carefully and deliberately cultivated through the accurate teaching of history by means of public symbols that embody both positive and negative memory and through public leadership to this end Religious people and religious organizations have an important role to play in this process Historically the Christian tradition has concentrated on the personal dimensions of forgiveness and repentance to the near total neglect of their collective aspects Recently however the idea of collective moral responsibility has gained new and public visibility Official apologies for past collective injustice have multiplied along with calls for reparations Shriver looks in detail at the examples of Germany and South Africa and their pioneering efforts to foster and express collective repentance He then turns to the historic wrongs perpetrated against African Americans and Native Americans and to recent efforts by American citizens and governmental bodies to seek public justice by remembering public injustice The call for collective repentance presents many challenges What can it mean to morally master a past whose victims are dead and whose sufferings cannot be alleviated What are the measures that lend substance to language and

action expressing repentance What symbolic and tangible acts produce credible turns away from past wrongs What are the dynamics psychological social and political whereby we can safely consign an evil to the past How can public life witness to corporate crimes of the past in such a way that descendants of victims can be confident that they will never be repeated In his provocative answers to these questions Shriver creates a compelling new vision of the collective repentance and apology that must precede real progress in relations between the races in this country **Cecil Hayes 9 Steps to Beautiful Living** Cecil Hayes,2006 Utilizing her simple nine step process the visionary interior designer demonstrates how to create home designs that exemplify style luxury and grace that will stand the test of time combining common sense instructions with innovative design ideas practical advice and 250 full color illustrative photographs Room Acoustical Fields Fridolin Mechel,2012-12-14 This book presents the theory of room acoustical fields and revises the Mirror Source Methods for practical computational use emphasizing the wave character of acoustical fields The presented higher methods include the concepts of Mirror Point Sources and Corner sources which allow for an excellent approximation of complex room geometries and even equipped rooms In contrast to classical description this book extends the theory of sound fields describing them by their complex sound pressure and the particle velocity This approach enables accurate descriptions of interference and absorption phenomena *Everyday Physics: Waves - From Sounds And Light To Tsunamis And Gravitation* Michel A Van Hove,2024-01-10 This book aims to popularize physics by emphasizing conceptual ideas of physics and their interconnections while avoiding mathematics entirely The approach is to explore intriguing topics of daily relevance by asking and discussing questions thereby the reader can participate in developing answers which enables a deeper understanding than is achievable with memorization The topic of this book waves is chosen because we experience waves in many forms every minute of our lives from sound waves and light waves to quantum waves and brain waves The target readership of this book is very broad all those with a curious mind about nature and with a desire to understand how nature works especially laymen youngsters secondary school children and their teachers Written Comments on Certain Tariff and Trade Bills ,1988 Domestic Engineering Catalog Directory ,1928 **The Sigiriya Royal Gardens** Nilan Cooray,2012-10-19 Besides the efforts that are of a descriptive and celebrative nature studies related to Sri Lanka s historical built heritage largely view material remains in historical sociological socio historical and semiological perspectives There is hardly any serious attempt to view such material remains from a technical analytical approach to understand the compositional aspects of their design The 5th century AC royal complex at Sigiriya is no exception in this regard The enormous wealth of information and the material remains unearthed during more than 100 years of field based research by several generations of archaeologists provide an ideal opportunity for such analysis The Sigiriya Royal Gardens fills the gap in research related to Sri Lanka s historical built heritage in general and to Sigiriya in particular Therefore the present research attempts to read Sigiriya as a landscape architectonic design to expose its architectonic composition and design
