New Employment Actors Grant Michelson, Suzanne Jamieson, John Burgess, 2008 This volume contains a selection of papers which go back to a conference on new employment actors held at the University of Sydney in November 2006 The book contends that employment relations must be broadened to examine the new actors and processes and the role these play in the regulation and experience of work It demonstrates this in the context of recent developments in Australia In addition the contributions evaluate the extent to which new employment actors either reinforce or replace the activities of the more established trade union management and state based actors It is argued that an inclusion of these new actors and processes is a more comprehensive way of understanding and explaining industrial society in the 21st century
