along with the disturbing consequences of Lovecraft's little joke for modern science and public knowledge. Beyond documenting Lovecraft's influence on ancient astronaut theories and Raelian cloning efforts, Colavito also argues that the appeal of such modern myths is a troubling sign in an age when science is having its greatest success. He suggests that at the dawn of the 21st century, Western society is witnessing a deep-seated erosion of Enlightenment values that are the basis of the modern world. Anunnaki Ancient Aliens Lost Knowledge and the Hidden Origins of Humanity Igor Berner, 2025-10-18. I've always believed that history hides more than it reveals. While most people see ancient myths as stories, I see encrypted knowledge fragments of something bigger, something alien. In Anunnaki Ancient Aliens Lost Knowledge and the Hidden Origins of Humanity, I take you on a journey across forgotten civilizations, mysterious technologies, and forbidden truths that challenge everything we think we know about our beginnings. This isn't just another theory about ancient astronauts; it's a deep dive into the puzzle of our true ancestry, the evidence buried in plain sight, and the whispers of advanced visitors who might have shaped our DNA. I wrote this book not to convince but to awaken curiosity, to make you question who we really are and who taught us to look to the stars in the first place.

The Gods Have Landed James R. Lewis, 1995-01-01. This is a comprehensive account of the religious dimensions of the UFO flying saucer experience.
