The Monster In The Mirror Studies In Nineteenth Century Realism:

The Vampire in Nineteenth Century English Literature Carol A. Senf, 2013-02 Carol A Senf traces the vampire's evolution from folklore to twentieth century popular culture and explains why this creature became such an important metaphor in Victorian England This bloodsucker who had stalked the folklore of almost every culture became the property of serious artists and thinkers in Victorian England including Charlotte and Emily Bront George Eliot Charles Dickens Karl Marx and Friedrich Engels People who did not believe in the existence of vampires nonetheless saw numerous metaphoric possibilities in a creature from the past that exerted pressure on the present and was often threatening because of its sexuality **The Monster of the Mirror**, 1978 *The Monster in the Mirror* David Anthony Williams, 1978 **The Möbius Strip** Jonathan D. Amith, 2005-10-10 The Möbius Strip explores the history political economy and culture of space in central Guerrero Mexico during the colonial period This study is significant for two reasons First space comprises a sphere of contention that affects all levels of society from the individual and his or her household to the nation state and its mechanisms for control and coercion Second colonialism offers a particularly unique situation for it invariably involves a determined effort on the part of an invading society to redefine politico administrative units to redirect the flow of commodities and cash and ultimately to foster and construct new patterns of allegiance and identity to communities regions and country Thus spatial politics comprehends the complex interaction of institutional domination and individual agency The complexity of the diachronic transformation of space in central Guerrero is illustrated through an analysis of land tenure migration and commercial exchange three salient and contested aspects of hispanic conquest The Möbius Strip therefore addresses issues important to social theory and to the understanding of the processes affecting the colonialization of non Western societies **The Cambridge Companion to American Realism and Naturalism** Donald Pizer, 1995-06-30 This Companion examines a number of issues related to the terms realism and naturalism The introduction seeks both to discuss the problems in the use of these two terms in relation to late nineteenth century fiction and to describe the history of previous efforts to make the terms expressive of American writing of this period The Companion includes ten essays which fall into four categories essays on the historical context of realism and naturalism by Louis Budd and Richard Lehan essays on critical approaches to the movements since the early 1970s by Michael Anesko essays on the efforts to expand the canon of realism and naturalism by Elizabeth Ammons and a full scale discussion of ten major texts from W D Howell's *The Rise of Silas Lapham* to Jack London's *The Call of the Wild* by John W Crowley Tom Quirk J C Levenson Blanche Gelfant Barbara Hochman and Jacqueline Tavernier Courbin **Effi Briest** Theodor Fontane, 2015 After marrying a Baron twice her age and moving to a remote Baltic port Effi Briest begins an affair that threatens to ruin her marriage and her life **Dress and Identity in British Literary Culture, 1870-1914** Rosy Aindow, 2016-12-05 Rosy Aindow examines the way fiction registered and responded to the emergence of a modern fashion industry during the period 1870-1914 She traces the role played by dress in the formation of literary

identities with specific attention to the way that an engagement with fashionable clothing was understood to be a means of class emulation. The expansion of the fashion industry in the second half of the nineteenth century is generally considered to have had a significant impact on the way in which lower income groups in particular encountered clothing; many were able to participate in fashionable consumption for the first time. Remaining alert to the historical specificity of these events, this study argues that the cultural perception of the expansion of the industry, namely a predominantly bourgeois fear that it would result in a democratisation in dress, had a profound effect on the way in which fashion was approached by contemporary writers. Drawing on existing cultural analogies that associated fashion with women and artifice, it concludes that women were particularly implicated in fictional accounts of class mobility. This transgression applied not only to women who wore fashionable clothing but to those working in the fashion industry itself. An allusion to fashion has a socio-specific meaning, one which gained a new potency in late nineteenth and early twentieth century narratives as a vehicle for the expression of class anxieties.

The Gothic Other Ruth Binstock Anolik, Douglas L. Howard, 2014-09-26. Literary use of the Gothic is marked by an anxious encounter with otherness, with the dark and mysterious unknown. From its earliest manifestations in the turbulent eighteenth century, this seemingly escapist mode has provided for authors a useful ground upon which to safely confront very real fears and horrors. The essays here examine texts in which Gothic fear is relocated onto the figure of the racial and social Other, the Other who replaces the supernatural ghost or grotesque monster as the code for mystery and danger, ultimately becoming as horrifying, threatening, and unknowable as the typical Gothic manifestation. The range of essays reveals that writers from many canons and cultures are attracted to the Gothic as a ready medium for expression of racial and social anxieties. The essays are grouped into sections that focus on such topics as race, religion, class, and centers of power.

The Sickroom in Victorian Fiction Miriam Bailin, 2007-05-14. The cultural and narrative significance of illness, nursing, and the sickroom in Victorian literature.

Determined Fictions Lee Clark Mitchell, 1989. Available for the first time in English, this is the definitive account of the practice of sexual slavery that the Japanese military perpetrated during World War II. By the researcher principally responsible for exposing the Japanese government's responsibility for these atrocities, the large-scale imprisonment and rape of thousands of women, who were euphemistically called comfort women by the Japanese military, first seized public attention in 1991 when three Korean women filed suit in a Tokyo District Court, stating that they had been forced into sexual servitude and demanding compensation. Since then, the comfort stations and their significance have been the subject of ongoing debate and intense activism in Japan, much inspired by Yoshimi's investigations. How large a role did the military and, by extension, the government play in setting up and administering these camps? What type of compensation, if any, are the victimized women due? These issues figure prominently in the current Japanese focus on public memory and arguments about the teaching and writing of history, and are central to efforts to transform Japanese ways of remembering the war. Yoshimi Yoshiaki provides a wealth of documentation and testimony to prove the existence of some 2

000 centers where as many as 200 000 Korean Filipina Taiwanese Indonesian Burmese Dutch Australian and some Japanese women were restrained for months and forced to engage in sexual activity with Japanese military personnel Many of the women were teenagers some as young as fourteen To date the Japanese government has neither admitted responsibility for creating the comfort station system nor given compensation directly to former comfort women This English edition updates the Japanese edition originally published in 1995 and includes introductions by both the author and the translator placing the story in context for American readers
