The Most Evil Women in History Shelley Klein,2003-08 A study of the manifestation of evil in 15 women spanning over 2000 years

The Most Maligned Women in History Samantha Morris,2024-11-30 Examines the lives and legacies of historically vilified women questioning the truth behind accusations of witchcraft treason and murder Throughout history women from the lowliest of the working classes to the highest echelons of society have been accused of crimes ranging from witchcraft and vampirism to treason and mass murder Such accusations stuck particularly when it came to women who held power the names that we most associate with maligned women today include those that we will all have heard of The infamy of women such as Lucrezia Borgia and Elizabeth Bathory have come down to us throughout the centuries and even in the modern world many women are needlessly and falsely vilified But just how true were these accusations The Most Maligned Women in History takes a look at the lives of a number of women whose crimes have been seen as some of the most heinous just how true the rumors were and whether their reputations are deserved

Legends, Monsters, or Serial Murderers? Dirk C. Gibson,2012-02-14 Covering figures ranging from Catherine Monvoisin to Vlad the Impaler and describing murders committed in ancient aristocracies to those attributed to vampires witches and werewolves this book documents the historic reality of serial murder The majority of serial murder studies support the consensus that serial murder is essentially an American crime a flawed assumption as the United States has existed for less than 250 years What is far more likely is that the perverse urge to repeatedly and intentionally kill has existed throughout human history and that a substantial percentage of serial murders throughout ancient times the middle ages and the pre modern era were attributed to imaginative surrogate explanations dragons demons vampires werewolves and witches

Legends Monsters or Serial Murderers The Real Story Behind an Ancient Crime dispels the interrelated misconceptions that serial murder is an American crime and a relatively recent phenomenon making the novel argument that serial murder is a historic reality an unrecognized fact in ancient times Noted serial murderers such as the Roman Locuta The Poisoner Gilles De Rais of France a prolific serial killer of children Andres Bichel of Bavaria and Chinese aristocratic serial killer T zu Hsi are spotlighted This book provides a unique perspective that integrates supernatural interpretations of serial killing with the history of true crime reanimating mythic entities of horror stories and presenting them as real criminals

The Most Evil Men and Women in History Miranda Twiss,2002 Evil is a fact of life We can see it not only in the reigns of Stalin and Hitler but also in everyday crimes like murder rape and assault quite apart from the millions of lives brutalized by political or religious oppression poverty disease and starvation

Revisionist Histories Marnie Hughes-Warrington, 2013-07-18 Revision and revisionism are generally seen as standard parts of historical practice yet they are underexplored within the growing literature on historiography In this accessibly written volume Marnie Hughes Warrington discusses this paucity of work on revision in history theory and raises ethical questions about linear models and spatial metaphors that have been used to explain it *Revisionist Histories* emphasises the role of the authors and audiences of histories alike as the writers and rewriters of history Through study of digital environments graphic novels and reader annotated texts this book shows that the sides of history cannot be disentangled from one another and that they are subject to flux and even destruction over time Incorporating diverse and controversial case studies including the French Revolution Holocaust Denial and European settlers contact with Native Americans and Indigenous Australians *Revisionist Histories* offers both a detailed account of the development of revisionism and a new more spatial vision of historiography An essential text for students of historiography
