The Multinational Corporation Sanjaya Lall, 1983-05-26 Industrial Structure and Policy in Less Developed Countries Colin Kirkpatrick, N. Lee, Fred Nixon, 2012-08-06 First published in 1984 this textbook analyses at both aggregate and micro economic levels the contemporary industrial conditions in Third World countries and relates this to the process of economic growth and structural transformation Drawing upon both industrial and development economics the authors offer a comprehensive and integrated treatment of the different levels of industrial analysis in less developed countries alongside a wealth of comparative data on industrial structure business concentration and behaviour and industrial policies in a cross section of countries in Africa Asia the Far East and Latin America The Role of Multinational Companies in the Middle East Mamarinta P. Mababaya, 2002 This study investigated whether known economic and international business theories available in the literature are meaningful enough to explain the nature existence and role of multinational companies MNCs in the Middle East particularly Saudi Arabia Two sets of questionnaires were distributed in major cities of Saudi Arabia one set for 100 multinational managers and another for 280 multinational customers 234 questionnaires were collected 45 from multinational managers and 189 from customers This represents a total response rate of 62 percent which is adequate for this study The empirical results supported with comprehensive secondary data confirmed virtually all of the research hypotheses The study found that joint ventures are the dominant form of multinational business in Saudi Arabia both in manufacturing and service industries The core roles of MNCs in the Saudi foreign ventures are evident in the cross border value adding activities of marketing trading manufacturing consulting contracting project management insurance hotel operation and banking Likewise MNCs provide licensing franchising financing services and various auxiliary roles in the Kingdom Therefore the multinationality of a firm or a group of firms operating across national boundaries is not necessarily synonymous with international production the main subject of contemporary multinational theories The respondents generally perceived the competitiveness of MNCs operating in Saudi Arabia as a function of a number of economic management marketing technological and other variables They also perceived the contributions of MNCs to the Kingdom s socio economic developments as significant and positive The study also found that understanding Islamic values and ethics is important for MNCs In this regard the researcher looked at some objective indicators of business success and related them to selected measures of MNCs local cultural awareness and responsiveness The results indicate that the business success of multinationals operating in Saudi Arabia is positively related to their local cultural awareness and responsiveness Along this line this study covers some vital elements of Islamic culture which will help MNCs understand further the cultural needs values and sensitivities of the Saudi people and Muslims in general The Multinational Corporation ,1977 **Market Structure and Industrial Performance** Claudio R.
