The Musical Symbol A Study Of The Philosophic Theory Of Music:

The Musical Symbol Gordon Epperson, 1967 **Liturgical Music as Ritual Symbol** Judith Marie Kubicki, 1999 In this book Sister Kubicki uses Jacques Berthier's Taizé music to explore the nature of liturgical music as ritual symbol. She carries out a hermeneutical analysis of Berthier's chants and examines biographical and historical data related to the creators of Taizé music and the founding of the Taizé community. The author draws on five areas of study to interpret the Taizé chants as ritual symbol: symbol theory, semiotics, theologies of symbol, ritual theory, and performative language theory. The final chapter explores potential ecclesial meanings which may be mediated in the Taizé liturgy and the role of Berthier's chants in mediating that meaning. The study concludes that it is music's symbolic property that enables it to be both ministerial and integral to the liturgy. As symbolic activity, music making evokes participation, negotiates relationships, and enables the assembly to orient themselves and to find their identity and place within their world. Furthermore, music making provides the illocutionary force to do something in the act of singing. Thus it is that as part of a complexus of ritual symbols, music interacts with other symbols in mediating the liturgy's meaning.

The Musical Symbol Gordon Epperson, 1967 *A Theology of Music for Worship Derived from the Book of Revelation* Thomas Allen Seel, 1995 Analyzes the forms of music performing groups and performance practice found within the Book of Revelation. Each of these aspects is traced historically through the early pagan, Jewish, Greek, Roman, and early church periods.

The Philosophy of Susanne Langer Adrienne Dengerink Chaplin, 2019-10-17 This book is a comprehensive study of one of the most insightful and fertile but also most neglected philosophers of the twentieth century Susanne Langer Failure to recognise Langer's seminal philosophical sources has led to frequent misinterpretations and misunderstandings of her unique philosophical thought Beginning with an overview of Langer's life and education this study provides a much needed explanation of how Langer's thinking was shaped by four seminal sources her mentors Henry Sheffer and Alfred North Whitehead and the European philosophers Ernst Cassirer and Ludwig Wittgenstein Langer's ability to unite seemingly disparate fields such logic art and embodied cognition around the notion of symbolic form places aesthetics not at the margins of philosophy but at its very centre By locating Langer's work in the broader context of major developments in twentieth century European and American philosophy Dengerink Chaplin shows how she was often ahead of her time Shedding new light on Langer as an American philosopher whose innovative thought crosses the customary boundaries between analytic and continental philosophy this book confirms why she continues to have relevance today

Music as Theology Maeve Louise Heaney, 2012-09-01 The conversation between music and theology dormant for too long in recent years is at last gathering pace And rightly so There will always be theologians who will regard music as a somewhat peripheral concern too trivial to trouble the serious scholar and in any case almost impossible to engage because of its notorious resistance to words and concepts But an increasing number are discovering again what many of our forbears realized centuries ago that the kinship between this pervasive feature of human life and the search for a Christian intelligence of faith is intimate and ineradicable Maeve Heaney's ambitious wide ranging and energetic book pushes the conversation further forward still Her approach is unapologetically theological grounded in the passions and concerns of mainstream doctrinal theology And yet she is insisting that music must be given its due place in the ecology of theology Although convinced that music should not be set up as a rival to linguistic or conceptual articulation let alone swallow up traditional modes of theological language and thought she is equally convinced that music is an irreducible means of coming to terms with the world a unique vehicle of world disclosure and as such can generate a particular form of understanding there are things which God may only be saying through music If this is so it is incumbent on the theologian to listen Jeremy Begbie from the Foreword
