The Mycenaean Feast Hesperia:

The Mycenaean Feast James C. Wright, 2004 The large scale formal consumption of huge quantities of food and drink is a feature of many societies but extracting evidence for feasting from the archaeological record has until recently been problematic This collection of essays investigates the rich evidence for the character of the Mycenaean feast *The Mycenaean Settlement on Tsoungiza Hill* Mary K. Dabney, James C. Wright, 2020-12-04 A hill dominating the Nemea Valley Tsoungiza is located only 10 kilometers northwest of the citadel of Mycenae Excavations there have uncovered the remains of a Late Helladic settlement that stood at its southern end This volume presents the results of these investigations with an unprecedented study of a small settlement's economy and society in the Mycenaean period Through an interdisciplinary approach that incorporates a wide variety of general and specialist studies the authors demonstrate how agricultural production craft activities and ceremonial practices integrated the inhabitants of Tsoungiza into a regional exchange system within the Bronze Age world The volume includes contributions by P Acheson S E Allen K M Forste P Halstead S M A Hoffmann A Karabatsoli K Kaza Papageorgiou B Lis R Mersereau H Mommsen J B Rutter T Theodoropoulou and J E Tomlinson The Never-ending Feast Kaori O'Connor, 2015-02-26 Feast Throughout human history and in all parts of the world feasts have been at the heart of life The great museums of the world are full of the remains of countless ghostly feasts dishes that once bore rich meats pitchers used to pour choice wines tall jars that held beer sipped through long straws of gold and lapis immense cauldrons from which hundreds of people could be served Why were feasts so important and is there more to feasting than abundance and enjoyment The Never Ending Feast is a pioneering work that draws on anthropology archaeology and history to look at the dynamics of feasting among the great societies of antiquity renowned for their magnificence and might Reflecting new directions in academic study the focus shifts beyond the medieval and early modern periods in Western Europe eastwards to Mesopotamia Assyria and Achaemenid Persia early Greece the Mongol Empire Shang China and Heian Japan The past speaks through texts and artefacts We see how feasts were the primary arena for displays of hierarchy status and power a stage upon which loyalties and alliances were negotiated the occasion for the mobilization and distribution of resources a means of pleasing the gods and the place where identities were created consolidated and destroyed The Never Ending Feast transforms our understanding of feasting past and present revitalising the fields of anthropology archaeology history museum studies material culture and food studies for all of which it is essential reading **A Greek State in Formation** Jack L. Davis, Sharon R. Stocker, 2022-05-03 Prologue About the Aegean Bronze Age About the Palace of Nestor Mycenaean origins and the Greek nation state Farm field and Pylos A truly prehistoric archaeology of Greece Preserving and conserving Nestor Science and the mortuary landscape of Pylos Minoan missionaries in Pylos with Sharon R Stocker Epilogue with Sharon R Stocker **The Shaft Graves and Other Late Helladic I and II Remains** Michael Lindblom, 2025-04-01 This volume presents funerary and domestic remains from the Late Helladic LH

period at the settlement of Lerna an important prehistoric site on the Gulf of Argos excavated by the ASCSA in the 1950s Most of the material derives from the fill of two disturbed shaft graves from the later half of the LH I period whose large ceramic and faunal assemblages are complemented by finds from an additional nine graves and domestic remains Stratigraphic analysis of the shaft graves and surrounding remains contextualize the ceramics and miscellaneous objects recorded in the accompanying catalogues Analysis of the pottery establishes a clear subdivision of LH I table ware into two phases and suggests a close relationship between kin groups at Lerna and at Kolonna on Aigina Contributions by Sturt Manning on radiocarbon dating of the shaft grave fills Ian Whitbread and Hans Mommsen on petrographic and chemical analysis of the pottery and David S Reese on the faunal remains shed further light on this important material The combined evidence suggests that Lerna was continually settled throughout the LH I period with decline in the early LH IIA period and abandonment in the LH IIB period While publication of intact monumental tombs often focuses on the elite occupants and their precious grave goods the value of the Lerna shaft graves lies in what they reveal about the hundreds of living participants in the funerary rituals
