An Unique and Scientific Study of Rahu and Ketu Saket Shah, 2020-03-29 Astrology is an integral part of Indian culture It is as old as the vedas It explains the celestial phenomena and the corresponding terrestrial events It explains the cause and effect of events The main basis of astrological thought is that the celestial phenomena effects the life and events on the earth It does not permit anyone to conclude any event just as an accident Celestial bodies generate a lot of energy in their movements and astrology shows us how we can use these energies operative in our lives in the best possible way Astrology is a science which helps the mankind to put their life in the right path Astrology was tested and experienced for many centuries and its knowledge was handed down the ages to new generations A study of the civilizations flourished in different parts of the world shows that Astrology played an important role in their life The places where astrology does not flourish are mostly barbarous lacking in knowledge and they don't have any communication with the universe In India astrology has been considered as the best guide to achieve the fourfold objectives of life and they are Dharma Artha Kama and Moksha All the activities of human being are directed towards the achievement of these goals and astrology helps us to achieve them in a organized manner Astrology has reached this stage after nullifying the criticisms which it has to face from the beginning itself Astrology has the seven visible grahas Sun Moon Mars Mercury Jupiter Venus and Saturn along with the two lunar nodes Rahu and Ketu Rahu and Ketu are accepted as grahas in Indian astrology only They are considered as shadowy grahas The details available about Rahu and Ketu are confusing Astrological texts don't have a unanimous opinion about Rahu Ketu These opinions create confusion in the mind of astrologers as well as astrology followers So there is a need of study on Rahu Ketu Rahu Ketu are considered as recent developments by many scholars But this is not true Their

references are available in vedas itself So with a view to give some clear opinion on Rahu Ketu I have chosen this subject for study Further we know that astrology is the most criticized subject and research in this field are very less So I have tried to answer these criticisms and I hope that my study will encourage more researches in this field *The Complete Book of Astrology* Ada Aubin, June Rifkin, 2022-02-22 Ada Aubin and June Rifkin's *The Complete Book of Astrology* is an easy to use guide to astrology with resources and worksheets revised and updated for the 21st century An easy to use guide to astrology that takes the user beyond the rudimentary basics of the sun sign and helps them gain insight into their personality and potential There is much more to Astrology than simply the sun sign Both a science and an art form astrology is as old as recorded human history It is the science of possibilities showing the influence that the position and interaction of the planets at the time of birth have on a person's life character and innate potential *The Complete Book of Astrology* is a concise easy to use guide that introduces and explores the sun signs as well as ascendants planets houses aspects transits and other advanced concepts that educate and enlighten With worksheets and useful resources to help a user create their personal chart *The Complete Book of Astrology* provides the knowledge and tools for readers who want to gain a deeper understanding of themselves and those around them **The Moon's Nodes, and Their Importance in Natal Astrology** George WHITE (Writer on Personal Magnetism.), 1927
