Slow Squeeze:

Driverthink Frank Miller, 2009-06 Driverthink is not just another Go Slow Safe Driving guidebook Within its pages are reality based driving tips ideas and suggestions that can literally save your life For too long the focus on safe driving has been to expound Politically Correct driving concepts that simply don't take into account the Reality of driving a vehicle at high speed on modern roads and highways Otherwise responsible people don't suddenly shed their responsibility when they slip behind the wheel But they don't often really think about their driving either Thus the title Driverthink In order to be responsible safe drivers we need to think about our driving We need to know our machines know our limitations maximize our driving skills and gain driving experience as quickly as possible Driverthink breaks new ground by exploring each of these areas in lively entertaining detail Drive Fast or Drive Slow but Driverthink when you drive Driverthink is a collection of articles from the popular blog of the same name Written in a lively and entertaining style each of the articles explore specific driving situations or issues in detail offering driving tips ideas and suggestions on how to deal with the different situations Driverthink is an excellent review for the seasoned driver and a must read for the newer less experienced driver Driverthink would suggest that Speed may kill but unskilled driving can definitely kill Does the average driver even know what over steer or under steer are Do they know what kind of rear suspension they're driving on Do they really understand how these most basic driving concepts will affect the handling of their vehicles especially in an emergency situation Driving on our roads and highways must be about reality It is dealing with that reality that will keep us alive Following standard issue politically correct advice offered by those with limited skills and no appreciation for the realities of driving simply doesn't create safer driving Just Slow Down might not be the best advice on a highway where even the slow lanes are doing limit plus ten High speed rear end accidents can really ruin the day and excessively slow driving will most surely restrict traffic flow Perhaps it's not the best advice after all Driverthink is a most serious effort by the author to start really saving lives on our Highways and Byways It will help you to become a much safer Driverthink driver It may even save your life

Marter,2019-10-07 How do students develop a personal style from their instruction in a visual arts program Women Artists on the Leading Edge explores this question as it describes the emergence of an important group of young women artists from an innovative post war visual arts program at Douglass College The women who studied with avant garde artists at Douglas were among the first students in the nation to be introduced to performance art conceptual art Fluxus and Pop Art These young artists were among the first to experience new approaches to artmaking that rejected the predominant style of the 1950s Abstract Expressionism The New Art espoused by faculty including Robert Watts Allan Kaprow Roy Lichtenstein Geoffrey Hendricks and others advocated that art should be based on everyday life The phrase anything can be art was frequently repeated in the creation of Happenings multi media installations and video art Experimental approaches to methods of creation using a remarkable range of materials were investigated by these young women Interdisciplinary aspects of the Douglass curriculum became the basis for performances videos photography and constructions Sculpture was created using new technologies and industrial materials The Douglass women artists included in this book were among the first to implement the message and direction of their instructors Ultimately the artistic careers of these young women have reflected the successful interaction of students with a cutting edge faculty From this BA and MFA program in the Visual Arts emerged women such as Alice Aycock Rita Myers Joan Snyder Mimi Smith and Jackie Winsor who went on to become lifelong innovators Camaraderie was important among the Douglass art students and many continue to be instructors within a close circle of associates from their college years Even before the inception of the women s art movement of the 1970s these women students were encouraged to pursue professional careers and to remain independent in their approach to making art The message of the New Art was to relate one s art production to life itself and to personal experiences From these directions emerged a proto feminist art of great originality identified with women s issues The legacy of these artists can be found in radical changes in art instruction since the 1950s the promotion of non hierarchical approaches to media and acceptance of conceptual art as a viable art form
