The Bully Society Jessie Klein, 2013-08 Choice's Outstanding Academic Title list for 2013 Through interviews and case studies Klein develops an explanation for bully behavior in America's schools In today's schools kids bullying kids is not an occasional occurrence but rather an everyday reality where children learn early that being sensitive respectful and kind earns them no respect Jessie Klein makes the provocative argument that the rise of school shootings across America and childhood aggression more broadly are the consequences of a society that actually promotes aggressive and competitive behavior The Bully Society is a call to reclaim America's schools from the vicious cycle of aggression that threatens our children and our society at large Heartbreaking interviews illuminate how both boys and girls obtain status by acting masculine displaying aggression at one another's expense as both students and adults police one another to uphold gender stereotypes Klein shows that the aggressive ritual of gender policing in American culture creates emotional damage

that perpetuates violence through revenge and that this cycle is the main cause of not only the many school shootings that have shocked America but also related problems in schools manifesting in high rates of suicide depression anxiety eating disorders self cutting truancy and substance abuse After two decades working in schools as a school social worker and professor Klein proposes ways to transcend these destructive trends transforming school bully societies into compassionate communities Stripped, 2nd Edition Bernadette Barton,2017-01-17 What kind of woman dances naked for money

as new consumers and condemned for their growing delinquencies teenage girls emerged as one of the most visible segments of American society during and after World War II Contrary to the generally accepted view that teenagers grew more alienated from adults during this period Rachel Devlin argues that postwar culture fostered a father daughter relationship characterized by new forms of psychological intimacy and tinged with eroticism According to Devlin psychiatric professionals turned to the Oedipus complex during World War II to explain girls delinquencies and antisocial acts Fathers were encouraged to become actively involved in the clothing and makeup choices of their teenage daughters thus domesticating and keeping under paternal authority their sexual maturation In Broadway plays girls and women's magazines and works of literature fathers often appeared as governing figures in their daughters sexual coming of age It became the common sense of the era that adolescent girls were fundamentally motivated by their Oedipal needs dependent upon paternal sexual approval and interested in their fathers romantic lives As Devlin demonstrates the pervasiveness of

depictions of father adolescent daughter eroticism on all levels of culture raises questions about the extent of girls independence in modern American society and the character of fatherhood during America's fabled embrace of domesticity in the 1940s and 1950s

The Crisis of Connection Niobe Way, Alisha Ali, Carol Gilligan, Pedro Noguera, 2020-01-07 A collection of essays that examine the causes of and provide solutions to the widespread alienation and disconnection that beset modern society Since the beginning of the 21st century people have become increasingly disconnected from themselves each other and the world around them A crisis of connection stemming from growing alienation social isolation and fragmentation characterizes modern society The signs of this crisis of connection are everywhere from decreasing levels of empathy and trust to burgeoning cases of suicide depression and loneliness The astronomical rise in inequality around the world has contributed to the critical nature of this moment To delve into the heart of the crisis leading researchers and practitioners draw from the science of human connection to tell a five part story about its roots consequences and solutions In doing so they reveal how we in modern society have been captive to a false narrative that takes individualism as a universal truth The new story now emerging from across the human sciences underscores our social and emotional capacities and needs The science also reveals the ways in which the privileging of the self over relationships and of individual success over the common good as well as the

perpetuation of dehumanizing stereotypes have led to a crisis of connection that is now widespread Finally the practitioners in the volume present concrete solutions that show ways we can create a more just and humane world This profoundly important book suggests that our innate human determination to bridge differences and live in vulnerable loving relationships is the antidote to rising fear and anxiety Lyn Mikel Brown author of *Powered by Girl* **The Good Girl Revolution** Wendy Shalit, 2011-04-20 Across the country there is a youth led rebellion challenging the status quo In Seattle and Pittsburgh teenage girls protest against companies that sell sleazy clothing Online a nineteen year old describes her struggles with her mother who she feels is pressuring her to lose her virginity In a small town outside Philadelphia an eleventh grade girl upset over a dirty book read aloud in English class takes her case to the school board These are not your mother's rebels Drawing on numerous studies and interviews the brilliant Wendy Shalit makes the case that today's virulent bad girl mindset truly oppresses young women She reveals how the media one's peers and even parents can undermine girls' quests for their authentic selves and explains what it means to break from the herd mentality and choose integrity over popularity Written with sincerity and upbeat humor *The Good Girl Revolution* rescues the good girl from the realm of mythology and old manners guides to show that today's version is the real rebel Society may perceive the good girl as mild but Shalit demonstrates that she is in fact the opposite The new female role models are not people pleasing or repressed they are outspoken and reclaiming their individuality These empowering stories are sure to be an inspiration to teenagers and parents alike Join the conversation at www.thegoodgirlrevolution.com Domestic Abuse, Homicide and Gender J. Monckton-Smith, A. Williams, F. Mullane, 2014-11-04 Based on research with frontline professionals and domestic abuse and homicide victims this book argues for a reconceptualisation of the female victim to enhance safety management and encourage a deeper understanding of the emotional dynamics and social structures which perpetuate violence Lectures on the Psychology of Women Joan C. Chrisler, Carla Golden, 2018-01-12 Twenty two distinct essays prepared especially for *Lectures on the Psychology of Women* present readers with topics often not covered in depth in standard texts Essays are written by feminist psychologists all of whom are active and committed teachers and researchers within the psychology of women More than half the lectures are new to this edition and the others have been significantly updated to include recent research and contemporary examples The book's organization aligns with core texts making it ideal supplemental reading However each lecture stands alone so instructors can assign readings to meet their own course needs Part I on the diversity of women includes lectures on women with disabilities social class immigration relational race privilege aging sexual fluidity and mothering Part II delves into body images and female embodiment with lectures covering such topics as the sexualization of girls PMS weight and body image media representations of Black women genital anxieties and the hairless ideal Part III addresses women's physical and mental health with lectures on depression multicultural therapy Black women's health in the U S and institutional corruption in psychiatry Part IV focuses on discrimination control and violence against

women with lectures on slut shaming online gender harassment and microaggressions Part V on social justice and activism includes lectures on awareness of intersectional identities and the relation between the psychology of women and feminist activism
