Kaplan, 2005-03-03 From the seventeenth century until the Holocaust Germany s Jews lurched between progress and setback between fortune and terrible misfortune German society shunned Jews in the eighteenth century and opened unevenly to them in the nineteenth and early twentieth centuries only to turn murderous in the Nazi era By examining the everyday lives of ordinary Jews this book portrays the drama of German Jewish history the gradual ascent of Jews from impoverished outcasts to comfortable bourgeois citizens and then their dramatic descent into genocidal torment during the Nazi years Building on social economic religious and political history it focuses on the qualitative aspects of ordinary life emotions subjective impressions and quotidian perceptions How did ordinary Jews and their families make sense of their world How did they construe changes brought about by industrialization How did they make decisions to enter new professions or stick with the old juggle traditional mores with contemporary ways The Jewish adoption of secular modern European culture and the struggle for legal equality exacted profound costs both material and psychological Even in the heady years of progress a basic insecurity informed German Jewish life Jewish successes existed alongside an antisemitism that persisted as a frightful leitmotif throughout German Jewish history And yet the history that emerges from these pages belies simplistic interpretations that German antisemitism followed a straight path from Luther to Hitler Neither Germans nor Jews can be typecast in their roles vis vis one another Non Jews were not uniformly antisemitic but exhibited a wide range of attitudes towards Jews Jewish daily life thus provides another vantage point from which to study the social life of Germany Focusing on

Narrative Personae and Desire in Modernist Fiction Kevin Ohi,2025-09-25 Examining modernist fiction in the context of a longer tradition of narrative impersonality Narrative Personae and Desire in Modernist Fiction explores how narrative language renders subjective states of interiority and desire Inspired by linguistic analyses of the speakerless sentences of narrative language and their unoccupied centers of perception Kevin Ohi argues that modernist texts are populated by quasi persons narrative voices that are impersonal while trailing effects of personality and characters whose personhood is suspended the incisive rendering of psychology and desire produced by externalizations of consciousness Certain first person texts highlight the constitutive tension between the functions of narrator and character joined in that

first person while in third person texts a charismatic or impervious central voice can be shown nevertheless to hold the psychologies it empties from the characters it describes At stake is the particular way that modernist narrative responds to the question of literature's capacities for addressing psychic life In Virginia Woolf's *Jacob's Room* William Faulkner's *As I Lay Dying* Ford Madox Ford's *The Good Soldier* Eudora Welty's *The Golden Apples* Ronald Firbank's *Concerning the Eccentricities of Cardinal Pirelli* and James Purdy's *Mourners Below* this volume finds a paradoxical merger a humanizing effect achieved by narrative depersonalization and its evocations of psychology and desire
