## **Small Animal Endocrinology:**

*Blackwell's Five-Minute Veterinary Consult Clinical Companion* Deborah S. Greco, Autumn P. Davidson, 2017-02-22 Want access to this book online The full book content is also available as part of VetConsult an online subscription platform with a powerful search function Find out more at [www.wiley.com/learn/vetconsult](http://www.wiley.com/learn/vetconsult) and subscribe today at <https://vetconsult.wiley.com> subscription Blackwell's Five Minute Veterinary Consult Clinical Companion Small Animal Endocrinology and Reproduction is a highly practical clinically oriented guide to endocrine and reproductive disorders in small animals ideally formatted for fast access in the veterinary practice Provides a complete yet practical clinical manual on endocrine and reproductive problems in small animals Draws on the endocrinology and theriogenology sections of Blackwell's Five Minute Veterinary Consult Canine and Feline supplying a greater depth of information in a similar quick reference format Presents expanded information additional topics and color images throughout Arranged alphabetically for easy searching and reference Includes access to a companion website with client handouts in Word which can be downloaded edited and used in practice

**Small Animal Endocrinology** Frederick H. Drazner, 1987 **Small Animal Endocrinology** Drazner, 1986 This text contains practical information for the diagnosis and management of specific endocrine disorders It describes diagnostic and treatment approaches and also details the pathophysiologic processes underlying these disorders

*Manual of Small Animal Endocrinology* Andrew G. Torrance, Carmel T. Mooney, 1998-06-15 Small animal endocrinology has advanced rapidly over the last few years with the recognition of previously unreported disorders improvements in diagnostic tests and the emergence of novel options and refinements for treatment In recognition of these advances this second edition of the BSAVA Manual of Small Animal Endocrinology has been completely rewritten by a panel of international experts This expanded edition offers a fresh approach with the emphasis on clinical aspects and a wealth of tables algorithms and colour photographs It provides the most comprehensive information available today in a format designed specifically for the busy small animal practitioner BSAVA BVNA and FECVA members can claim their member discount by ordering direct from British Small Animal Veterinary Association Woodrow House 1 Telford Way Waterwells Business Park Quedgeley Gloucester GL2 4AB Tel 01452 726709 Fax 01452 726701 E mail [publications@bsava.com](mailto:publications@bsava.com)

*Clinical Endocrinology of Companion Animals* Jacquie Rand, Ellen Behrend, Danielle Gunn-Moore, Michelle Campbell-Ward, 2012-11-13 *Clinical Endocrinology of Companion Animals* offers fast access to clinically relevant information on managing the patient with endocrine disease Written by leading experts in veterinary endocrinology each chapter takes the same structure to aid in the rapid retrieval of information offering information on pathogenesis signalment clinical signs diagnosis differential diagnosis treatment prognosis and prevention for a broad list of endocrine disorders Chapters begin with brief summaries for quick reference then delve into greater detail With complete coverage of the most common endocrine diseases the book includes chapters on conditions in dogs cats horses ferrets reptiles and other species *Clinical Endocrinology of Companion Animals* is a highly practical resource for any

veterinarian treating these common diseases      *Endocrinology for the Small Animal Practitioner* David L. Panciera, 2014 A quick reference meant to provide the core clinical information needed for effective diagnosis and management of endocrine disorders in the dog and cat This title deals specifically with endocrine problems that can be managed by the general practitioner making it ideal for daily clinical use Consistent organization provides clear guidelines for diagnosis of suspected diseases based on clinical signs routine and special laboratory tests and diagnostic imaging The book provides an easy to use formulary of commonly used drugs and discusses management complications that may arise during      *Manual of Small Animal Endocrinology* British Small Animal Veterinary Association, 1990      *Feline endocrinology* Edward C. Feldman, Federico Fracassi, Mark E. Peterson, 2020-06-08T00:00:00+02:00 Developed by the most renowned experts in this field this unique and practical handbook of feline endocrinology will be the most valuable tool for small animal veterinarians who want to deepen their understanding on the pathophysiology clinical signs diagnosis treatment and prognosis of every endocrine condition recognized in cats Rather than have the authors treating cats as small dogs a cat only text will allow fully focused description of conditions in this one species Allowing these experts in feline endocrinology space to fully teach us what they have learned about cats will result in a superior resource composed of text figures boxes tables algorithms and videos presented on an electronic version of the text      **Small Animal Internal Medicine - E-Book** Richard W. Nelson, C. Guillermo Couto, 2008-12-02 Learn to effectively recognize diagnose and treat common internal medical conditions with this invaluable reference Small Animal Internal Medicine Fourth Edition emphasizes practical diagnostic approaches and focuses on the clinically relevant aspects of patient medical management Extensive color illustrations boxes and algorithms plus new photographs schematic representations and updated tables set this book apart With its highly functional design and clear expert voice this text delivers the most relevant information for the internal medical challenges you're most likely to face Utilizes a problem oriented approach beginning with a discussion of clinical signs and diagnostic recommendations and techniques and moving on to therapeutic considerations and management Each contributor is a recognized expert in his or her respective specialty Limited number of authors provides consistency Clear step by step procedural guidelines thoroughly describe each procedure Cross referencing throughout the book reduces redundancy and makes information easy to locate Suggested readings at the end of each chapter alert you to the latest research findings Comprehensive drug tables provide recommended dosages and indications Purposefully written to enhance critical thinking and decision making skills based on clinical findings Hundreds of summary boxes and tables allow quick access to clinical signs etiology differential diagnoses drugs and treatment Full color format brings you accurate visual depictions of specific disorders diseases and procedures Two new section editors bring a fresh perspective Discussion of Immune Mediated Disorders has been significantly expanded and made into its own section Hundreds of new full color photographs and quick reference tables throughout Completely updated drug and treatment guidelines tables      **BSAVA Manual of Small Animal Endocrinology** British Small Animal

Veterinary Association,1990      *Endocrinology of Zoological Species, An Issue of Veterinary Clinics of North America: Exotic Animal Practice* João Brandão,Sarah Ozawa,2024-11-25 In this issue of Veterinary Clinics Exotic Animal Practice guest editors Drs Sarah Ozawa and Jo o Brand o bring their considerable expertise to the topic of Endocrinology of Zoological Companion Animals Top experts in the field offer a wide range of clinically relevant articles covering several species including topics such as ferret insulinomas and adrenal disease ovarian cystic disease guinea pigs thyroid disease in rabbits and rodents hypothalamic pituitary physiology in birds and reptiles glucose homeostasis and derangement in birds and many more Contains 11 relevant practice oriented topics including endocrine diagnostics principles and applications adrenal disease in small mammals reproductive control and management in birds unique calcium metabolism in zoological companion animal species fish endocrinology and more Provides in depth clinical reviews on endocrinology of zoological companion animals offering actionable insights for clinical practice Presents the latest information on this timely focused topic under the leadership of experienced editors in the field Authors synthesize and distill the latest research and practice guidelines to create clinically significant topic based reviews      **Small Animal Toxicology** Michael Edward Peterson,Patricia A. Talcott,2006-01-01 Diagnose and determine treatment for toxic exposures in small animals with this quick reference Small Animal Toxicology 3rd Edition covers hundreds of potentially toxic substances providing the information you need to manage emergency treatment and prevent poisonings in companion animals To help you identify an unknown poison this guide provides a list of potential toxins based on clinical signs or symptoms It also includes a NEW color insert with 85 full color photographs of toxic plants and of lesions associated with various poisonings Written by respected veterinarian Michael E Peterson and board certified veterinary toxicologist Patricia A Talcott along with a team of expert contributors this edition covers a wide variety of topics including toxicodynamics toxicokinetics effective history taking recognizing clinical signs of toxic exposures managing emergencies and supportive care of the poisoned patient Comprehensive coverage of toxins poisons includes the full range of substances from acetaminophen to zinc including home products prescription medicines recreational drugs and more Guidelines to evaluation diagnosis and treatment include examinations of the source toxic dose toxicokinetics clinical signs minimum database confirming tests treatment progress and differential diagnosis for each specific toxicant Coverage of common poisonous substances includes grapes and raisins nicotine mercury mushrooms Christmas time plants and snake and spider venoms Toxicological Concepts section provides information on toxicologic principles such as history taking providing supportive care and managing emergency treatment General Exposures section addresses nontraditional toxicology such as indoor environmental air pesticides pharmaceuticals and toxicities in pregnant and lactating animals Miscellaneous Toxicant Groups section covers commonly encountered specific toxicants the proper use of diagnostic laboratories use of human poison control centers and antidotes for specific toxins More than 50 international contributors provide up to date authoritative advice on treating poisonings and intoxications 8 NEW chapters cover topics

including legal considerations in toxicology cases responding to mass exposures and poisonings in birds small mammals and geriatric patients NEW color insert shows 85 of the most commonly encountered toxic substances for at a glance identification UPDATED Signs and Symptoms index makes it easier to find information on a toxic agent by presenting signs rather than requiring the formulation of a diagnosis UPDATED information on agents most likely to cause a toxic reaction includes natural flea products and an expanded section on human medications NEW quick access format with bold headings and convenient tables and boxes allows quick retrieval of information in emergency situations Small Animal Toxicology Patricia A. Talcott, Michael E. Peterson, 2012-12-03 20 new chapters have been added New topics include a list of toxicants affecting body systems management of toxins in pregnancy diagnostic toxicology bacterial toxins and cosmetic toilet articles Snake bite injuries are treated in two separate expanded chapters Pit Vipers and Coral Snakes Section on pharmaceuticals includes bromides anticonvulsants tricyclic antidepressants monoamine oxidase inhibitors B adrenergic toxicities and vitamins A and D Additional specific toxicants are covered including Amitraz hydramethylon ethanol mercury toad toxins poisonous frogs salamanders newts and venomous arthropods Additional specific toxicants are covered including Amitraz hydramethylon ethanol mercury toad toxins poisonous frogs salamanders newts and venomous arthropods *BSAVA Manual of Canine and Feline Endocrinology*, 2012 Over recent years several endocrine disorders such as feline acromegaly and hyperaldosteronism have become of greater importance and a range of new therapies have emerged that are now considered routine This Manual has been comprehensively updated while retaining the emphasis on the common problems encountered in investigating and treating endocrine diseases The contents are divided into sections covering each endocrine gland and the major and minor endocrine disorders of each species A separate section deals with relevant presenting complaints in a problem oriented manner This Manual **Small Animal Toxicology - E-Book** Michael E. Peterson, Patricia A. Talcott, 2005-11-11 This revised and expanded reference is a valuable aid for the practicing veterinary clinician in diagnosing and determining treatment for toxic exposures in small animals and for veterinary students as a supplement to their classroom instruction It contains chapters addressing nontraditional areas of toxicology not covered in conventional toxicology texts It also covers areas of toxicology which seem basic but are rarely discussed such as taking a toxicological history establishing a minimum database providing supportive care and managing emergency treatment of the poisoned patient The book is organized into three sections including 20 new chapters and new topics such as grapes and raisins lilies Christmas time plants mercury and accidental poisoning in non traditional pets New two color design makes the book more esthetically pleasing and allows for quick retrieval of information Toxic Plant Information Summary tables make treatments for plant intoxications easy to find Toxic Plant Quick Reference Based on Clinical Signs tables are included to support small animal veterinarians in cases of potential toxic plant ingestion Summary charts at the beginning of each chapter in the Specific Toxicants section contain bulleted lists with clear cut information on the specific toxicant the clinical signs and

prognosis A comprehensive review of all known potentially toxic substances is provided from A acetaminophen to Z zinc including the very latest on grape and raisin toxicity making this the most up to date and thorough text in this field 45 different experts contribute to this book all from the field of veterinary toxicology and medicine 20 new chapters have been added New topics include a list of toxicants affecting body systems management of toxins in pregnancy diagnostic toxicology bacterial toxins and cosmetic toilet articles Snake bite injuries are treated in two separate expanded chapters Pit Vipers and Coral Snakes Section on pharmaceuticals includes bromides anticonvulsants tricyclic antidepressants monoamine oxidase inhibitors B adrenergic toxicities and vitamins A and D Additional specific toxicants are covered including Amitraz hydramethylon ethanol mercury toad toxins poisonous frogs salamanders newts and venomous arthropods Additional specific toxicants are covered including Amitraz hydramethylon ethanol mercury toad toxins poisonous frogs salamanders newts and venomous arthropods

**Endocrinology for the Small Animal Practitioner** David Panciera, Anthony Carr, 2005-01-01 A quick reference meant to provide the core clinical information needed for effective diagnosis and management of endocrine disorders in the dog and cat This title deals specifically with endocrine problems that can be managed by the general practitioner making it ideal for daily clinical use Consistent organization provides clear guidelines for diagnosis of suspected diseases based on clinical signs routine and special laboratory tests and diagnostic imaging The book provides an easy to use formulary of commonly used drugs and discusses management complications that may arise during treatment It also includes protocols for managing and treatment complications and patient monitoring Published by Teton New Media in the USA and distributed by Manson Publishing outside of North America
