**Times** Kendall, 2001-06 Consuming Youth John Berard, James Penner, Rick Bartlett, 2011-01-04 Today's relentless consumer culture dominated by popular media's emphasis on bigger better and more and catering to teenagers every want and desire is leaving our youth adrift in a sea of conflicting messages Messages that every youth worker must be able to decode and redirect away from the material world towards helping young people become who God created them to be givers instead of receivers servers instead of consumers *Consuming Youth* is for any adult who recognizes that following Jesus means leading young people through the pitfalls of consumer culture helping them discover vocation where their great gladness meets a world's great need and unleashing the kingdom of God on earth **Diversity, Justice, and Community**

Daniel, 2016-12-16 This edited collection provides readers with a superb introduction to some of the contemporary issues related to diversity community and justice in the Canadian context Grounded in theories of community justice and applied social justice the text provides a historical theoretical and intersectional approach to understanding justice and its everyday manifestations for members of diverse populations in Canadian society *Diversity Justice and Community* encourages reflection on the systemic factors that result in the production of criminality in marginalized and

Delaney,2021-03-29 Norms of Violence Violent Socialization Processes and the Spillover Effect for Youth Crime explores the degree to which violent socialization processes both at the macro and micro levels are associated with youth criminal behavior Based on a quantitative test of an integrated theory of social control and culture of violence the author argues that violent socialization is a process involving physical violence exposure to violence and pro violent communications All three dimensions in combination with national level indicators of violence contribute to a norm of violence which at a national level spills over into other dimensions of society including the family environment This book seeks to answer if violent socialization processes truly control youth behavior Various quantitative methods are used to demonstrate how violent socialization tends to be more prevalent in nations with indicators of violence compared to nations without such indicators The spilling over of violence into socialization processes creates a context of violence normalized as a form of social control which exacerbates youth criminal behavior within pro violent nations This book is unique in propelling a more thorough explanation of international youth crime by focusing on both victimization violent socialization and offending rather than arguing solely that victimization is a correlate of youth crime It provides a reference point for future comparative research offering theoretical explanations for youth crime across different nations and is essential reading for those engaged in youth and juvenile justice efforts and scholars interested in issues surrounding violence youth and justice      *The Essentials of Sociology in Our Times* Kendall,1999-10 Student Study Tools is a brief booklet available with the text containing chapter learning objectives glossary
