Death and Spirituality Kenneth Doka, John Morgan, 2016-12-05 An elderly Chinese immigrant hospitalized with terminal disease requests to burn incense A 30 year old Roman Catholic gay male dying of AIDS is consumed by deepening moral guilt troubled by beliefs he thought he abandoned years ago A mother whose teenage son died of an aneurism is angry at God over his death yet fearful of expressing that anger lest He punish her again A young widower seemingly has difficulty expressing grief believing it to be a sign of weak faith All of these examples illustrate the kinds of issues that clinicians and counselors constantly encounter For although North American society has long been characterized as secular this does not deny the potency of spiritual concerns and religious values on the individual level Polls affirm that vast majorities of North Americans both believe in God and consider religion important in their lives This is clearly evident when one faces the crisis of dying or bereavement For one of the strengths of belief is that it provides support and succor at a time when secular explanations are largely silent For these reasons educators and clinicians have long recognized the significance that religious and spiritual themes have in counseling with the dying and bereaved Yet in cultures as religiously diverse as the U S and Canada caregivers and educators may feel inadequate to the task *Death and Spirituality* addresses this need Specifically it seeks to reach two perhaps overlapping audiences First it considers the needs death related counselors and educators seeking to provide them with both a sense of the norm of religious tradition and the religious and spiritual issues that might

arise in illness and bereavement as well as suitable interventions approaches and resources that might be useful in assisting clients in examining and resolving such issues The book also speaks to the complementary needs of clergy who also may wish to assist parishioners and others as they face the spiritual and psychological crisis of dying and grief Toward a Sociology of Death and Dying Lyn H. Lofland,1976-02 **Death and Dying** John F. Szabo,2009-11-02 While it can be traced to the 1700s the term thanatology has gained traction in recent decades to refer to the study of death Because of the breadth of the published material and the challenges of discovery in large bibliographic databases and catalogs finding and identifying monographic material on death dying grief and bereavement can be extremely challenging Although there have been several bibliographical resources published on thanatology those titles were incomplete limited in scope or leaned heavily toward one area of the field In *Death and Dying An Annotated Bibliography of the Thanatological Literature* John F Szabo provides more than 2 200 citations of monographs on the science and study of death and dying Among the areas this volume addresses are the psychological philosophical and attitudinal aspects coping and dealing with the burdens of caregiving and working in the helping professions instructional and educational topics for practitioners primarily health care providers cultural differences in bereavement rituals and grief mourning and loss In addition notable titles on or relating to death and dying in popular culture death themes in literature methods of death or specific ethical policy or public issues are also included when they contribute important information to subject areas on which the book focuses This book will be helpful to students researchers academics caregivers health care professionals psychologists social workers and anyone with an interest in death dying bereavement or the care of the terminally ill **Sociology of Death and the American Indian** Gerry R. Cox,2022-07-07 *Sociology of Death and the American Indian* examines dying death disposal and bereavement practices and applies those concepts to select American Indian tribes historically and currently supplemented with oral histories The focus is that learning about other cultures can enhance the understanding of one s own culture by comparing traditional and modern societies Gerry R Cox addresses the centuries of injustices committed against American Indians that led to a neglect of learning about American Indian cultures and attempts to fill the gaps in knowledge of American Indian practices Individual Family & Community Phoebe A. Dautz-Williams,Arthur R. Williams,2000 Handbook of Suicide Prevention Updesh Kumar,2025-04-14 The *Handbook of Suicide Prevention* covers a broad range of topics related to suicidal behaviour including its underlying causes risk factors prevention strategies and therapeutic approaches With contributions by renowned experts in the field the volume brings forth the latest research and clinical insights into suicidal behaviour It highlights evidence based practices effective in reducing suicide risk It provides a comprehensive overview of the multidimensional perspectives including biological psychological and social factors contributing to suicidal ideation and behaviour The book provides a nuanced and extensive understanding of how suicide risk and protective factors are shaped by social cultural and political contexts across the lifespan The last section of the volume highlights the need for a multifaceted

Consolatory Rhetoric Donovan J. Ochs, 1993 *Consolatory Rhetoric* explores Greco Roman funeral rituals to reveal how opposing symbols functioned rhetorically to comfort communities afflicted by the death of one of their members While the bulk of rhetorical criticism interprets written texts Donovan Ochs broadens the traditional focus to consider non verbal symbols as well as action and object languages Ochs demonstrates that non discursive dimensions of Greco Roman burial rites held a place of particular persuasive significance in consoling the populace and he attributes funeral customs practiced in contemporary western civilization to the legacy left by the ancient Greeks and Romans

Towards Death with Dignity Sylvia Poss, 2021-11-07 The explosion of literature on the once taboo topic of death and dying in the late 1970s had tended to pass the professional social worker by Originally published in 1981 it was to fill this important gap that *Towards Death with Dignity* was written Not since Kubler Ross's now classic *On Death and Dying* has a book in the field of terminal care been informed by so much first hand experience and so much case material allowing the caregiver to learn from the dying person himself how best to help him towards a dignified death Sylvia Poss's sensitive elucidation of what the dying person must do for himself in order to master his terminal crisis was welcomed as a major contribution to psychosocial knowledge at the time Having outlined the dying person's side of the crisis she turns to the perspective of those who hope to help him towards death other patients nurses doctors paramedical staff and social workers chaplains volunteers employers relatives and friends *Towards Death with Dignity* focuses on three of social work's major methods social casework community work and teaching Not only does Sylvia Poss outline what may need to be done by the caregiver but she also illustrates how she further outlines how to prepare for social work in the terminal care field and suggests an effective method for teaching terminal care skills Her book also provided for the first time a synthesis of other recent work in the field to help social workers through what had become a plethora of specialist psychosocial and medical literature *Towards Death with Dignity* was thus a useful practical guide both for laymen and for the many professionals involved in this aspect of the health care field It will also be valuable for those who are involved personally in moving towards their own death or are being called upon to be involved in some way in the death of a relative neighbour or friend
