Ritchie,1974-05      Softstone: Approaches to the study of chlorite and calcite vessels in the Middle East and Central Asia from prehistory to the present Carl S. Phillips,St John Simpson,2018-08-13 Stone containers have been made and used in the Middle East for over eleven millennia where they pre dated the invention of pottery This is the first attempt to bring together different approaches to the study of softstone vessels particularly those carved from varieties of chlorite and covering all periods from prehistory to the present      Slate and Soft Stone Sculpture Frank Eliscu,1972      Amateur work, illustrated ,1882      Stone and Marble Carving Alec Miller,2023-11-15 This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1948      **The Inscription of Things** Thomas Kelly,2023-11-14 Why would an inkstone have a poem inscribed on it Early modern Chinese writers did not limit themselves to working with brushes and ink and their texts were not confined to woodblock printed books or the boundaries of the paper page Poets carved lines of verse onto cups ladles animal horns seashells walking sticks boxes fans daggers teapots and musical instruments Calligraphers left messages on the implements ordinarily used for writing on paper These inscriptions terse compositions in verse or epigrammatic prose relate in complex ways to the objects on which they are written Thomas Kelly develops a new account of the relationship between Chinese literature and material culture by examining inscribed objects from the late Ming and early to mid Qing dynasties He considers how the literary qualities of inscriptions interact with the visual and physical properties of the things that bear them Kelly argues that inscribing an object became a means for authors to grapple with the materiality and technologies of writing Facing profound social upheavals from volatility in the marketplace to the violence of dynastic transition writers turned to inscriptions to reflect on their investments in and dependence on the permanence of the written word Shedding new light on cultures of writing in early modern China **The Inscription of Things** broadens understandings of the links between the literary and the material      **Stone; an Illustrated Magazine** ,1902      *Report of the ...
