Software Larry Ellison, Matthew Symonds, 2003-10-01 **Software** Matthew Symonds, 2013-04-30 In a business where great risks huge fortunes and even bigger egos are common Larry Ellison stands out as one of the most outspoken driven and daring leaders of the software industry The company he co-founded and runs Oracle is the number one business software company perhaps even more than Microsoft's Oracle's products are essential to today's networked world But Oracle is as controversial as it is influential as feared as it is revered thanks in large part to Larry Ellison Though Oracle is one of the world's most valuable and profitable companies Ellison is not afraid to suddenly change course and reinvent Oracle in the pursuit of new and ever more ambitious goals **Software** examines the results of these shifts in strategy and the forces that drive Ellison relentlessly on In **Software** journalist Matthew Symonds gives readers an exclusive and intimate insight into both Oracle and the man who made it and runs it As well as relating the story of Oracle's often bumpy path to industry dominance Symonds deals with the private side of Ellison's life From Ellison's troubled upbringing by adoptive parents and his lifelong search for emotional security to the challenges and opportunities that have come with unimaginable wealth **Software** gets inside the skin of a fascinating and complicated human being With unlimited insider access granted by Ellison himself Symonds captures the intensity and some would say the recklessness that have made Ellison a legend The result of more than a hundred hours of interviews and many months spent with Ellison **Software** is the most complete portrait undertaken of the man and his empire a unique and gripping account of both the way the computing industry really works and an extraordinary life Despite his closeness to Ellison Matthew Symonds is a candid and at times highly critical observer And in perhaps the book's most unusual feature Ellison responds to Symonds's portrayal in the form of a running footnoted commentary The result is one of the most fascinating business stories of all time

Ethics in a Cocoon V. David Schwantes, 2007-09 *Cocoon* demonstrates in easy to understand language that ethics is about trust and happiness Trust is the essential ingredient to mutually supportive and durable relationships focused on reducing life's imperfections Such relationships are the key to happiness But we cannot live deep inside protective cocoons and still build trust and

relationships Instead we must develop all the dimensions of what makes us human intellectual truth spiritual unity moral goodness and aesthetic beauty Above all we have to know ourselves and be able to pass the mirror test every day Our most important relationship after all being with ourself and we don't discover our spiritual unity without a Personal Strategic Plan Nor can we become ethically fit without enthusiasm equanimity and a commitment to excellence traits not found in cocoons Only ethical fitness can help us find the resolution to the fundamental ethical dilemmas we all face truth versus loyalty short term versus long term individual versus community and justice versus mercy This book suggests we use a variety of lenses to look at the world today power wealth prestige status We use the lenses of economics politics and technology We do not use nearly enough the lens of ethics relationships happiness decency and the golden mean Once we're ethically fit the result of continuous practice we're able to recognize ethical dilemmas approach them skillfully and resolve them successfully This book shows the way to such fitness which is useful in any context or relationship personal local or global Cocoon is a self improvement book of the first order with real life macro illustrations of the ethical dilemmas we face in a complex and crowded world in which too many of us pursue the dictates of false gods It includes over 500 practice questions and was developed as a textbook in the ethics courses the author taught to seniors at Ramapo College from 2002 to 2011

Views from the interface of psychoanalysis and organizational life In the books in this series Manfred Kets de Vries failed engineer entrepreneur manqué reluctant economist international management guru psychoanalyst wit and outdoorsman offers an overview of his work spanning four decades a period in which he has established himself as the leading figure in the clinical study of organizational leadership At a key point in his career working as he puts it in the twilight zone of economics management and psychoanalysis he decided to strike out on a little trodden path and bring the person back into the organization Now Kets de Vries occupies a unique position in the academic business world putting leaders and companies of the couch and working at the often intimate interface where the inner theater of the individual meets the outer world of the organization The second book in this series Reflections on Leadership and Career Development takes different perspectives on the intimate connection between the personality or inner theater of individuals and the organizational context in which they work how different personality types in positions of leadership or as members of management teams affect the functioning and success of organizations Kets de Vries looks at the way basic psychological processes operate on individual and corporate performance and analyzes them in the context of case studies of leaders and organizations He examines narcissism dysfunctional collusion between leaders and followers some new leadership archetypes and the roles that organizational therapists coaches or consultants can play in their interventions The book includes a lengthy study of Vladimir Putin as CEO of Russia Inc an assessment of the former Russian president's performance as an organizational leader The final part of the book examines the career life cycle and how executives cope or fail to cope with rites de passage like succession and retirement For the first time this book provides a glimpse of Manfred Kets de Vries' own inner theater as the wellspring of his success as psychoanalyst mentor and inspiration to a generation of leaders Reflections on Leadership and Career Development offers a rare opportunity to observe Manfred on his own legendary couch a personal perspective not to be missed Paul McMorran HR Director TNK BP **Play Among Books** Miro Roman, Alice_ch3n81, 2021-12-06

surprised and when we realise that we are not going to win Can we control our nerves Can we take it easy Can we look for a different plan and adapt quickly when things go wrong This is an art and it is more important than the knowledge It comes with experience The more you play the more you are in control The Art of Sales is based on exactly the same thinking Play safely
