Growing Media for Ornamental Plants and Turf Kevin A. Handreck, Neil D. Black, 2002 This is a comprehensive revision of *Growing Media* first published in 1984 and last revised in 2002 Since its first publication the book has been a core text for Horticulture students at TAFE colleges and universities as well as an important reference title The Container Tree Nursery Manual: Containers and growing media, 1990 **Endospore-forming Soil Bacteria** Niall A. Logan, Paul De Vos, 2011-07-06 Aerobic endospore forming bacteria are found in soils of all kinds ranging from acid to alkaline hot to cold and fertile to desert It is well known that endospores confer special properties upon their owners and play dominant parts in their life cycles and dispersal and much has been written about the spores genetics and economic importance of these organisms Much has also been written about soil ecology but there is a relative dearth of literature that brings together different aspects of the behaviour and characters of endospore formers with their contributions to soil ecosystems This Soil Biology volume fills that gap Following chapters that describe the current classification of these organisms that review methods for their detection and for studying their life cycles in soils and that examine their dispersal other chapters show that they are active and dynamic members of soil floras that interact widely with other soil inhabitants with roles in nitrogen fixation denitrification and soil remediation **Encyclopedia of Soil Science** Rattan Lal, 2006 Upholding the high standard of quality set by the previous edition this two volume second edition offers a vast array of recent peer reviewed articles It showcases research and practices with added sections on ISTIC World Soil Information root growth and agricultural management nitrate leaching management podzols paramos soils water repellent soils rare earth elements and more With hundreds of entries covering tillage irrigation erosion control ground water and soil degradation the book offers quick access to all branches of soil science from mineralogy and physics to soil management restoration and global warming Publisher's website *Annual Report of the Board of Control of the New York Agricultural Experiment Station, (Geneva, Ontario County), ... , with Reports of Director and Other Officers* New York State Agricultural Experiment Station, 1915 *Soil Fungi and Soil Fertility* S.
