Soldier Kings The House Of Hohenzollern:

The Soldier Kings Walter Henry Nelson,1970 Characterizes the Hohenzollerns as eccentric autocratic and ambitious with the worst examples ranging from petty tyrants to weaklings and the best exhibiting brilliance vision and tolerance **The Soldier Kings** Walter Henry Nelson,1970 Characterizes the Hohenzollerns as eccentric autocratic and ambitious with the worst examples ranging from petty tyrants to weaklings and the best exhibiting brilliance vision and tolerance Soldier Princess David Coffey,2002 By the time of her death in 1912 this enigmatic woman s life had become the stuff of myth which she had only encouraged Stories featured her fighting beside her husband in battle while treating the wounded She claimed to have received a captain s commission for her services and to have been a close friend of President Lincoln which apparently she was not One story even placed her in command of a company of troops during Sherman s March to the Sea

BOOK JACKET **The Illusion Of Victory** Thomas Fleming,2008-08-05 The political history of the American experience in World War I is a story of conflict and bungled intentions that begins in an era dedicated to progressive social reform and ends in the Red Scare and Prohibition Thomas Fleming tells this story through the complex figure of Woodrow Wilson the contradictory president who wept after declaring war devastated because he knew it would destroy the tolerance of the American people but who then suppressed freedom of speech and used propaganda to excite America into a Hun hating mob This is tragic history inexperienced American military leaders drove their troops into gruesome slaughters progressive politics were put on hold in America an idealistic president s dreams were crushed because of his own negligence Wilson s inability to convince Congress to ratify U S membership in the League of Nations was one of the most poignant failures in the history of the American presidency but even more heartrending were Wilson s concessions to his bitter allies in the Treaty of Versailles In exchange for Allied support of the League of Nations he allowed an unfair peace treaty to be signed a treaty that played no small role in the rise of National Socialism and the outbreak of World War II Thomas Fleming has once again created a masterpiece of narrative American history This incomparable portrait shows how Wilson sacrificed his noble vision to megalomania and single mindedness while paying homage to him as a visionary whose honorable spirit continues to influence Western politics **Absolute Power** C.S. Denton,2006-07-31 Nearly all men can stand adversity but if you want to test a man s character give him power Abraham Lincoln Throughout history all monarchs have lived with the strange dichotomy of simultaneously being human and more than human In our time when monarchies seem little more than tourist curiosities and democracy is taken for granted it is easy to forget just how much power pre democratic rulers once wielded The rulers and holders of political power in this book were all possessed of vast in many cases absolute power power which was often exercised arbitrarily and unjustly What unites the figures in this book is that they all in one way or another failed to live up to the extravagantly high hopes invested in them and as a consequence have been judged harshly by history A few such as George III might have been remembered more kindly were it not for mental illness changing their status from that of

hero to villain Some like Louis XVI were unfairly transformed into monsters by hostile propaganda while others such as Peter the Great have been both celebrated as heroes and denounced as tyrants often in the same breath Finally there are those rulers who like Caligula or Ivan the Terrible may well fully deserve their evil reputations Absolute Power is a study in how often rulers were carried away or overwhelmed by their exalted status while a few were even driven over the edge into madness **The Armies of Austria-Hungary and Germany, 1740-1914** László M. Alföldi,1975 The 17th and 18th Centuries

Frank N. Magill,2013-09-13 Each volume of the Dictionary of World Biography contains 250 entries on the lives of the individuals who shaped their times and left their mark on world history This is not a who s who Instead each entry provides an in depth essay on the life and career of the individual concerned Essays commence with a quick reference section that provides basic facts on the individual s life and achievements The extended biography places the life and works of the individual within an historical context and the summary at the end of each essay provides a synopsis of the individual s place in history All entries conclude with a fully annotated bibliography **The Holy Roman Empire** Brian A.

Pavlac,Elizabeth S. Lott,2019-06-01 Reference entries overview essays and primary source document excerpts survey the history and unveil the successes and failures of the longest lasting European empire The Holy Roman Empire endured for ten centuries This book surveys the history of the empire from the formation of a Frankish Kingdom in the sixth century through the efforts of Charlemagne to unify the West around A D 800 the conflicts between emperors and popes in the High Middle Ages and the Reformation and the Wars of Religion in the Early Modern period to the empire s collapse under Napoleonic rule A historical overview and timeline are followed by sections on government and politics organization and administration individuals groups and organizations key events the military objects and artifacts and key places Each of these topical sections begins with an overview essay which is followed by alphabetically arranged reference entries on significant topics The book includes a selection of primary source documents each of which is introduced by a contextualizing headnote and closes with a selected general bibliography **The End of the German Monarchy** John Van der Kiste,2017-11-07

World Monarchies and Dynasties John Middleton,2015-06-01 Throughout history royal dynasties have dominated countries and empires around the world Kings queens emperors chiefs pharaohs czars whatever title they ruled by monarchs have shaped institutions rituals and cultures in every time period and every corner of the globe The concept of monarchy originated in prehistoric times and evolved over centuries right up to the present Efforts to overthrow monarchies or evade their rule such as the American French Chinese and Russian revolutions are considered turning points in world history Even today many countries retain their monarchies although in vastly reduced form with little political power One cannot understand human history and government without understanding monarchs and monarchies This fully illustrated encyclopedia provides the first complete survey of all the major rulers and ruling families of the world past and present No other reference work approaches the topic with the same sense of magnitude or connection to historical context Arranged in

A Z format for ease of access World Monarchies and Dynasties includes information on major monarchs and dynasties from ancient time to the present This set includes overviews of reigns and successions genealogical charts and dynastic timelines addresses concepts problems and theories of monarchy provides background and information for further research highlights important places structures symbols events and legends related to particular monarchs and dynasties includes a master bibliography and multiple indexes

Institutions of Education: Then and Today Paul Cobben,2010-04-06 The theme of Institutions of Education then and today not only corresponds with the basic questions raised in German Idealism but is also central to the question of whether it is legitimate to study German Idealism in our era Elaborating on this project immediately raises the problem of institutional differentiation which characterizes multicultural society Does the variety of educational institutions not by definition exclude the shared conception and realization of adulthood that is presupposed by German Idealism This book shows that German Idealism can still participate in the contemporary debate on education it is not only helpful in raising relevant questions but can also be transformed into positions which can deal with the pluriformity that characterizes contemporary society

Bach, Handel, Scarlatti 1685-1985 Peter Williams,1985-04-18 1985 celebrated the 300th anniversary of the births of Bach Handel and Scarlatti This volume covers all three composers and contains essays from an international team of scholars Some essays make a contribution towards a better understanding of one or other composer but at least half of them are concerned with ideas connecting two or even all three of them The essays are concerned with many aspects of the music technical chronological critical speculative theoretical and importantly practical and the distinguished contributors have often endeavoured to ask questions rather than jump to conclusions Every essay makes fresh points and can open up new avenues for players and in the broadest sense students especially in the present climate of wishing to return to authentic conditions of performance

The Goodness Paradox Richard Wrangham,2019-12-03 A fascinating new analysis of human violence filled with fresh ideas and gripping evidence from our primate cousins historical forebears and contemporary neighbors Steven Pinker author of The Better Angels of Our Nature We Homo sapiens can be the nicest of species and also the nastiest What occurred during human evolution to account for this paradox What are the two kinds of aggression that primates are prone to and why did each evolve separately How does the intensity of violence among humans compare with the aggressive behavior of other primates How did humans domesticate themselves And how were the acquisition of language and the practice of capital punishment determining factors in the rise of culture and civilization Authoritative provocative and engaging The Goodness Paradox offers a startlingly original theory of how in the last 250 million years humankind became an increasingly peaceful species in daily interactions even as its capacity for coolly planned and devastating violence remains undiminished In tracing the evolutionary histories of reactive and proactive aggression biological anthropologist Richard Wrangham forcefully and persuasively argues for the necessity of social tolerance and the control of savage divisiveness still haunting us today

Black Apollo of Science Kenneth R. Manning, 1985-01-03 This biography illuminates the racial attitudes of an elite group of American scientists and foundation officers It is the story of a complex and unhappy man It blends social institutional black and political history with the history of science *Zimmer, Glass Artist* Klaus Zimmer, 2000 Biography of glass artist Klaus Zimmer primarily focussed on his work Includes memoir by the artist and essays on his work by artists and academics Illustrated throughout with colour and black and white photographs Also released in special edition with slipcase and two original artworks **Reviews and Essays of Austin Clarke** Austin Clarke, 1995 Austin Clarke is widely regarded as one of 20th century Ireland's most important poets In this selection of nearly fifty essays and reviews written over Clarke's long career he demonstrates that he is an astute and provocative literary critic as well Having grown up in Dublin when the excitement of the Irish Literary Revival was still running high Clarke knew many of the principal figures of that movement personally and his readings of Yeats Joyce Synge O'Casey Lady Gregory George Moore and others enjoy the advantages of an insider's point of view Moreover committed in his own poetry to the basic assumption that fuelled the Literary Revival that the most productive course for Irish literature lay in the direction not of England but of Ireland Clarke in his criticism provides a way of understanding and judging the Revival's major writers in terms of their relationships to Ireland's rich literary and cultural traditions At the same time these essays call attention to a number of distinctly Irish but often overlooked writers working on the margins of the revival As Yeats observed more than once the Irish for all the contributions that they have made to modern fiction poetry and drama have fallen somewhat short in the genre of literary criticism Austin Clarke's essays and reviews many of which were written under a pseudonym and so not attributed to Clarke for years go a long way towards filling that gap *Special Bibliographic Series* US Army Military History Research Collection, 1975

Department of State News Letter United States. Department of State, 1970 *On Royalty* Jeremy Paxman, 2008-07-31 The notable characteristic of the royal families of Europe is that they have so very little of anything remotely resembling true power Increasingly they tend towards the condition of pipsqueak principalities like Liechtenstein and Monaco fancy dress fodder for magazines that survive by telling us things we did not need to know about people we have hardly heard of How then have kings and queens come to exercise the mesmeric hold they have upon our imaginations In *On Royalty* renowned BBC journalist Jeremy Paxman examines the role of the British monarchy in an age when divine right no longer prevails and governing powers fall to the country's elected leaders With intelligence and humor he scrutinizes every aspect of the monarchy and how it has related to politics religion the military and the law He takes us inside Buckingham Palace and illuminates the lives of the monarchs at once mundane absurd and magical What Desmond Morris did for apes Paxman has done for these primus inter primates the royal families Gilded history weird anthropology and surreal reportage of the royals up close combine in *On Royalty* a brilliant investigation into how an ancient institution struggles for meaning in a modern country **Germany at War** David T. Zabecki, 2014-10-28 Written by experts for use by nonexperts this monumental work

probes Germany's Genius for War and the unmistakable pattern of tactical and operational innovation and excellence evident throughout the nation's military history. Despite having the best military forces in the world, some of the most advanced weapons available, and unparalleled tactical proficiency, Germany still lost both World Wars. This landmark four-volume encyclopedia explores how and why that happened at the same time, examining Germany as a military power from the start of the Thirty Years War in 1618 to the present day. Coverage includes the Federal Republic of Germany, its predecessor states, and the kingdoms and principalities that combined to form Imperial Germany in 1871. The Seven Years War is discussed, as are the Napoleonic Wars, the Wars of German Unification including the Franco-Prussian War, World War I, World War II, and the Cold War. In all, more than 1,000 entries illuminate battles, organizations, leaders, armies, weapons, and other aspects of war and military life. The most comprehensive overview of German military history ever to appear in English, this work will enable students and others interested in military history to better understand the sociopolitical history of Germany, the complex role conflict has played in the nation throughout its history, and why Germany continues to be an important player on the European continent.

Soldier Kings The House Of Hohenzollern Book Review: Unveiling the Power of Words

In a global driven by information and connectivity, the energy of words has are more evident than ever. They have the capability to inspire, provoke, and ignite change. Such is the essence of the book **Soldier Kings The House Of Hohenzollern**, a literary masterpiece that delves deep to the significance of words and their affect our lives.
