Fortune: The Rise and Fall of the Chinese Military-Business Complex, 1978-1998 James C. Mulvenon,2016-07-08 In 1978 faced with the pressure to modernize and a declining budget the Chinese People s Liberation Army PLA reluctantly agreed to join China s economic reform drive expanding its internal economy to market oriented civilian production This work examines PLA s role in the economy up to 1998 **Mao's Invisible Hand** Sebastian Heilmann,Elizabeth J.

Perry,2020-10-26 Observers have been predicting the demise of China s political system since Mao Zedong s death over thirty years ago The Chinese Communist state however seems to have become increasingly adept at responding to challenges ranging from leadership succession and popular unrest to administrative reorganization legal institutionalization and global economic integration What political techniques and procedures have Chinese policymakers employed to manage the unsettling impact of the fastest sustained economic expansion in world history As the authors of these essays demonstrate China s political system allows for more diverse and flexible input than would be predicted from its formal structures Many contemporary methods of governance have their roots in techniques of policy generation and implementation dating to the revolution and early PRC techniques that emphasize continual experimentation China s long revolution had given rise to this guerrilla style decisionmaking as a way of dealing creatively with pervasive uncertainty Thus even in a post revolutionary PRC the invisible hand of Chairman Mao tamed tweaked and transformed plays an important role in China s adaptive governance

The Rise of the Pasdaran Frederic M. Wehrey,2009 Examines the broad ranging domestic roles of Iran s Islamic Revolutionary Guards Corps assessing its influence over Iran s political culture economy and society and its ability to shape the political future of the Islamic Republic of Iran Wealth Into Power Bruce J. Dickson,2008-07-14 Dickson argues that rather than promoting democratization China s entrepreneurs offer key support for the Communist Party s agenda

Dictatorship and Information Martin K. Dimitrov,2023 Fear pervades dictatorial regimes Citizens fear leaders the regime s agents fear superiors and leaders fear the masses The ubiquity of fear in such regimes gives rise to the dictator s dilemma where autocrats do not know the level of opposition they face and cannot effectively neutralize domestic threats to their rule The dilemma has led scholars to believe that autocracies are likely to be short lived Yet some autocracies have found ways to mitigate the dictator s dilemma As Martin K Dimitrov shows in Dictatorship and Information substantial variability exists in the survival of nondemocratic regimes with single party polities having the longest average duration Offering a systematic theory of the institutional solutions to the dictator s dilemma Dimitrov argues that single party

autocracies have fostered channels that allow for the confidential vertical transmission of information while also solving the problems associated with distorted information To explain how this all works Dimitrov focuses on communist regimes which have the longest average lifespan among single party autocracies and have developed the most sophisticated information gathering institutions Communist regimes face a variety of threats but the main one is the masses Dimitrov therefore examines the origins evolution and internal logic of the information collection ecosystem established by communist states to monitor popular dissent Drawing from a rich base of evidence across multiple communist regimes and nearly 100 interviews Dimitrov reshapes our understanding of how autocrats learn or fail to learn about the societies they rule and how they maintain or lose power

The Lessons of History: The Chinese People's Liberation Army at 75 , The Chinese Army Today Dennis J. Blasko,2013-06-17 The Chinese Army Today is a comprehensive study of the Chinese military examining its ground forces in a level of detail not found in any other contemporary works This new revised edition has been fully updated to take account of recent changes in the institution In 1999 the military modernization program of the Chinese People s Liberation Army increased in intensity and achieved a focus not seen in the previous two decades Based primarily on actual Chinese sources this book details these changes and puts them in the context of the many traditions that still remain Written by a retired professional military officer who has served in China the text uses first hand observation of the Chinese military and three decades of military experience to weave many disparate threads from official Chinese statements documents and media reports into an integrated whole The author also conducts an in depth exploration into the many forces that constitute the People s Liberation Army This is an essential book for all students of Chinese military and security affairs and highly recommended for students of Chinese Politics Asian Security and International Relations and Strategic Studies in general

Chinese National Security Decisionmaking Under Stress Andrew Scobell,2005 If there is one constant in expert analyses of the history of modern China it is the characterization of a country perpetually in the throes of crises While China at the mid point of the Twenty first Century s first decade is arguably the most secure and stable it has been in more than a century crises continue to emerge with apparent frequency Consequently the study of china s behavior in conditions of tension and stress is of considerable importance to policy makers and analysts around the world Cold Rivals Evan S. Medeiros,2023 Cold Rivals brings together a distinguished group of scholars from the United States and China to examine the new era of strategic competition in US China relations The two countries are now competitors locked in a long term rivalry but how volatile the rivalry will become is still to be determined The book explores not only the historical roots and contemporary foreign policy aspects of this era but the volume also looks at the economic military and technological arenas of US China strategic competition In doing so this volume highlights important differences in US and Chinese perspectives A final section of the volume explores future scenarios for the relationship from different perspectives but with all of them coming to the sobering conclusion about a future marked by expanding differences growing tensions economic

disengagement and pressures for a global competition This policy relevant book provides a comprehensive overview of US China strategic competition and reinvigorates thinking about how to avoid reaching a crisis point **China's Military**

Procurement in the Reform Era Yoram Evron,2015-06-26 The decisions that shape the policy of weapons procurement are an important area of national security policy This is all the more true for China which during recent decades has vacillated between different sources and directions of military build up This book explores the politics of military procurement in China under the successive leaderships of Deng Xiaoping Jiang Zemin and Hu Jintao It shows how China's political and military leaders have sought to adjust military procurement policy to meet China's strategic objectives to relate it to non military needs to strike a balance between the import of weapons and indigenous production and to determine the connections between hardware and other components of military power Exploring in detail five major shifts in the nation's military procurement it traces the considerations and negotiations among China's civilian and military leaderships By doing so it offers both a conceptual framework and empirical grounds for evaluating the factors that shape China's military procurement directions as well as their limitations prospects and operational implications As the first book to study comprehensively and systematically the attributes shaping China's military procurement it will be of great interest to students and scholars of Chinese politics Chinese history and military and strategic studies *Chinese Provincial Leaders* Alan M. Glassman,Deone Zell,Shari Duron,2005 An emergent approach to organizational strategy making assumptions that few organizations actually realize the goal of deliberative top down strategic planning and that effective strategy making occurs on a continual basis and is a shared activity of the entire organization This innovative book provides the first in depth look at how real organizations are formulating and implementing strategic change under this new paradigm The authors have dug deep into three large and varied organizations Hewlett Packard the California State University system and the County of Los Angeles and identified each one's efforts to develop a new strategic planning process better suited to match the current pace of change and environmental unpredictability The book is filled with vignettes quotes and real world examples that illustrate the trend toward faster more adaptive strategic planning processes It is relevant for a wide range of business governmental and non profit settings and should be required reading in any course on strategic planning *Chinese Political Culture*

Shiping Hua,Andrew J. Nathan,2016-07-08 Until this book there has been no comprehensive methodologically aware study of all aspects of Chinese political culture The book is organized into three major areas Chinese identities and popular culture regional identities anti politics attitudes Hong Kong identity public opinion surveys the Beijing area Chinese workers the Shanghai area and ideological debates the new Confucianism masculinity and Confucianism why authoritarianism is popular in China the decline of Chinese official ideology Here is the first work that reveals just how much how rapidly and how dramatically China is changing and why our perceptions of China must keep pace **The Fourth Industrial Revolution**

and Military-Civil Fusion Yoram Evron,Richard A. Bitzinger,2023-06-15 Advanced commercial technologies offer new

opportunities for defense applications that could greatly affect military power and metrics of military advantage This is relevant when it comes to civilian based technological innovations found in the emerging fourth industrial revolution such as artificial intelligence autonomous systems big data and quantum computing Militaries and governments around the world are increasingly focused on how and where advanced commercial technologies innovations and breakthroughs could potentially create new capacities for military power advantage and leverage This process of exploiting civilian based advanced technologies is referred to as military civil fusion MCF This book addresses MCF not only from a conceptual and practical sense but also comparatively as it explores how four different countries the United States China India and Israel are attempting to use MCF to support national military technological innovation It will interest scholars researchers and advanced students of military security and technology studies as well as analysts and policymakers in military and defense organizations

The Political Economy of China Hongying Wang, 2025-07-21 China's economic rise over the last four decades has been as confounding as it has been impressive Few economies have grown as fast and changed the lives of so many people in such a short time How is it that a nominally Communist state has been able to achieve this economic miracle And what are the consequences of this rapid transformation into a global economic powerhouse both inside China and abroad The Political Economy of China is a lively and comprehensive introduction to China's economic development in the contemporary era Across its twelve thematic chapters the book offers a multifaceted examination of the history sectors and policies that are essential for understanding China's growth experience Chapter topics include the evolution of the state and private sectors rural economic development the labour market social welfare in China the environment macroeconomic management and finance foreign trade and direct investment and China's going out strategy of overseas investment that includes the Belt and Road Initiative Written by a respected authority on the subject with more than a decade of experience teaching it to students the book will serve as a vital resource for anyone new to the study of Chinese political economy or seeking a deeper understanding of the political and economic logic behind the headlines about the miracle and mirage of China's rise

Corruption by Design Melanie Manion, 2009-07-01 This book contrasts experiences of mainland China and Hong Kong to explore the pressing question of how governments can transform a culture of widespread corruption to one of clean government Manion examines Hong Kong as the best example of the possibility of reform

Reluctant Restraint Evan S. Medeiros, 2009 *The Chinese Corporate Ecosystem* Colin S. C. Hawes, 2022-08-04 Challenging simplistic claims that Chinese corporations merely serve Communist Party goals this book argues we cannot understand these corporations without tracing their dynamic evolution within a unique socio political ecosystem Vivid case studies illuminate the strange hybrid structures and networks that are essential for corporate success in the Chinese habitat Tracing the reciprocal impacts between Chinese corporations and their environment Colin S C Hawes reveals how corporations political adaptations have raised serious obstacles for their international expansion and worsened China's environmental crisis Adopting an

interdisciplinary approach that synthesizes insights from behavioural economics science and Chinese philosophy this book proposes innovative solutions to the damaging impacts of Chinese corporations It makes a compelling case for redirecting the vital energy of corporations and government officials in more productive and sustainable directions The Lessons of History Laurie Burkitt, Andrew Scobell, Larry M. Wortzel, 2003 **Market in State** Yongnian Zheng, Yanjie Huang, 2018-09-06 Uses the framework of market in state to argue that the Chinese economy is state centered dominated by political principles over economic principles
